<sup>1</sup>Not available. <sup>2</sup>Not including farms reporting only grapevines and/or nut trees. <sup>3</sup>Nectarines included with peaches. <sup>4</sup>Production of citrus for 1939 is for the crop harvested in the season of 1939-40 (from the bloom of 1939). <sup>5</sup>These data are for Beauregard, Cameron, Jefferson, Plaquemines, St. Bernard, St. Tammany, Terrebonne, Vermilion, and Vernon Parishes only. The inquiries on the 1940 and 1930 schedules were not exactly comparable. Therefore, mandarins are included with satsumas; Parson Brown, pineapple, and "All other oranges" are reported under "Other early and midseason oranges"; and Valencia oranges only under "Valencia and other late oranges."
