VIII.—CAPITAL INVESTED IN ENTERPRISE		Code	ENUMERATOR'S RECORD	
25. Cost of irrigation works and equipment to December 31, 1939.....	\$..... (Omit cents)	A-12 D-5	State.....	County..... E. D. No.....
26. If works were not completed December 31, 1939, estimate additional investment required for completion.....	\$..... (Omit cents)	D-6 XX	Visitation numbers of corresponding farm schedules.....	
27. Amount actually expended for water rights.....	\$..... (Omit cents)	D-9 Xout	Enumerated by me on....., 1940.	
IX.—MAINTENANCE AND OPERATION		A-13 E-5 XX XX	SECTION III.—These questions relate to the rights of the enterprise to take water from the stream or other source from which it is obtained. Some enterprises have several rights, each of which should be shown; and many rights will fall in more than one of the classes named. In each instance the right should be reported in the class in which it stands at the time of the enumeration.	
28. Cost of maintenance and operation in 1939.....	\$..... (Omit cents)		SECTION IV.—“Individual” or “Partnership” enterprises are those belonging to individual farmers or groups of farmers associated without formal organization. “Cooperative” enterprises are controlled by the water users combined in some organized form of cooperation under State laws, the most common form being the stock company, the stock of which is owned by the water users.	
X.—QUANTITY OF WATER USED IN 1939 (Gravity and pumped)		E-10 XX	SECTION V.—The answer to Question 11 must conform to the Census definition of a farm, as shown on the Farm and Ranch Schedule.	
29. Total quantity of water delivered to irrigators during season of 1939.....	Acre-feet.....		Under “Total irrigable acreage this project will cover when completed,” only the acreage to which it is definitely planned to supply water should be reported. Possible extensions not yet definitely planned should not be included.	
EXPLANATIONS AND INSTRUCTIONS			The answer to Question 13 should include all land to which the enterprise is ready and able to supply water, whether land is farmed or not.	
LEGAL REQUIREMENT.—A report of every irrigation enterprise in the United States is required by the Decennial Census Act of the Congress, approved June 18, 1929.			The “Area actually irrigated in 1939” should be limited to land to which water was actually applied during that year. It should not include land which is under the system and sometimes irrigated, but which was not watered in 1939, nor land not yet irrigated on farms that are in process of reclamation.	
DEFINITION OF AN IRRIGATION ENTERPRISE.—An irrigation enterprise, for the purpose of the census, is a canal or other water conduit system, pumping plant, or a reservoir supplying water for irrigation, or any combination of these operated under a single management by either an individual, a partnership, a company, or other organization.			The answer to Question 14(a) should be the total of all land irrigated. If the cropland harvested, irrigated pasture, and irrigated area upon which crops failed do not equal the total reported under Question 14(a), write an explanation on the margin or the back of this schedule.	
Land should be classed as irrigated which has water supplied to it for agricultural purposes by artificial means or by seepage from canals, reservoirs, or irrigated lands, but land which has natural ground water sufficiently near the surface to support plant life should not be classed as irrigated. Land which is flooded during high-water periods should be classed as irrigated if water is caused to flow over it by dams, canals, or other works, but should not be classed as irrigated if the overflow is due to natural causes alone.			SECTION VI.—This section relates only to lands which have been irrigated or are to be irrigated by this enterprise. The “Additional area in need of drainage” will necessarily be estimated. Enumerators should make the best estimates possible, based on information furnished by the officials of the enterprise and by others in the community, and on their own observations, but they should not attempt to make extended field observations.	
This schedule is to be used by enumerators to report irrigation enterprises serving less than five farms.—Reports for larger enterprises will be secured by enumerators only when they are specifically instructed by their supervisors to do so, and enumerators will then use schedule Irrigation—2. However, enumerators are cautioned to return reports for all pumping plants, wells, canals, or reservoirs operated by individuals or groups of four or less who also obtain water from enterprises serving more than four farms.			SECTION VII.—A main canal is any channel conveying water from the source of supply to the tract of land to be irrigated. A lateral canal is a branch of a main canal conveying water from a main canal to one or more farms. Farm ditches, which distribute the water within the boundaries of the individual farm, should not be reported. Farm pipe distribution lines should be reported, using best figures obtainable.	
If the Farm and Ranch Schedule (Questions 31 and 32) shows that the farm was irrigated, the enumerator should ask whether the irrigation enterprise reported under Question 33 serves less than five farms in all; if the answer is “Yes” he should obtain the names of all the farmers involved, and, from one of them (or other reliable source), obtain the information needed to fill out this Irrigation Schedule, unless, upon further inquiry, he is told that an Irrigation Schedule has already been received from the Bureau of the Census. If such a schedule has been received, he should ask whether it has been filled out and returned. If the answer to this question is “Yes,” the enumerator should make an entry to that effect on his daily report. The enumerator should satisfy himself, however, that it was actually a United States Census Irrigation Schedule, and not some other form of schedule, which was received and filled out, and that the irrigation enterprise it described was none other than the one about which he is inquiring.			If the capacity of a reservoir is not known, it should be estimated by multiplying the area (in acres) of the water surface when reservoir is full, by the average depth (in feet) above the level of the bottom of the outlet. The product will be “acre-feet.” Length, width, and depth, in feet, should be given for small farm reservoirs.	
If the enterprise has received an Irrigation Schedule by mail and has not filled it out, or has filled it out but has not returned it, the enumerator should obtain it. Only a few schedules will have been received by mail by enterprises serving less than five farms, these being individuals or partnerships in isolated sections, or enterprises whose size was not definitely known by the Bureau of the Census.			If yields of either flowing or pumped wells are not known, obtain the best estimates possible.	
ALL QUESTIONS ARE TO BE ANSWERED.—If exact information is not available, get the best estimate possible and write “Est.” beside the answer. Use the margin or back of this schedule when additional space is necessary to make the answers clear, definite, and complete.			Under “Kind of motor or engine,” if windmills are used, for “Capacity” give diameters of wheels rather than horsepower.	
SECTION I.—If a farm is supplied with water by more than one canal or enterprise, and these canals supply water to not more than three other farms, a schedule should be made out for each canal; but if a farm is supplied with water by more than one canal or enterprise, and these canals supply no other farm or farms, all such canals should be included on a single schedule. The names, if the canals are named, should be written on the blank lines under Question 2.			Under “Kind of pump,” if some unusual type of pump or other water-lifting device is used, describe it briefly on the margin or back of this schedule, with suitable reference to the question number.	
SECTION II.—If water is secured from more than one source, each should be marked and the principal source indicated by underscoring. If water is secured from two or more streams or other sources, the name of each should be given.			Under “Average lift,” give the vertical distance, in feet, between the average level of the water in the source of supply when the pump is running at usual capacity and the average level to which the water is lifted. Do not consider friction and velocity heads or horizontal distances. If more than one pump is reported, give the average lift for each pump separately, with corresponding yield.	
“Stored storm water” refers to reservoirs filled by storing storm water from channels that carry water only during storms and are not classed as streams. When water is obtained from a reservoir filled from a stream, the stream should be given as the source.			SECTION VIII.—In answering Question 25, include the original cost of the irrigation works plus the cost of extensions and improvements; also the cost of equipment, buildings, and land used for maintenance and operation, but not water rights. If works are not completed, give investment to December 31, 1939. If there are no records of cost, or if the owners have done all or part of the construction, the best estimate of cost obtainable should be reported, including the estimated value of the work done by the owners. If drainage works have been built, do not include their cost in the answer to Question 25.	
Under “Drainage basin,” the name of the smallest stream that is well known and which is shown on ordinary maps should be given. This inquiry should be answered, even if water is not obtained from a stream.			Under “Water rights,” include filing and legal fees paid by the enterprise in acquiring them; and, if they were purchased by the enterprise, give the purchase price.	
			SECTION IX.—In answering Question 28, report only the costs of maintenance, including ordinary cleaning and repairs; and operation, including fuel or power and attendance.	
			SECTION X.—The answer to Question 29, if the total supply is pumped, should be the same as the answer to Question 22(h). If the water supply is obtained from two or more sources, pumped or gravity, the answer to Question 29 should be the total amount of water delivered from all such sources.	

