 † The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.  
 1 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.  
 2 In 1944 and in 1939.  
 3 The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.  
 4 The 1945 figures exclude automobiles; the 1940 figures include automobiles.

<sup>1</sup>Not available. <sup>2</sup>Available data not comparable; see text. <sup>3</sup>White includes Mexicans; nonwhite includes Negroes, Indians, Chinese, Japanese, and other nonwhite races. <sup>4</sup>Detail will not add to total farms since some farm operators did not report residence. <sup>5</sup>1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—357 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations. <sup>6</sup>In 1944 and in 1939. <sup>7</sup>Farms located on hard-surfaced, gravel, shell, or siale roads.
