REPORTS ON AGRICULTURE

Volume I.—Statistics for farms, acreage, value, characteristics, livestock, livestock products, crops, fruits, and value of farm products. This volume consists of 33 parts, comprised of State reports with statistics for counties.

Part 1—New England States:
Maine
New Hampshire
Vermont
Massachusetts
Rhode Island
Connecticut
2—Middle Atlantic States:
New York
New Jersey
Pennsylvania
3—Ohio
4—Indiana
5—Illinois
6—Michigan
7—Wisconsin
8—Minnesota
9—Iowa
10—Missouri
11—North Dakota and South Dakota
12—Nebraska
13—Kansas
14—Delaware, Maryland, and District of Columbia
15—Virginia and West Virginia
16—North Carolina and South Carolina
17—Georgia
18—Florida
19—Kentucky
20—Tennessee
21—Alabama
22—Mississippi
23—Arkansas
24—Louisiana
25—Oklahoma
26—Texas
27—Montana
28—Idaho
29—Wyoming and Colorado
30—New Mexico and Arizona
31—Utah and Nevada
32—Washington and Oregon
33—California

Volume II.—General Report—Statistics by subjects for the United States, geographic divisions, and States.

Letter of Transmittal

DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS
Washington, D. C.

February 28, 1947

SIR:

I transmit herewith part 26 of volume I of the reports of the United States Census of Agriculture, 1945. Volume I consists of 33 parts, comprised of State reports with statistics for counties. The reports are the results obtained from a tabulation of the information given by farm operators to census enumerators in a personal enumeration of farms in 1945.

Legal provision for the 1945 Census of Agriculture was made by the Act providing for the Fifteenth Decennial Census, approved on June 18, 1929.

Advance plans and schedules for the 1945 Census of Agriculture were prepared under the supervision of Z. R. Pettet, Chief, Agriculture Division, who retired February 28, 1945. Preliminary compilations of the statistics were begun under the supervision of W. F. Callander, Chief, Agriculture Division, who returned to the Department of Agriculture January 8, 1946. The final tabulations and the preparation of this volume were made under the supervision of Ray Hurley, who was appointed Chief, Agriculture Division, January 8, 1946. Assistance was rendered during the census period by Warder B. Jenkins, Assistant Chief, and by Hilton E. Robison, J. A. Hicks, John A. Burroughs, Carl R. Nyman, and Raymond S. Washburn.

Acknowledgment is made of the technical assistance, the loan of technical personnel, and the cooperation of the United States Department of Agriculture in the planning, the enumeration, and the compilation of the 1945 Census of Agriculture.

Respectfully,

J. C. CAPT,
Director of the Census.

HON. W. AVERELL HARRIMAN,
Secretary of Commerce

CENSUS OF AGRICULTURE: 1945

INTRODUCTION

History of the census of agriculture.—The first National Census of Agriculture was taken in connection with the Sixth Decennial Census of Population in 1840. Since 1840, a census of agriculture has always been taken in conjunction with the census of population in each decennial enumeration. Congress first provided for a mid-decennial agriculture census to be taken in 1915, but because of World War I this census was not taken. Congress provided for a mid-decennial agriculture census to be taken as of January 1, 1925, and such a census was taken. Another mid-decennial agriculture census was taken in 1935, and the legislation providing for this census continued in effect so that a census of agriculture is taken every fifth year. Therefore, since 1920, there has been a Federal Census of Agriculture every fifth year.

Scope and schedule of the census of agriculture.—The census of agriculture has been increased in scope, and the methods of enumerating and tabulating the data have been improved greatly since 1840. The scope of the first census of agriculture (1840) was limited to such items as the production of the principal crops, an inventory of the principal classes of domestic animals, the production of wool, and the value of dairy and poultry products. The 1945 Census of Agriculture covers not only these items, but also such items as farm land classified according to use, characteristics of the farm operator, value of land and buildings, farm dwellings, farm population, farm labor, farm facilities and equipment, sales of farm products, and the production of fruits, nuts, and many minor crops.

The general form of the schedule for the census of agriculture has also undergone a change. In 1840, agricultural items were included in the general schedule for "mines, agriculture, commerce, manufacture, etc." This schedule was columnar in type; i.e., questions were listed in the column headings and the names of the enumerated persons were listed down the left-hand side of the schedule. The schedules from 1850 through 1890 were also columnar in type, but the agricultural items were listed in a separate schedule from mines, commerce, etc. From 1900 through 1940, the columnar type of schedule was abandoned and an individual schedule was required for each farm. In 1945, however, the columnar schedule was used again. Space was provided in each schedule book for the enumerator to enter information for 25 farms except for the South Eastern and South Central States. In these States, space was left for only 20 individual farms or subunits of multiple-unit or plantation operations, while 4 lines were available for entering data on multiple-unit operations as a whole. The columnar book-type schedule was chosen in order to facilitate the work of enumeration and tabulation of the data.