CONFIDENTIAL CENSUS REPORT: Your report is required by Act of Congress. This Act also makes it unlawful for the Bureau to disclose any facts, including statistical information concerning the Nation's population, resources, and business activities. Your

## DEPARTMENT OF COMMERCE—BUREAU OF THE CENSUS

WASHINGTON

## SIXTEENTH CENSUS

OF THE

UNITED STATES: 1940

## IRRIGATION-2

16-217

This schedule is to be used ONLY for irrigation enterprises serving FIVE or MORE farms, in the following States:

Arizona	Kansas	New Mexico	Texas
Arkansas	Louisiana	North Dakota	Utah
California	Montana	Oklahoma	Washington
Colorado	Nebraska	Oregon	Wyoming
Idaho	Nevada	South Dakota	

## I.—MANAGEMENT AND LOCATION OF ENTERPRISE

- Name of this canal or irrigation enterprise.....
- Correct legal or incorporated name of this enterprise:  
.....
- Location:  
Post-office address: { Main office.....  
Local office.....  
(a) Lands of this { State.....  
enterprise: { County (or counties).....  
(b) Head of main canal; well; spring; reservoir; or other source:  
Section..... Township..... Range.....  
If located on unsurveyed land, describe by direction and distance from some near-by town.  
.....
- Person furnishing information:  
Name..... Title.....  
Address.....  
Date.....  
Signature.....

## II.—SOURCE OF WATER SUPPLY

- Indicate type by X (if more than one type, mark each):  
Stream ☐ Pumped well ☐ Flowing well ☐ Spring ☐  
Stored storm water ☐ Lake ☐ City water ☐ Sewage ☐
- Name of stream or other source.....
- Drainage basin.....  
Give name of river system which drains the region in which enterprise is located.

## III.—WATER RIGHTS

- Indicate type by X (if more than one type, mark each):  
NOTE.—Some enterprises have several rights, each of which should be shown; and many rights will fall in more than one of the types named. For instance: A right may have been acquired originally by appropriation and use; later the owner may have filed and posted a notice of his claim; still later the right may have been adjudicated by a court or board; and, finally, a certificate may have been issued by the State. Or a right may have been initiated on a permit from the State and the owner may have received later a certificate from the State. In each instance the right should be reported in the class in which it stands at the time of enumeration.  
(a) Riparian rights.....  
(b) Appropriation rights.....  
(c) All other rights.....  
(Specify, as "underground water," etc.)

## IV.—TYPE OF ENTERPRISE

NOTE.—The types of enterprises recognized by the census are as follows:

Individual or partnership enterprises, which belong to individual farmers or to groups of farmers associated without formal organization. It is not always possible to distinguish between partnership and cooperative enterprises, but as the difference is slight this is unimportant.

Cooperative or mutual enterprises, which are controlled by the water users combined in some organized form of cooperation under State laws. The most common form of organization is the stock company, the stock of which is owned by the water users. In New Mexico many of the cooperative enterprises are operated under laws regulating "community" ditches.

Irrigation districts, which are public corporations established under State laws and empowered to issue bonds to obtain funds for the purchase or construction of irrigation works, and to levy and collect taxes for the payment of bonds and interest thereon and for the payment of the cost of operation and maintenance. In some States these are called water improvement districts, water conservation districts, water storage districts, etc.

Carey Act enterprises, established under the Federal law of August 18, 1894, granting each of the States in the arid region 1,000,000 acres of land on condition that the State provide for its irrigation and under amendments to that law granting additional areas to Idaho and Wyoming. Practically all Carey Act projects are now organized as irrigation districts or other cooperative enterprises and should be so reported.

Commercial enterprises, incorporated or otherwise, and including public utilities regulated by State commissions, which supply water for compensation to farmers who own no interest in the works. Irrigators obtaining water from such enterprises are required to pay annual charges based in some instances on the acreage irrigated and in others on the quantity of water received, and sometimes must pay in addition for the initial right to receive water.

United States Bureau of Indian Affairs enterprises, established under various acts of the Congress providing for the construction by that Service of works for the irrigation of land in Indian reservations.

