1 For 1929 includes farms with usable reports of value of farm products sold, traded, or used by farm households, but excludes farms with no products sold, traded, or used. For 1929 includes reports for farms classified by "Type," regardless of whether or not farm products were reported sold, traded, or used by farm households (see text).
2 Does not include bees, however, for-bearing animals kept in captivity, or the pelts of such fur-bearing animals.
3 Value of sales of Irish and sweet potatoes included with "Field crops" and not with vegetables.
4 Excludes figures for unclassified farms. The number of farms reporting horticultural specialties shown in this table includes only those reporting sales in 1929. The number of farms reporting any "Horticultural specialties" shown in County Table XIII (col. 1), includes, in addition, farms reporting area devoted to these crops but having no sales in 1929 (see text).
5 Value of sales of maple sugar and sirup included with "Forest products" in 1929, but not for 1939.