In addition to the 239 questions asked for all farms, 73 supplementary questions on expenditures, machinery, interest on mortgage debt, livestock, farm gardens, the farm household, farm employment, and related items were also asked for a sample of approximately 1 farm in each 18 and for specified large farms in the United States. All the information for farms included in this sample was listed in separate schedule books. Data for the supplementary questions for these farms will be published in volume II, General Report.

A facsimile of the schedule or schedules and accompanying instructions used for all farms in 1945 in the State or States to which this report relates are given in the appendix.

Legal basis for the 1945 Census of Agriculture.—Provision for the 1945 Census of Agriculture was made in the Act of Congress providing for the Fifteenth Decennial Census, approved June 18, 1929.

Presentation of statistics.—This bulletin presents all the data from the 1945 Census of Agriculture to be published for all farms by counties. The data for the various States are being published in 34 parts or separate bulletins as indicated on page II.

Data by minor civil divisions.—Data for minor civil divisions (townships, precincts, etc.) will not be published. However, a large part of the data for the 1945 Census of Agriculture was tabulated by minor civil divisions. The following data by minor civil divisions have been placed in statistical tables, copies of which may be obtained from the Bureau of the Census, by payment of the cost of making copies of such tables:

Number of farms

Total acres in farms

Farm land classified according to use

Value of land and buildings

Number of farm operators by color (Southern States only)

Number of farm operators by tenure

Number of occupied and unoccupied dwellings

Number of persons living on farms classified by sex and age

Number of farms reporting running water, electricity, radio, and telephone in farm dwelling

Number of farms reporting electric distribution line within 1/4 mile of farm dwelling

Number of farms classified according to distance to nearest all-weather road

Farms reporting and number of motortrucks, tractors, and automobiles

Farms reporting and acres harvested for the following crops: corn for all purposes, sorghums for all purposes, oats threshed, barley, rye, flax, rice, soybeans harvested for beans, all dry field and seed peas, peanuts grown alone for all purposes, clover and timothy hay, lespedeza hay, lespedeza seed, vetch seed, alfalfa seed, red clover seed, sweetpotatoes, hops, sugar beets, and sugarcane for sugar

Farms reporting, acres harvested, and production for the following crops: corn harvested for grain, wheat, peanuts picked or threshed, alfalfa hay, Irish potatoes, cotton, and tobacco

Farms reporting and acres of the following small fruits (available only for areas where these crops are important commercially): strawberries, raspberries, blackberries and dewberries, boysenberries, loganberries, and youngberries

Farms reporting, total number of trees, and production of the following fruits (available only for areas where these fruits are important commercially): apples, peaches, pears, plums and prunes, grapes, apricots, oranges, grapefruit, and lemons

Farms reporting and acres of land in orchards, vineyards, and planted nut trees

Farms reporting and number for the following classes of livestock or poultry: mules and mule colts, horses and colts, all cattle and calves, cows and heifers, all hogs and pigs, sows and gilts for spring farrowing, cows and heifers milked, chickens raised, and turkeys raised

Comparability of data for various censuses.—The 1945 Census of Agriculture was taken as of January 1, 1945; consequently, data for all inventory items relate to that date. Data on crop acreage and production are for the crop year 1944. Data on livestock production, unless specifically noted otherwise, and on value of farm products, work off farm, etc., are for the calendar year 1944. Likewise, for other censuses, data for inventory items relate to the date of the census and data for production items generally relate to the preceding crop year or calendar year.

The date on which the enumerator makes his canvass affects the statistics because of changes between census date and the date of actual enumeration. The Act providing for the census of agriculture requires that no enumerator be assigned a larger area than he can enumerate completely within 30 days from the date of assignment. Under normal conditions this provision insures promptness in the completion of the enumeration. Because of wartime conditions at the time of the 1945 Census enumeration, a longer period was required for the canvass. The average date of enumeration, as well as the percentage distribution of enumeration districts by periods when the enumeration was completed, is given in table A on page XVII.

Comparability of data for small geographic areas.—No two enumerators assigned the same territory to canvass would obtain identical results. The influence of enumerators on the statistics is most pronounced for those items which are the most difficult to define with exactness, or those items calling for quantitative data not generally measured or evaluated by the farm operator. An enumerator may have found it advantageous to rephrase the inquiry, especially if it and the accompanying explanation were rather long. He may have assisted the respondent in determining the replies, or, in some instances, he may have resorted to estimating the item from other information furnished by the farm operator or from his general knowledge of local conditions. Occasionally, when he had difficulty in obtaining a reply or when he considered the inquiry relatively unimportant, the enumerator may have failed to enter an answer for the inquiry. In such cases, the comparability of the statistics is affected by the character of the work performed by individual enumerators.