United States Bureau of Reclamation enterprises, established under the Federal law of June 17, 1902, providing for the construction of irrigation works with the receipts from the sale of public lands or other sources.

State enterprises.—In a few instances the States themselves have carried out irrigation enterprises under special legislation.

City water or sewage irrigation enterprises.—This type is self-explanatory.

- Indicate type of enterprise at the present time by X:

Individual .....	Carey Act .....
Partnership .....	U. S. Bureau of Indian Affairs .....
Cooperative { (a) Incorporated .....	U. S. Bureau of Reclamation .....
(b) Unincorporated .....	
Irrigation district .....	State enterprise .....
Commercial { (a) Incorporated .....	City enterprise .....
(b) Unincorporated .....	

Many enterprises were organized under one form and later changed to another form. In such cases, state the facts on the blank lines below:  
.....

## V.—LANDS

- (a) Are any lands in this enterprise irrigated with water supplied by any other enterprise? (Yes or No).....  
(b) If answer to Question 10(a) is "Yes," give names of other enterprises and show acreage of this enterprise irrigated by such other water:  

NAME OF OTHER ENTERPRISE	ACREAGE	TOTAL ACREAGE
.....	.....	X X X X X X
.....	.....	
.....	.....	
- (c) Does this enterprise supply water to other enterprises? (Yes or No).....
- (d) If answer to Question 10(c) is "Yes," give names of the other enterprises receiving the water:  

NAME OF OTHER ENTERPRISE	Code
.....	
.....	
.....	

- Farms supplied with water by this enterprise in 1939 (see Explanations and Instructions). Number..... A-1
- Total irrigable acreage this project will cover when completed..... Acres..... A-2
- ..... A-3
- Area to which existing works are capable of supplying water in 1940..... Acres..... { A-4

## IV.—SEPARATE REPORT FOR EACH COUNTY

NOTE: { If enterprise is located entirely in one county: Answer Questions 11 through 35 for the whole enterprise.  
If enterprise is located in more than one county: Answer Questions 11 through 35 only for that part of the enterprise located in the county reported under Question 10.

10. Name of county to which the following answers apply \_\_\_\_\_

V.—LAND IN ENTERPRISE (in this county)		Code	VII.—DRAINAGE WORKS (in this county)		Code
11. Area of enterprise: (The sum of b and c must equal a.)			NOTE.—Drainage works of an enterprise include all varieties of underground conduits, pipes, or lines of tile; drains of stone, wood, or other materials; and all open ditches, canals, and pumping equipment for drainage. Levees, dikes, dams, weirs, gates, and other devices for draining away or controlling surface and soil waters are to be considered "Drainage works" when, and only when, they are constructed or operated with drainage ditches, underdrains, or drainage pumps. Tile as here used includes pipes of earthenware, concrete, or other materials buried beneath the surface in such a way as to permit the excess water to flow away. Ditches include all open artificial trenches, usually with sloping sides.		
(a) Total..... Acres		A-1	24. Open ditches belonging to this enterprise:		A-15
(b) Assessed for cost of enterprise..... Acres		B-1	(a) Total length constructed or improved... Miles		B-12
(c) Not assessed but benefited..... Acres		A-2	(b) Additional length authorized..... Miles		C-2
(d) Why was acreage reported under "c" not assessed? <input type="checkbox"/>		A-3	25. Levees and dikes belonging to this enterprise:		D-10
(e) If this enterprise was established for any other purpose than drainage, what area is served or to be served by the work for which costs are assessed?..... Acres		A-4	(a) Total length constructed, rebuilt, or relocated..... Miles		C-3
12. Overlapping of enterprises:			(b) Additional length authorized..... Miles		C-4
(a) Portion of total area (11a) that was included in later enterprises for which reports are obtained..... Acres		A-5	26. Tile drains belonging to this enterprise:		C-5
(b) Portion of total area (11a) that has not been included in later enterprises for which reports are obtained..... Acres		B-2	(a) Total length installed..... Miles		C-6
NOTE.—Questions 13 to 17, inclusive, apply to the acreage reported under Question 12b. The sum of a, b, and c under each of Questions 13 and 14 should equal the answer to 12b.			(b) Additional length authorized..... Miles		C-7
13. Drainage condition in 1939:			27. Number of drainage wells from which water is pumped by this enterprise to lower ground water table (if none, write "None")..... Number		C-8
(Question 13 relates only to degree of wetness of the land, regardless of its actual use.)			28. Pumping equipment (show only in county where located): <input type="checkbox"/>		C-9
(a) Area unfit to raise any crop, for lack of drainage..... Acres		A-6	(a) Kind of power..... (Steam, electric, Diesel, etc.)		C-10
(b) Area drained, fit to raise normal crop..... Acres		A-7	(b) Capacity of plant..... Horsepower		C-11
(c) Area partly drained, fit for partial crop only..... Acres		B-3	(c) Kind of pumps..... (Centrifugal, rotary, turbine, plunger, etc.)		C-12
14. Use of land in 1939:			(d) Number of pumps..... Number		C-13
(a) Improved land..... Acres		A-8	(e) Total capacity of pumps..... Gallons per minute		C-14
(b) Timber and cut-over land (all requiring clearing before it can be plowed)..... Acres		B-4	(f) Average lift..... Feet		C-15
(c) Other unimproved land..... Acres		A-9	29. Area (in 12b only) served by pumps (if none, write "None")..... Acres		C-16
15. Land in occupied farms in 1939:			30. Maintenance of drainage works:		A-16
(a) Total area..... Acres		A-10	(a) Are the ditches maintained systematically?..... (Yes or No)		B-13
(b) Area planted in 1939..... Acres		A-11	(b) Indicate method of doing maintenance work by X:		C-17
16. Area that has been assessed by this enterprise, but was idle in 1939..... Acres		A-12	District forces.....		D-11
17. Area available for settlement (if none, write "None")..... Acres		A-13	Contract let..... <input type="checkbox"/>		A-17
VI.—CAPITAL INVESTED AND FINANCING (in this county)			Work apportioned to landowners.....		B-14
NOTE.—The following inquiries relate to the costs assessed or to be assessed against lands in this county which, in the case of an enterprise located in more than one county, may be different from the cost of the drainage works constructed in this county.			Other (give name).....		C-18
The figures should show the cost of original construction plus enlargements and extensions, but not operation or maintenance. Where investment and maintenance costs have not been kept separate, the portion representing capital investment should be estimated as accurately as possible.			(c) Does enterprise own excavators or other power equipment (not including automobiles and trucks) used principally for maintenance?..... (Yes or No)		D-12
18. Cost of drainage works to January 1, 1940..... \$..... (Omit cents)		B-7	(d) Cost of operation and maintenance in 1939 (if none, write "None")..... \$..... (Omit cents)		B-15
19. Estimated additional cost to complete works authorized..... \$..... (Omit cents)		C-1	31. Government aid for maintenance and rehabilitation:		C-19
20. Total indebtedness, Dec. 31, 1939 (if none, write "None")..... \$..... (Omit cents)		D-1	(a) Did this enterprise ever receive from any Federal agency, directly or through State or local organization, assistance in restoring its drainage works without obligation to repay the cost?..... (Yes or No)		B-16
21. Amount of taxes and special assessments collected in 1939 (if none, write "None")..... \$..... (Omit cents)		B-8	(b) Name of such agency: <input type="checkbox"/>		C-20
22. Arrearage, Dec. 31, 1939:		D-2	VIII.—EMPLOYMENT AND PAY ROLL		
(a) Was this enterprise in arrears in payment of principal or interest on bonds or other obligations?..... (Yes or No)		D-3	32. Total amount of wages and salaries paid and payable for 1939 (if none, write "None")..... \$..... (Omit cents)	D-16	
(b) Amount in arrears (if any)..... \$..... (Omit cents)		D-4	33. Total number employed during the week ending April 29, 1939 (if none, write "None")..... Number	D-17	
(c) Has any reduction been made in the total of cost assessed for this enterprise by reorganization, refinancing, bankruptcy proceedings, or any less formal agreement with bondholders or other creditors?..... (Yes or No)		A-14	IX.—FLOOD PROTECTION BY OUTSIDE AGENCIES (in this county)		
(d) Amount of such reduction in indebtedness..... \$..... (Omit cents)		B-10	34. Area (in 12b only) protected from overflow by levees or dikes belonging to a levee district, State, or other outside agency (not this enterprise). (If none, write "None.")..... Acres	B-19	
23. Area delinquent in payment of drainage taxes, Dec. 31, 1939 (if none, write "None")..... Acres		D-5	35. Name of outside agency protecting area in this enterprise from overflow:	C-23	
		D-6		B-20	
		D-7			
		D-8			
		D-9

