¹ Value of farm products sold, traded, or used by farm households.² Since, for the sample farms, no tabulation of acreage was made by size, it was not possible to harmonize the adjusted figures for number of farms by size, either with the recorded figures for all land in farms by size, or with the adjusted figures for all land in farms by value groups.

¹ Value of farm products sold, traded, or used by farm households.² Since, for the sample farms, no tabulation of acreage was made by size, it was not possible to harmonize the adjusted figures for number of farms by size, either with the recorded figures for all land in farms by size, or with the adjusted figures for all land in farms by value groups.

¹Value of farm products sold, traded, or used by farm households.

²Since, for the sample farms, no tabulation of acreage was made by size, it was not possible to harmonize the adjusted figures for number of farms by size, either with the recorded figures for all land in farms by size, or with the adjusted figures for all land in farms by value groups.