The average county was canvassed by several enumerators. Thus, for most counties, there were a sufficient number of enumerators so that the variation in the work of various enumerators does not affect, to any appreciable extent, the comparability of totals for various counties, or for the same county for the different censuses. However, some counties with a relatively small number of farms were enumerated by only a few enumerators, and in some instances entire counties were canvassed by a single enumerator.

Comparability of statistics for small geographic areas, such as counties and minor civil divisions, may also be affected by the policy of crediting to the political area in which the farm headquarters is located all the land in that farm including any land in that farm which is located in other political areas. (See enumeration of farms with land located in more than one county, page IX.)

DEFINITIONS AND EXPLANATIONS

Only those items for which the table descriptions are considered inadequate are discussed. The descriptive terms and explanations refer principally to the 1945 Census of Agriculture, although, in general, they are also applicable to the statistics presented for earlier censuses. The definitions consist primarily of a resume of the schedule wording, occasionally supplemented by the more essential parts of instructions given to the enumerators. For the exact phrasing of the inquiries and of the instructions to enumerators, reference should be made to the facsimile of the 1945 Farm and Ranch Schedule shown in the appendix.

A more complete explanation of the data will be possible after reviewing the figures for all enumeration

districts in the United States, and reference should be made to volume II, General Report, which will present statistics for States by subject matter and which will include a more comprehensive discussion of the comparability and reliability of the statistics.

A farm.—The schedule book for 1945 was entitled "Farm and Ranch Schedule." The following definition appeared in each schedule book:

> A farm, for Census purposes, is all the land on which some agricultural operations are performed by one person, either by his own labor alone or with the assistance of members of his household, or hired employees. The land operated by a partnership is likewise considered a farm. A "farm" may consist of a single tract of land, or a number of separate tracts, and the several tracts may be held under different tenures, as when one tract is owned by the farmer and another tract is rented by him. When a landowner has one or more tenants, renters, croppers, or managers, the land operated by each is considered a farm. Thus, on a plantation the land operated by each cropper, renter, or tenant should be reported as a separate farm, and the land operated by the owner or manager by means of wage hands should likewise be reported as a separate farm.
>
> Include dry-lot or barn dairies, nurseries, greenhouses, hatcheries, fur farms, mushroom cellars, apiaries, cranberry bogs, etc.
>
> Do not include "fish farms," "fish hatcheries," "oyster farms," and "frog farms." Do not report as a farm any tract of land of less than 3 acres, unless its agricultural products in 1944 were valued at $250 or more.
>
> Farming, or agricultural operations, consists of the production of crops or plants, vines, and trees (excluding forestry operations) or of the keeping, grazing, or feeding of livestock for animal products (including serums), animal increase, or value increase. Livestock, as here used, includes poultry of all kinds, rabbits, bees, and fur-bearing animals in captivity, in addition to mules, asses, burros, horses, cattle, sheep, goats, and hogs. Frequently, certain operations are not generally recognized as farming. This is especially true where no crops are grown or where the establishments are not commonly considered as farms.

There was provided a partial list of types of specialized agriculture and of operations not generally recognized as farming but for which a report was required. This list included such operations as apiaries (bee farms), feed lots, greenhouses, hatcheries, mushroom cellars, etc.

The definition of a farm used in the 1945 Census of Agriculture was essentially the same as that used in the 1940, 1935, 1930, and 1925 Censuses. Those used for the 1920 and 1910 Censuses were similarly worded but were somewhat more inclusive. In those years farms of less than 3 acres with products valued at less than $250 were to be included, provided they required the continuous services of at least one person. Because of the difference in price level, the $250 limit for the minimum value of products for farms of under 3 acres resulted in the inclusion in 1945 of more farms at or near the lower limits of value or acreage than were included in the earlier censuses. Comparability, particularly on a county level, in the number of farms for the different censuses is affected by such marginal farms.

Farm operator.—A "farm operator," according to the Census definition, is a person who operates a farm, either performing the labor himself or directly supervising it. The number of farm operators is identical with the number of farms.

Color of operator.—Farm operators are classified as "white" and "nonwhite." White includes Mexicans and "nonwhite" (designated as "other" on the schedule) includes Negroes, Indians, Chinese, Japanese, and all other nonwhite races.

Tenure of operator.—Farm operators are also classified according to the tenure under which they operate their farms.

Full owners own all the land they operate.

Part owners own a part and rent from others the remaining part of the land they operate.