Form No. A-101

DEPARTMENT OF COMMERCE—BUREAU OF THE CENSUS  
Sixteenth Census of the United States: 1940  
**GENERAL SCHEDULE FOR FARMS AND RANCHES—ALASKA**

File No. ....

Judicial Division ..... Enumeration District No. ....  
Recording District ..... Number of this farm in order of visitation .....  
Enumerated by me this ..... day of ..... 19.....  
(Signature of enumerator)

(FOR EXPLANATIONS AND INSTRUCTIONS, SEE BACK OF SCHEDULE)

**I.—OPERATOR**

1. Name of operator ..... Age .....  
2. Principal occupation .....  
3. Sheet and line of population schedule where operator's name appears .....  
4. Town or village .....  
Is this farm inside boundaries of town if incorporated? ..... (Yes or no)  
5. Year when operator began to operate this farm ..... (Year)

**II.—TENURE**

6. If you rent any farm land from others, or manage any farm land for others, or use any Government land under permit, give name and address of owner.  
Name .....  
Address .....  
(Street or Route No.) (Post office) (State or Territory)  
7. Do you operate the farm reported on this schedule for others as hired manager? ..... (Yes or no)  
8. How many acres of this farm do you own? .....  
(Acres or fraction of acre)  
9. How many acres do you rent from others? .....  
(Acres or fraction of acre)  
(The sum of the entries for questions 8 and 9 must equal the entry for question 10, unless the farm is operated by a hired manager)

**III.—ACREAGE**

- |  | Acres or Fraction of Acre |
|--|---------------------------|
| 10. Total acreage of farm reported on this schedule.....   |                           |
| 11. Land from which crops were harvested in census year.....<br>(Report all cropland, all tame and wild hay land, and gardens, orchards, and vineyards)                |                           |
| 12. Cropland from which no crop was harvested in census year (idle, fallow, or failure; specify which).....  |                           |
| 13. Land used solely for pasture or grazing, and woodland pastured or grazed.....  |                           |
| 14. All other land, including woodland not pastured or grazed.....<br>(The sum of the entries for questions 11 to 14, inclusive, must equal the entry for question 10) |                           |

**IV.—VALUES**

15. Total value of farm reported on this schedule..... \$.....  
(Value of all land operated by you as owner, tenant, or manager, and of all buildings and improvements, but not of implements and machinery or of livestock)  
16. Value of all buildings on this farm, included above..... \$.....  
17. Value of implements and machinery belonging on this farm..... \$.....  
(Value of all farm implements, tools, wagons, carriages, harnesses, dairy equipment, thrashers, and hayting machines and of all engines, motors, tractors, automobiles, motorcycles, and other farm machinery)

**V.—MORTGAGE DEBT**

- The questions relating to mortgage debt must be answered if the operator, whose name appears under question 1, owns all or any part of the farm reported on this schedule, but should not be answered if he owns no part of it.  
18. Was there on October 1, 1939, any mortgage debt on land and/or buildings of the farm reported on this schedule, that were owned by you? ..... (Yes or no)  
19. Total amount of such mortgage debt..... \$.....  
16-30

**VI.—EXPENDITURES**

20. Amount expended within census year for hay, grain, mill feed, and other commodities purchased for use as feed for animals and poultry..... \$.....  
21. Amount expended in cash within census year for agricultural labor (exclusive of housework)..... \$.....

