CENSUS OF AGRICULTURE: 1940

TABLE 1.—NUMBER OF FARMS, 1940, CROSS-CLASSIFIED BY MAJOR SOURCE OF INCOME AND TOTAL

[Bold face figures are the 1940 Census recorded totals for all farms; all other entries are based upon a 2-percent sample of the reports for the individual For geographic division and State figures showing the cross-classification of number of farms and value

Table with columns: DIVISION AND VALUE GROUP, ALL CLASSIFIED FARMS², FARMS WITH MAJOR SOURCE OF INCOME FROM LIVESTOCK AND LIVESTOCK PRODUCTS, FARMS WITH MAJOR SOURCE OF INCOME FROM CROPS AND FOREST PRODUCTS, and Farms with farm products used by farm households... Rows include WEST NORTH CENTRAL, SOUTH ATLANTIC, EAST SOUTH CENTRAL, and WEST SOUTH CENTRAL with various income brackets.

¹Value of farm products sold, traded, or used by farm households. Since, for the sample farms, no tabulation of value of products was made by major-source groups, it was not possible to harmonize the adjusted figures for number of farms, cross-classified by value of products and by major source of income, with the totals for value of products by major-source groups, as published in ch. X of vol. III, General Report on Agriculture.

²Includes farms with usable reports for value of farm products sold, traded, or used by farm households; but excludes 88,502 farms with no farm products sold, traded, or used by farm households, and also, 39,542 unclassified farms.

¹Value of farm products sold, traded, or used by farm households. Since, for the sample farms, no tabulation of value of products was made by major-source groups, it was not possible to harmonize the adjusted figures for number of farms, cross-classified by value of products and by major source of income, with the totals for value of products by major-source groups, as published in ch. X of vol. III, General Report on Agriculture.

²Includes farms with usable reports for value of farm products sold, traded, or used by farm households; but excludes 88,502 farms with no farm products sold, traded, or used by farm households, and also, 39,542 unclassified farms.