Managers operate farms for others and are paid wages or salaries for their services. Persons acting merely as caretakers or hired as laborers are not classified as managers.

Tenants operate hired or rented land only. *Cash* tenants pay a cash rental, such as $1.50 per acre for the cropland or $500 for the use of the whole farm. *Share-cash* tenants pay a part of their rental in cash and part as a share of crop or livestock production. *Share* tenants pay a share only of either the crop or livestock production or both. *Croppers* have been defined as share tenants to whom their landlords furnish all the work animals or tractor power in lieu of work animals. In some of the cropper areas, tenants pay cash rent for noncash crops and a share of the crop for the cash crop. These tenants, as well as those for whom the method of rental was not reported, were classified in 1945 and 1940 as croppers, if the work power was furnished by the landlord. *Other and unspecified* tenants include those whose rental agreement was unspecified and those who could not be included in one of the other subclasses.

For the Northern and Western States, except for specified counties in Southeastern Missouri, croppers are not shown separately but are included with other and unspecified tenants. For the Southern States and for specified counties in Missouri, information by color and tenure of operator is presented by counties in a supplemental table; i.e., a tenure classification is shown for white and for "other" farm operators. For the Northern and Western States, information by tenure of operator by color is presented only for the State.

Age of operator.—Farm operators have been classified by age for several censuses, and the absolute figures for six age groups are shown in State table 1. Averages are also given in this table by tenure of operator for 1945 and 1940, the only years for which averages are available.

Years on farm.—The answer to the question on the 1945 Farm and Ranch Schedule, "Year the operator began

to operate this farm (continuously) _____ (Year)," reflects, in part, the stability or instability of operators on particular farms.

In both 1945 and 1940, the question on years on farm called for the year in which the operator began to operate his farm. Since the Census of 1945 was taken as of January 1 and that of 1940 as of April 1, it is impossible to classify the data so as to make exact comparison between the two years. The figures given for less than 1 year for the Census of 1945 include all farm operators reporting 1944 or 1945 as the year they began to operate the farm. A figure for 1945 is shown separately for the State in a footnote to State table 1 and county table I. This figure will give some indication of the effect on the less than 1 year group which may have resulted from the fact that the date of enumeration did not coincide with the census date. For the Census of 1940, taken as of April 1, the figures for less than 1 year include only those operators reporting 1940 as the year they began to operate the farm. For the censuses prior to 1940, the data given in State table 1 on years on farm are, in general, comparable with those for the Census of 1945.

In reporting the year when the operator began to operate the farm, there was a noticeable tendency to report the year the operator first lived on the farm regardless of whether he was the operator at that time, whether he had operated the farm continuously since that date, or whether the farm qualified as a farm under the Census definition prior to the 1945 Census. Insofar as the results of this inquiry are used to reflect the stability of operators on particular farms, this tendency has had no appreciable effect on the usefulness of the figures.

In State table 1 and in county table I, averages are presented for all operators. These averages were obtained by making a summation of all years reported and dividing the total by the total number of operators reporting.

Residence of farm operator.—Information was obtained in 1945 as to whether the operator of the farm resided on the farm he was operating. The question read "Does the operator live on this farm? _____ (Yes or No)." Replies of "yes" were retained when it was evident that the operator considered himself as living on the farm operated even though there were no occupied dwellings on the farm on January 1, 1945. Thus, an operator living on an adjoining tract of land locally considered as part of the same farm, or an operator living on the farm a portion of the year but away from the farm on January 1, may be included in the figures for resident operators.

Work off farm.—Many farm operators obtain additional income from personal services performed off their farms. In some cases the operator supplements his farm income with odd or spare-time jobs or business; in many other cases his farming activities are only secondary, his off-farm job being his principal source of income. The inquiry carried on the 1945 Farm and Ranch Schedule ascertained the number of days the operator worked off his farm in 1944 for pay or profit. Instructions were given to the enumerators that this question was intended to obtain a record of all time spent off the farm in 1944 for pay, income, or profit. Work of the operator in connection with a filling station, store, garage, tourist camp, or other nonfarm business conducted at the farm was considered as work off the farm. The figures on number of farm operators reporting work off their farms represent the minimum number of farm operators working off their farms in 1944. Because the number of operators working no days off their farm was not obtained, there is no accurate measure of completeness of the reports for farm operators reporting work off the farm. In 1940, when reports were secured for farm operators working no days off the farm, slightly less than 8 percent of the farm operators in the United States did not report as to whether or not they worked off their farms.

Farms reporting.—The term "farms reporting," as used in the tables, indicates the number of farms for which the specified items shown in the particular table were reported. If there were 1,922 farms in a county and only 1,465 of these had chickens on hand over 4 months old, January 1, 1945, the number of farms reporting chickens for that year would be 1,465.