**VII.—CROPS HARVESTED ON THIS FARM WITHIN CENSUS YEAR**

Cereals and Legumes Harvested for Grain or for Seed	Acres Harvested		Bushels Harvested
22. Wheat.....			
23. Oats.....			
24. Barley.....			
25. Mixed grains (specify).....			
26. Peas.....			
27. Vetch.....			
28. All other cereals and legumes harvested for grain or for seed (specify).....			
Hay and Other Forage, Including Silage			Tons Harvested
Small grains cut for hay:			
29. Unmixed with any other crop (specify).....			
30. Mixed with other crops (specify):.....			
31. All other tame or cultivated hay.....			
32. Marsh, prairie, and other wild grasses.....			
33. Root crops for forage (specify):.....			
34. Mature crops grazed or hogged off (specify).....			XXXXXXXXXX
35. All other hay and forage crops (specify).....			
36. All hay sold within census year.....	Tons	Value, \$.....

### EXPLANATIONS AND INSTRUCTIONS

1. Definition of "farm."—A farm, for census purposes, is all the land which is directly farmed by one person, either by his own labor alone or with the assistance of members of his household or of hired employees. The land operated by a partnership is likewise considered a farm. A farm may consist of a single tract of land or of a number of separate tracts, and these several tracts may be owned by different persons, as when one tract is owned by the farmer and another tract owned by a tenant. If the land is operated by a farmer, tenant, renters, croppers, or managers, the land operated by each is treated as a farm. Do not report as a farm any tract of land of less than 3 acres, unless its products

2. **The census year.**—For farms canvassed before the close of 1939, the census year is the period from October 1, 1938, to September 30, 1939; for farms canvassed in 1940, it is the calendar year 1939. (See par. 160, Instructions to Enumerators.)

3. Schedules to be used.—In order to obtain a complete inventory of agriculture, two schedules to be used: (1) This schedule for General Schedules for Farms and Ranches, and (2) the schedule for Livestock and Poultry for Farms and Ranches. After completing your enumeration of each family on the Population schedule, inquire whether any member of the family operates a farm or maintains a schedule, a poultry farm, or other enclosure containing livestock, and if so, and if the family encloses in its own enumeration district, fill out the proper schedule. Do not, in any case, use both schedules for the same property.

4. The General Schedule for Farms and Ranches will be used for enumerating all farms, ranches, and special agricultural operations conforming the definition of "farm." Special care should be taken to record, on this schedule, all operations which fall within the scope of that definition or which approach it closely enough so that there is any doubt.

This applies to market gardens, truck and fruit gardens, nurseries, green-houses, poultry establishments, town or village dairies, fur farms, and all other special agricultural operations of 1/3 acre or more of land is used or if the products in the current year were valued at \$100 or more. Livestock of any kind kept on properties that fall outside the scope of the census definition of "farm" must be reported on the schedule for Livestock Not on Farms or Ranches.

5. Ranchers using public lands.—Public land used by a rancher without rental is not a part of the rancher's farm. If he grazes animals entirely on public land without paying, write at the end of section II, "No land owned or rented."

Homestead land.—Land on which the farmer has settled under the homestead law, but has not proved up, should be reported as owned land.

6. General method of filling out schedules.—Take care to write legibly, and in particular to make figures so that they can be read at a glance. Be sure that you know the proper entry and where it should be made before making it, so as to avoid erasures.

7. Source of information.—Obtain information with regard to a farm from the farm operator in every case where this is possible. If it is necessary to accept the statements of a member of his family, or of some other person, be sure that this person is able to give you reliable information.

9. All questions to be answered in order.—Give the information asked for on the schedule in the order of the inquiries. Inability to obtain exact data does not justify failure to answer a question. The most accurate returns that the circumstances permit must be obtained. If farm records or accounts are kept, furnish them. If such records are not available, careful estimates should be given in all cases be obtained or estimated. When the names of persons corresponding to the names listed on the schedule, leave the spaces opposite such names blank. Take care to give correctly, in section I, the name of the farm operator and the place where he resides, in detail, as given in the Population

GENERAL SCHEDULE FOR FARMS, RANCHES,  
AND PLANTATIONS—HAWAII

19-235

County \_\_\_\_\_ Enumeration District No. \_\_\_\_\_

Island \_\_\_\_\_ Number of this farm in order of \_\_\_\_\_

Judicial District \_\_\_\_\_ visitation \_\_\_\_\_

Enumerated by me this \_\_\_\_\_ day of \_\_\_\_\_, 1940.

(Signature of Enumerator)

FOR EXPLANATIONS AND INSTRUCTIONS, SEE REVERSE SIDE OF SCHEDULE

I.—OPERATOR

Do not use

Tenure Size

1. Name of operator \_\_\_\_\_ Ago \_\_\_\_\_

2. Number of operator's household in order of visitation, as given on Population Schedule \_\_\_\_\_

3. Color or race of operator (check (✓) in proper square):

1. Caucasian	4. Hawaiian	7. Korean
2. Chinese	5. Part-Hawaiian	8. Negro
3. Filipino	6. Japanese	9. Puerto Rican

10. Other (specify): \_\_\_\_\_

4. Number of days in 1939 operator worked on this farm for pay or income \_\_\_\_\_ Days \_\_\_\_\_

5. Of days worked on the farm, how many were spent—

(a) At farm work not connected with this farm? \_\_\_\_\_ Days \_\_\_\_\_

(b) At nonfarming jobs, businesses, or professions? \_\_\_\_\_ Days \_\_\_\_\_

NOTE: Total of (a) and (b) must equal total days worked on the farm (Question 4).

6. Year when operator began to operate this farm \_\_\_\_\_ (Year)

7. Is this farm or plantation incorporated? \_\_\_\_\_ (Yes or no)

II.—TENURE

8. If you rent any farm land from others, or manage any farm land for others, or use any Government land under permit, give name and address of owner:

Name \_\_\_\_\_

Address \_\_\_\_\_ (Street or R. D. No.) (Post office) (State or Territory)

9. Does the person from whom you rent this farm supply all the work animals? \_\_\_\_\_ (Yes or No)

10. Do you operate the farm reported on this schedule for others as hired manager? \_\_\_\_\_ (Yes or No)

11. How many acres of this farm do you own? \_\_\_\_\_

12. How many acres do you rent from others? \_\_\_\_\_

Sum of entries for Questions 11 and 12 must equal entry for Question 13, unless farm is operated by a hired manager.

III.—ACREAGE

13. Total acreage of this farm \_\_\_\_\_

All outlying or separate belts, meadows, pastures, woodland, and water are to be included in the acreage of the farm, whether owned, leased, or managed by others. A.A. contract acreage must be included. Omit any land now rented to or cropped by others. Fill out a separate schedule for each tenant, renter, or cropper. Sum of entries for Questions 14 to 23, inclusive, must equal entry for Question 13.

14. Land from which crops were harvested in 1939 (including irrigated land) \_\_\_\_\_ Acres

All cropland, all tame and wild hay land, and gardens, orchards, and vineyards are to be included in the acreage of the farm, whether owned, leased, or managed by others. Do not count the same land twice, even though two crops were harvested from it.

15. Land occupied at any time in 1939 by crops intended for harvest within the year, but from which no crop was harvested (because of failure, destruction, or quota restrictions, or for other reasons) \_\_\_\_\_ Acres

16. Land from which no crop was harvested in 1939 but which was occupied by crops for future harvest (sugar cane, pineapple plants, orchard and berry plants and bushes not yet in bearing, drug plants, etc.) \_\_\_\_\_ Acres

17. Cropland lying idle all of 1939, and land in fallow \_\_\_\_\_ Acres

IV.—VALUES

25. Total value of this farm (land and buildings), including farm land and buildings rented from others \_\_\_\_\_ \$ (Omit cents)

Omit amount for which this farm would sell. Omit value of farm implements and machinery, of livestock, of land rented to tenants or croppers, and of commercial milk, canneries, etc., and their equipment.

26. Value of all buildings used for agricultural and domestic purposes on this farm (included above) \_\_\_\_\_ \$ (Omit cents)

27. Value of operator's dwelling house on this farm (included in answer to Question 25) \_\_\_\_\_ \$ (Omit cents)

28. Value of all implements and machinery used in operating this farm (present market value) \_\_\_\_\_ \$ (Omit cents)

Value of all farm implements, tools, tractors, wagons, harnesses, dairy equipment, threshing machines, and equipment of automobiles and motor trucks of apparatus for pumping and drying coffee, and for drying rice and all other farm machinery. Omit value of commercial mills and factories.

V.—MORTGAGE DEBT

NOTE:—The questions relating to mortgage debt must be answered if the operator, whose name appears under Question 1, owns all or any part of the farm reported on this schedule, but should not be answered if he owns no part of it.

29. Was there outstanding on April 1, 1940, any mortgage debt on land and/or buildings of this farm owned by you? \_\_\_\_\_ (Yes or No)

30. How many acres were covered by mortgage? \_\_\_\_\_

31. Total amount of such mortgage, including interest past-due and unpaid \_\_\_\_\_ \$ (Percent)

32. What was the annual rate (contract rate) of interest on the first-mortgage debt? \_\_\_\_\_ (Percent)

VI.—FARM LABOR

Number of workers 10 years old and over and wages paid for farm work (not including housework or construction work) on this farm

CLASS OF LABOR	Number of persons 10 years old and over working the equivalent of 1 or more days in the week of		Total man wages paid during entire year 1939 for farm work on this farm
	March 21-30 this year	September 21-30 last year	
33. Operator and unpaid members of his family _____	Number	Number	Dollars
34. Labor hired by month _____			\$ x x x x x x x
35. Labor hired by day or week _____			\$ _____
36. Other (including piecework and contract labor) _____			\$ _____

VII.—SPECIFIED EXPENDITURES

37. Amount expended in 1939 for feed for animals and poultry \_\_\_\_\_ \$

38. Amount expended in 1939 for manure and fertilizer \_\_\_\_\_ \$

39. Amount expended in 1939 for building materials \_\_\_\_\_ \$

VIII.—EQUIPMENT AND FACILITIES, APRIL 1, 1940

Report, under Questions 40, 41, and 42, equipment belonging on this farm as of date of enumeration. Include automobiles owned by employees living on the farm. Exclude motor buses and trailers.