Land area.—The approximate land areas reported for the States and for the counties for 1945 and 1940 resulted from a complete remeasurement of the United States, its individual States, and their counties, and, therefore, may be at variance with the figures shown for earlier censuses.

Land in farms.—The acreage designated as "all land in farms" includes considerable areas of land not actually under cultivation and some land not even used for pasture or grazing, but all such land must have been under the control of the operator and considered a part of his farm. However, large areas of timberland or other nonagricultural land held by an operator of a farm as a separate business, and not used for pasture or grazing, or for any other farm purpose, were to be excluded. Land neither owned nor leased but from which crops, including wild hay, were harvested was to be reported as part of the farm. When cattle, sheep, or other livestock were grazed or pastured on land neither owned nor leased by the operator, such land was not to be included as a part of the farm. Operations limited to livestock grazing on open range and reported as having no land owned or leased were given "0" acres and were included with farms of under 3 acres. In most of the States the increases in land in farms represent land used for grazing. In the Western States this increase does not necessarily represent more land used

for agricultural purposes. It is more likely that a large part of it represents leased land which was formerly open range.

The 1945 Census also includes in farm acreage more Indian grazing lands than prior censuses because of changes in the method of enumerating agricultural activities on Indian reservations. In 1945, if land in an Indian reservation was used by the Indians on a cooperative basis, the entire acreage in the reservation was reported as a single farm. In such cases, much grazing land, not included in farms in previous censuses, was included as land in farms in 1945.

In 1945, data were obtained for eight classes of land based upon the use made of the land in 1944, as follows:

1. Cropland harvested.—The land from which cultivated crops were harvested; land from which hay (including wild hay) was cut; and land in small fruits, orchards, vineyards, nurseries, and greenhouses. When two or more crops were harvested in 1944 from the same acreage, such acreage was included only once in the acreage for cropland harvested. However, the acreage and the quantity of each individual crop were reported separately as crops harvested. Thus, in some counties the total of the acreage of crops may greatly exceed the acreage designated as cropland harvested.

2. Crop failure.—The land from which no crop was harvested in 1944 because of destruction by wind, hail, drought, floods, insects, disease, or from any cause, or from failure to harvest because of low prices or lack of labor. If a crop was harvested, even though the yield was very low, the land from which the crop was actually harvested was included in the acreage for cropland harvested, not crop failure. The acreage designated as crop failure does not represent the entire acreage of crops which failed, but only that acreage of land in crops that failed and which was not successfully replanted to a crop that was harvested in 1944. Correspondence with individual operators indicates that enumerators sometimes included under crop failure land which had not been planted to crops in 1944 because of floods, shortage of labor, or for other reasons.

3. Cropland idle or fallow.—Cropland which was lying idle or which was in cultivated summer fallow; or land on which crops were planted for soil improvement or the prevention of erosion, and which was not pastured, or from which no crop of any kind was harvested in 1944.

4. Cropland used only for pasture.—Cropland used only for pasture in 1944 that was plowed within the last 7 years. The figures for this item for the Censuses of 1940, 1935, 1930, and 1925 include land pastured which could have been plowed and used for crops without additional clearing, draining, or irrigating. This land may not have been plowed within the 7 years prior to the census date. In the States west of the Mississippi, large areas of land which had never been plowed were reported in the Censuses of 1940, 1935, 1930, and 1925 as plowable pasture. Therefore, the figures presented for cropland used only for pasture, especially for the States west of the Mississippi, for the 1940 and prior censuses are not comparable with the figures for 1945.

5. Woodland pastured.—Woodland used for pasture or grazing in 1944. If returns for various census years indicated that there was some question as to whether land should be classed as woodland or as other land, such land was retained as reported by the enumerator. Thus, some of the changes, from one census to the next, in the acreage of woodland pastured and other land pastured may merely represent differences in interpretation of the definition of woodland by the census enumerators.

6. Other land pastured.—Land, other than cropland and woodland, used only for pasture or grazing in 1944.

7. Woodland not pastured.—All farm wood lots or timber tracts, natural or planted, and cut-over land with young growth, which has or will have value as wood or timber. Chaparral and woody shrubs were to be reported as other land used only as pasture or as all other land in farms.

8. All other land.—This classification includes all waste-land, house yards, barnyards, feed lots, lanes, roads, ditches, etc.

Enumeration of farms with land located in more than one county.—Land in an individual farm occasionally is located in two or more counties. In such cases, the entire farm was to be enumerated in the county in which the farm headquarters was located. As a result of this procedure, the acreage shown for "all land in farms" in some counties may be greater, and in other counties smaller, than the area actually in farms. Reference to cross-line acreage is made in the tables by footnote only when the area shown for the farms of a county is in excess of the county area.

Farms and farm acreage classified by size of farm.—The revised grouping of farms and farm land by size (total acreage in the farm) as used in the Census of 1935 was repeated for 1945.

The "under 3 acres" group includes a count of farms for livestock operators who neither owned nor leased any land but grazed their animals on open or public range.

Farm values.—The enumerators were instructed to obtain from each farm operator the total value of the farm (land and buildings) owned by the operator and, also, the value of that part of the farm rented from others. The value to be reported was the market value. For part-owner operators, the value of the owned and rented portions, as well as the total value, of the farm is shown in county table V.

Finally, the operator was asked to place an over-all value on the farm implements and machinery used in operating the farm. This was to represent the present market value and was to include not only the farm implements but also the tools, tractors, motortrucks, wagons, harnesses, dairy equipment, gins, threshing machines, combines, and all other farm machinery. However, the values of automobiles, commercial mills and factories, and, also, permanently installed irrigation and drainage equipment were to be omitted. In previous censuses, the value of automobiles was to be included in the value of implements and machinery. In making comparisons with the figures for 1940 and earlier censuses, it should be noted that the value of all automobiles on farms is not included in the 1945 figures.

The difference in the number of farms reporting value of implements and machinery and the total number of farms indicates that this item may be incompletely reported, as it is not likely that the number of farms not having implements and machinery is as great as this difference indicates.

Motortrucks, tractors, and automobiles.—On each farm, an inventory was made for the number of motortrucks, automobiles, and tractors used in the operation

of the farm. The enumerators were instructed to enumerate all automobiles on the farm, including those owned by hired help living on the farm.

Roads.—The enumerator was instructed to indicate the distance from the farm to the nearest all-weather road. If the main farm entrance was on an all-weather road, the enumerator was asked to report "0" miles; if not, to give the distance along the highway to the nearest road that was passable at all times and all seasons. Since some enumerators reported the distance from the farm dwelling or farm buildings to the nearest all-weather road, rather than the distance from the main farm entrance, the reports of "0" up to and including 0.2 mile were tabulated as a group. The comparative figures for the Censuses of 1940, 1930, and 1925 for farms reporting 0.0 to 0.2 mile to nearest all-weather road represent: for 1940, farms reported as on hard-surfaced, gravel, shell, shale, etc., roads; for 1930, farms reported as on concrete, brick, asphalt, macadam, gravel, and sand-clay roads; and for 1925, farms reported as on concrete, brick, macadam, and gravel roads. It should be noted that much of the difference between the figures for 1945 and those for earlier years may be attributed to the difference in the wording of the inquiry on roads.

Facilities.—The number of farms having various facilities was obtained by the inquiry "Does farm dwelling have—Running water? Electricity? Radio? Telephone?" The number of farms with dwellings, either occupied or unoccupied, with reports of "yes" to these inquiries is shown by counties. In using these county figures, it should be kept in mind that they represent a minimum number of farms having these facilities as reports for these items were occasionally omitted. State table 1 will indicate the possible overall extent of such incompleteness, as it includes figures on the number of farms with dwellings for which reports of "yes" or "no" were not secured.

Comparative figures for 1940 are included only for those facilities covered in the 1940 Census of Agriculture. Although additional facilities were covered in the census of housing, the 1940 figures are not shown in State and county tables because of lack of comparability. However, comparisons can be made with the 1940 figures for the census of housing for rural-farm dwellings if allowance is made for certain differences. The 1945 figures refer to the number of farms equipped with the various facilities, while the figures for the 1940 Census of Housing refer to the number of rural-farm dwellings having these facilities. Therefore, allowance must be made for the fact that in most States the number of rural-farm dwellings is a little larger than the number of farms. Allowance must also be made for the difference in the concept of "farm" as used in the censuses of housing and population and the census of agriculture (see discussion under Farm dwellings and Farm population) and for the fact that the census of agriculture includes figures for urban as well as for rural farms.

Farm dwellings.—The inquiry on dwellings on farms January 1, 1945, called for the number of occupied and the number of unoccupied dwellings separately. Dwellings rented to persons not connected with the farming operations, tourist camps, and institutional buildings were not to be considered as part of the farm and, therefore, were to be excluded.

Farm population.—Farm population was defined for the 1945 Census of Agriculture as the population living in dwelling units on farms, excluding persons in dwelling units rented to other than farm operators. In addition to the households of resident farm operators, the farm population, as defined for this census, includes the households of resident landlords and those of farm laborers, relatives of farm operators, and others occupying dwelling units on farms without paying specific rent for their use. It is believed, however, that some of the enumerators did not include all of the persons in the latter types of households. For this reason, State table 1 gives the population enumerated on farms with two or more occupied dwellings, as well as the total farm population.