<b>XII.—LIVESTOCK AND LIVESTOCK PRODUCTS</b> (In reporting dollar items, omit cents) <b>Domestic animals on farm; dairy products, wool, and mohair</b> Report all domestic animals of the specified kinds, whether belonging to the farm owner or operator or to others. Include animals belonging on this farm but grazing in another pasture but do not include any animals grazing on another farm. 120. Horses of all kinds (including ponies) and colts on hand April 1, 1940, born before January 1, 1940..... <b>G</b> 121. Of these, how many were born since January 1, 1937..... <b>1</b> 122. Mules, asses, and burros on hand April 1, 1940, born before January 1, 1940..... <b>2</b> 123. Of these, how many were born since January 1, 1937..... <b>3</b> 124. Carabao, all ages, on hand April 1, 1940..... <b>4</b> 125. Cattle and calves on hand April 1, 1940, born before January 1, 1940..... <b>5</b> 126. Steers and bulls on hand April 1, 1940, born before January 1, 1940..... <b>6</b> 127. Cows and heifers on hand April 1, 1940, born before January 1, 1940..... <b>7</b> 128. Kops mainly for milk production..... <b>8</b> 129. Kops mainly for beef production..... <b>9</b> 130. Cows milked during any part of 1939 (whether still on the farm or not)..... <b>10</b> 131. Milk produced in 1939 (8.6 pounds=1 gallon)..... <b>11</b> 132. Report all milk produced, whether consumed, sold, fed to stock, or otherwise disposed..... <b>12</b> 133. Butter churned in 1939..... <b>13</b>				<b>Poultry and eggs</b> Questions 161-166 and 171 cover poultry raised as such or as that hatched on this farm. 161. Chickens on hand April 1, 1940, hatched before December 1, 1939..... <b>1</b> 162. Chickens raised to marketable age in 1939..... <b>2</b> 163. Turkeys on hand April 1, 1940, hatched before December 1, 1939..... <b>3</b> 164. Turkeys raised to marketable age in 1939..... <b>4</b> 165. Ducks on hand April 1, 1940, hatched before December 1, 1939..... <b>5</b> 166. Ducks raised to marketable age in 1939..... <b>6</b> 167. Other poultry on hand April 1, 1940, hatched before December 1, 1939 (specify)..... <b>7</b> 168. Other poultry raised to marketable age in 1939 (specify)..... <b>8</b> 169. Total chickens, including broilers and fryers, sold alive or dressed in 1939 (omit any sold as baby chicks)..... <b>9</b> 170. Chicken eggs produced in 1939..... <b>10</b> 171. Value of all poultry, eggs, baby chicks, ponies, etc., sold or traded in 1939..... <b>11</b>				<b>EXPLANATIONS AND INSTRUCTIONS</b> 1. Definition of "farm."—A farm, for Census purposes, consists of one or more tracts of land (not necessarily adjoining) on which some agricultural operations are performed or supervised by one person, either alone or with the assistance of members of his household or of hired employees. The land operated by a partnership is likewise treated as a farm. If a farm consists of two or more tracts of land, these may be held under different tenures, as when one tract is owned by the farmer and another tract is rented by him. When a landowner has one or more tenants, renters, croppers, or managers, the land operated by each is treated as a farm. Thus on a plantation the land operated by each cropper, renter, or tenant should be reported as a separate farm, and the land operated by the owner or the manager by means of wage hands should likewise be reported as a separate farm. Do not report as a farm any tract of land of less than 3 acres, unless its agricultural products in 1939 were valued at \$150 or more. 2. This schedule is to be used for enumerating all farms, ranches, plantations, and special agricultural operations conforming to the definition of "farm." Special care should be taken to record all operations which fall within the scope of that definition or which approach it closely enough so that there is any doubt. This applies to market gardens, truck and fruit gardens, poultry establishments, city, town, and village dairies, and all other special agricultural operations if 3 acres or more of land is used or if the products in the census year were valued at \$150 or more. 3. Ranchers using public lands.—Public land used by a rancher without rental is not a part of the rancher's farm. If he grazes animals entirely on public land without paying, write at the end of Section II "No land owned or rented." 4. General method of filling out schedules.—Take care to write legibly, and in particular to make figures so that they can be read at a glance. Be sure that you know the proper entry and where it should be made before making it, so as to avoid erasures. 5. Source of information.—Obtain information with regard to a farm from the farm operator in every case where this is possible. If it is necessary to accept the statements of a member of his family, or of some other person, be sure that this person is able to give you reliable information. 6. Enumerator's record.—Fill out carefully the blank spaces in the heading of the schedule. Enter the names of the island and county, and write in full the name of the Judicial District in which the farm is located. Do not abbreviate. The number of the enumeration district must appear in its proper place, and the farms must be numbered as you visit them, beginning with No. 1 and continuing in order through the enumeration district. The date on which the farm was enumerated and your signature complete the entries in the heading of the schedule. All figures must be legible and reasonably large. 7. All questions to be answered.—Give the information asked for on the schedule for all the inquiries that apply to the farm being canvassed. Inability to obtain exact data does not justify failure to answer a question. The most nearly accurate returns that the circumstances permit must be obtained. If farm records or accounts are kept, take the figures from these. If such records are not available, careful estimates should in all cases be obtained or made. Where there are no crops or animals corresponding to the names listed in the schedule, leave the spaces opposite such names blank. Take care to give correctly, in Section I, the name of the farm operator and the visitation number of his household, as they appear on the Population schedule. Make no entries in spaces marked thus: "x x x." FOR DETAILED INSTRUCTIONS, SEE PAMPHLET ENTITLED "INSTRUCTIONS TO ENUMERATORS"

7. If you rent any farm land from others, or manage any farm land for others, give name and address of owner:  
Name \_\_\_\_\_  
Address \_\_\_\_\_  
(Street and number) (Post office) (State, Territory, or possession)

8. Do you operate the farm reported on this schedule for others as hired manager?..... (Yes or No)

9. How many cuerdas of this farm do you own?.....

10. How many cuerdas do you rent from others?.....  
(Sum of entries for Questions 9 and 10 must equal entry for Question 11, unless farm is operated by a hired manager.)

11. Total area of this farm.....  
 (All outlying or separate fields, pastures, woodland, and waste land operated by the person whose name is given under Question 1, whether owned, rented from others, or managed for others. Contracts with the AAA must be included. Omit any land rented to others. The total of the entries for Questions 12 to 21, inclusive, must equal the entry for Question 11.)

12. Land from which crops were harvested in 1939.....  
 [All cropland, including areas of forage grass cut in 1939, gardens, and orchards in bearing (land occupied by berry plants and bushes in bearing, etc.). Do not count the same land twice, even though two crops were harvested from it. Include land cropped by *arregados*, but not that rented to share tenants.]

13. Land occupied at any time in 1939 by crops intended for harvest within the year, but from which no crop was harvested (because of failure, destruction, or quota restrictions, or for other reasons).....
14. Land from which no crop was harvested in 1939 but which was occupied by crops for future harvest (sugarcane, pineapple plants, fruit orchards, coconut trees not yet in bearing, etc.).....
15. Land in fallow (for soil improvement and not used for pasture) in 1939.....
16. Other cropland which could be cultivated but which was not cultivated in 1939.....

17. Land used for pasture in 1939 that could be plowed and used for crops without clearing or irrigating.....  
(Report only land that has been plowed within the last ten years.)

18. Woodland and brush land used for pasture in 1939.....  
(All woodland and brush land on which animals were pastured.)
19. All other land used for pasture in 1939.....  
(Do not include land planted in grasses or other forage crop regularly cut during the year, which is classified as cropland, question 12. Do not include land in sparse woods, brush, or brushies, on which animals were pastured during the year, which is to be reported under question 18.)

20. Woodland not used for pasture in 1939.....  
(All woodland and brush land on which no animals were pastured.)

21. All other land in this farm.....  
(All waste land not in woodland or brush or used for pasture;  
also house yards, barnyards, lanes, roads, etc.)