Data on farm population have been collected quinquennially in the censuses of population and agriculture since 1920. Data for these earlier censuses also are shown in State table 1, although they are not strictly comparable with the figures for 1945. There are three principal reasons for lack of comparability:

1. In the censuses before 1945, persons living on farms in dwellings that were rented to other than farm operators were not specifically excluded by definition from the farm population. Thus, many families were included who had no connection with the operation of farms.

2. In the population censuses of 1940, 1930, and 1920, the data on farm population were obtained by a different method from that used in the censuses of agriculture in 1945, 1935, and 1925. It is believed that the difference in method of enumeration had an important effect upon the numbers of households reported as living on farms, and also upon the numbers of persons enumerated in those households. Furthermore, differences in numbers of farms enumerated in the various censuses of agriculture had an important effect on the relative size of the farm population enumerated. See discussion under definition of "a farm" relative to variations from one census to another caused by farms marginal as to definition.

3. The censuses of 1920, 1925, 1935, and 1945 were taken in January, a month when the farm population is seasonally low, whereas the censuses of 1930 and 1940 were taken in April.

Farm labor.—The farm labor inquiry sought to secure separate data for the number of persons 14 years old and over working on the farm the equivalent of 2 or more days during the week ending January 6, 1945, for (a) farm operators, (b) unpaid members of the operator's family, and (c) hired laborers. The enumerators were instructed to report the number of persons working at farm work, including farm chores. Inmates of

institutions and persons working at housework and contract construction work were not to be reported.

There was in 1945, as in the previous censuses, difficulty in securing accurate data on farm labor. In some cases, enumerators did not secure answers to the farm labor inquiries, and in other cases they included persons engaged in housework, children under 14 years old, the maximum number of persons employed during the year, or the operator with the other family workers in addition to reporting him separately. Although such errors were usually changed during the editing process, adequate corrections in the number and type of farm labor were difficult to make.

Another inquiry on farm labor called for the total cash paid in 1944 for farm labor (wage, contract, and piece-work labor). Expenditures for machine hire and for any labor included in the cost of such machine hire, and expenditures for household and contract construction work were not to be included. The expenditures for farm labor represent the amount paid in cash. For certain types of labor, cash wages are often supplemented with the furnishing of board, housing, products of the farm for the use of the laborer's family, feed, pasturage for animals, etc.

For country-estate areas, it should be noted that the wages reported for such farms quite often exceeded the sale of agricultural products. In citrus areas where it is a common practice to charge a fixed amount per acre for the care of groves, this charge was quite often reported in lieu of wages.

Farm mortgages.—Data on farm mortgage debt will be covered in a special report, and are not included in this report.

Crops.—The 1945 Farm and Ranch Schedule was prepared in such manner that every crop grown on a farm could be enumerated. The crop inquiries were varied in different regions of the country so that separate specific questions could be carried for all crops widely grown in each major area. If a separate inquiry was not carried for a particular crop, that crop could be reported under one of several "all other crops" questions on the schedule. By using a different schedule for each region it was also possible to use the unit of measure that was most prevalent in that area for reporting production.

The acreage, or area, given in the tables for the several crops represents the acreage harvested in the crop year 1944 except that the acreage given for land in fruit orchards, vineyards, and planted nut trees represents the land in bearing and nonbearing trees and vines, on the census date. It should be pointed out that the acreage harvested is often much less than the acreage planted; also, that a crop intended for harvest in one manner might be harvested in an entirely different manner; for example, soybeans may have been planted for the beans but may have been actually cut for hay.

The production for the various crops represents the quantity harvested during the 1944 crop year with the exception of citrus fruit production which was to be reported for the crop harvested in the 1943-1944 season from the bloom of 1943.

Units of measure.—The unit of measure for reporting production of some crops has varied from one census year to the next. It has been pointed out that the schedule for 1945 made it possible to secure the production of certain crops in units of measure most commonly used, varying according to the region. In censuses prior to 1940, production of a crop was quite generally, though not universally, reported in a standard unit for all areas with the result that the quantity harvested was given for some areas in terms of units of measure not commonly used in those areas.

Types of containers and their cubic content have varied over the years with production and marketing practices. This has been especially true of units of measure for vegetables and fruits. It has been found impossible to obtain the production of vegetables in terms of standard containers; hence, the use of value of sales has been resorted to as the measure of production.

In the tables, the current production of the several crops is shown in the unit of measure used on the schedule; for example, production of apples is shown in bushels for all States, except Arizona and California where it is given in tons or fractions thereof. In the State tables the historical data are given for most of the crops in the unit used on the 1945 schedule for that area. This often required that the figures for earlier years be converted into different units from those reported and published for those years. Conversions have been made by using the weights in current use.