22. Land in this farm irrigated in 1939 (included above).....

1. Definition of "farm."—A farm, for Census purposes, consists of one or more tracts of land (not necessarily adjoining) on which some agricultural operations are performed or supervised by one person, either alone or with the assistance of members of his household or of hired employees. The land operated by a partnership is likewise considered a farm. If a farm consists of two or more tracts of land, these may be held under different tenures, as when one tract is owned by the farmer and another tract is rented by him. When a land-owner has one or more tenants or renters (not *agregados*), or managers, the land operated by each renter or tenant (not by an *agregado*) should be reported as a separate farm, and the land operated

## ILLUSTRATIVE EXAMPLE OF FARM REPORT

Your report is required by Act of Congress. This Act also makes it unlawful for the Bureau to disclose any facts, including names or identity, from your census reports. Only sworn census employees will see your statements. Data collected will be used solely for preparing statistical information concerning the Nation's population, resources, and business activities. Your Census Reports Cannot Be Used for Purposes of Taxation, Regulation, or Investigation.

					VI.—EQUIPMENT AND FACILITIES			
					Report, under Questions 28 to 31, inclusive, equipment belonging on this farm, as of date of enumeration. Include automobiles owned by employees living on the farm.			
					28. Automobiles .....		1	7, 8
					29. Motortrucks .....			9, 10
					30. Tractors .....			11, 12
					31. Engines and electric motors .....		X X X X X X	13
					Total horsepower, engines and electric motors .....			14
					32. Is farm situated on an improved road? .....		(Yes or No)	15
					33. Is road paved (with either macadam or tar)? .....		(Yes or No)	
					34. If farm is not on an improved road, how far is it from such a road? .....		Code	16

II.—TENURE

7. If you rent any farmland from others, or manage any farmland for others, give name and address of owner.  
Name .....

Address .....

8. Do you operate the farm reported on this schedule for others as hired manager? .....

(Yes or No)

9. How many acres of this farm do you own? .....

10. How many acres do you rent from others? .....

Sum of entries for Questions 9 and 10 must equal entry for Question 11, unless farm is operated by a hired manager.

III.—ACREAGE

11. Total acreage of this farm .....

40

All outlying or separate fields, pastures, woodland, and waste land operated by the person whose name is given under Question 1, whether owned, rented from others, or managed for others. A.A.A. contract acreage must be included. Omit any land rented to others. The total of the entries for Questions 12 to 15, inclusive, must equal the entry for Question 11.

Cropland

12. Land from which crops were harvested in 1939 .....

All cropland, including acreage of forage grass cut regularly in 1939, gardens and orchards in bearing, land occupied by berry plants and bushes in bearing, etc. Do not count the same land twice, even though two crops were harvested from it.

13. Land occupied at any time in 1939 by crops intended for harvest within the year, but from which no crop was harvested (because of failure, destruction, or quota restrictions, or for other reasons) .....

14. Land from which no crop was harvested in 1939 but which was occupied by crops for future harvest (sugarcane, pineapple plants, orchards, and berry plants, and bushes not yet in bearing, drug plants, etc.) .....

15. Cropland lying idle all of 1939, not pastured .....

Pasture

16. Land (other than woodland and brushland) used for pasture in 1939 .....

Do not include land planted to grasses or other forage crops regularly cut during the year, which is classified as cropland. Do not include land in sparse woods, brush, or bushes, on which animals were pastured during the year, which is to be reported under Question 17.

**SUPPLEMENTAL INFORMATION**

Describe any important changes in the size or character of this farm or in ownership, tenancy, etc. Also please comment on unusual conditions regarding acreage, production, yields, crop failure, location of livestock, etc. If any land is irrigated, give number of acres.

  

**EXPLANATIONS AND INSTRUCTIONS**

1. Definition of "farm."—A farm, for Census purposes, consists of one or more tracts of land (not necessarily adjoining) on which some agricultural operations are performed or supervised by one person, either alone or with the assistance of his household or of hired employees. The land operated by a partnership is likewise considered a farm. If a farm consists of two or more tracts of land, these may be held under different tenures, as when one tract is owned by the farmer and another tract is rented by him. When a landowner has one or more tenants, renters, or managers, the land operated by each is considered a farm. Thus on a plantation the land operated by each renter or tenant should be reported as a separate farm, and the land operated by the owner or the manager by means of wage hands should likewise be reported as a separate farm. Do not report as a farm any tract of land of less than 3 acres, unless its agricultural products in 1939 were valued at \$100 or more.

2. This schedule is to be used for enumerating all farms, plantations, and special agricultural operations conforming to the definition of "farm." Special care should be taken to record all operations that fall within the scope of that definition or that approach it closely enough so that there is any doubt. This applies to market gardens, truck and fruit gardens, poultry establishments, town and village dairies, and all other special agricultural operations if 3 acres or more of land is used or if the products in the census year were valued at \$100 or more.

3. General method of filling out schedule.—Take care to write legibly, and in particular to make figures so that they can be read at a glance. Be sure that you know the proper entry and where it should be made before making it, so as to avoid erasures.

4. Source of information.—Obtain the information from the farm operator in every case where this is possible. If it is necessary to accept the statements of a member of his family, or of some other person, be sure that this person is able to give you reliable information.

5. Enumerator's record.—Fill out carefully the blank spaces in the heading of the schedule. Enter the name of the land and that of the quarter in which the farm is located. Do not abbreviate. The number of the enumeration district must appear in its proper place, and the farms must be numbered as you visit them, beginning with No. 1 and continuing in order through the enumeration district. The date on which the farm was enumerated and your signature complete the entries in the heading of the schedule. All figures must be legible and reasonably large.

6. All questions to be answered.—Give the information asked for on the schedule for all the inquiries that apply to the farm being canvassed. Inability to obtain exact data does not justify failure to answer a question. The most nearly accurate returns that the circumstances permit must be obtained. If farm records or accounts are kept, take the figures from these. If such records are not available, careful estimates should in all cases be obtained or made. Where there are no crops or animals corresponding to the names listed in the schedule, leave the spaces opposite such names blank. Take care to give correctly, in Section I, the name of the farm operator and the visitation number of his household as given on the Population schedule. Make no entries in the spaces marked thus: "x x x."