Value of specified crops harvested.—These values for the 1945 Census, shown in State table 2 and county table II, were obtained by multiplying the quantity harvested for each county by county-unit prices. Therefore, these figures include the value of crops used for seed or fed to livestock on the farm where produced, as well as the value of crops sold or traded. Similar procedures were used in calculating the value for crops harvested for the Census of 1940. In all cases, the county-unit prices were obtained cooperatively by the Department of Agriculture and the Bureau of the Census. For four items, values were enumerated because of the difficulty of finding a common production unit for purpose of enumeration. These four items are: vegetables for sale, vegetables for farm household use, horticultural specialties sold, and forest products sold.

Value of crops sold.—These values for groups of crops, which are shown for comparative purposes in State table 2 and county table II, are also included in

the value-of-product tables, State table 4 and county table IV. They are enumerated values of crops *sold or traded*. Hence, they do not include the value of crops used for seed or fed to livestock on the farm where produced. In some counties, these figures include sales of locally important crops not shown in the tables. For such counties, the value of crops sold may properly exceed the calculated value of specified crops harvested. For a discussion of the different value-of-products questions, see pages XIV-XVI.

Annual legumes.—The inquiries for the individual annual legumes were designed to obtain the acreage of each crop grown alone and the acreage grown with other crops. Because of different planting practices, the interplanted acreage cannot always be satisfactorily reduced to an equivalent solid acreage to obtain a total acreage for any particular legume. However, there is some evidence that some enumerators included the equivalent solid acreage for the acreage of legumes interplanted as "acres grown alone." This method of reporting interplanted acreage was probably more frequently used in 1945 than in previous censuses; hence, the acreage of annual legumes grown alone may be overstated and the acreage grown with other crops understated for the 1945 Census. That part of the acreage of soybeans and cowpeas cut for hay was to be reported not only under the separate inquiries for legumes, but also under "soybeans and cowpeas harvested for hay."

If soybeans, cowpeas, and peanuts were grown extensively in an area, a separate inquiry was carried for each on the regionalized farm schedule.

For some of the annual legumes, such as cowpeas, picking of the seed is often incidental to the main use made of the crop. Some picking of seed is also made from interplanted acreages. Likewise, some annual legume hay is cut from the acreage grown with other crops.

Hay crops.—The total production of all cuttings was reported, but the acres of land from which these cuttings were made were counted only once. "Small grains cut for hay" includes hay from wheat, oats, barley, rye, etc., but not oats cut when ripe or nearly ripe (milk stage) for feeding unthreshed. A considerable number of enumerators reported oats actually cut for hay as oats cut when ripe or nearly ripe (milk stage) for feeding unthreshed. Since some enumerators reported oats cut for hay as oats cut when ripe or nearly ripe for feeding unthreshed, the figures for the 1945 Census for small grains (including oats cut for hay) cut for hay and oats cut when ripe or nearly ripe for feeding unthreshed are not comparable with corresponding figures for previous censuses in many counties. "Other tame hay" covers sweetclover, old meadows, millet, Sudan grass, Johnson grass, orchard grass, redtop, crested wheatgrass, velvetbeans, and vetches cut for hay, but excludes sorghums cut for hay. "Wild hay" includes marsh, prairie, or range grasses, but not volunteer grasses following cultivated crops.

All other field crops.—The acreage of all field crops harvested and not listed elsewhere on the Farm and Ranch Schedule was reported as a unit under question 141 (see facsimile of Farm and Ranch Schedule in the appendix). The crops included as all other field crops varied from region to region. Since a common unit of physical measure could not be used for all other field crops, the dollar value of production was required. No data are being published on the acreage or value of all other field crops.

Vegetables harvested for sale.—In all States separate reports were required for the acreage of four important vegetables harvested for sale—i.e., fresh beans, cabbage, tomatoes, and green peas. In certain States reports were secured for celery, sweet corn, and lettuce. The acreage of vegetables for sale, other than those specified, were reported as a total as "all other vegetables and melons." Vegetables sold to canneries, as well as vegetables for fresh market, were to be reported as vegetables harvested for sale. Irish potatoes and sweetpotatoes were not reported as vegetables but as field crops.

Horticultural specialties.—Horticultural specialties included (1) crops grown under glass (flowers, plants, and vegetables) and propagated mushrooms, (2) nursery products (trees, shrubs, vines, ornamentals, etc.), and (3) flower and vegetable seeds, bulbs, and flowers and plants grown in the open. The inquiry on horticultural specialties called for the value of horticultural specialties sold or traded in 1944.

Small fruits.—The figures given for the individual small fruits represent the acreage and production of tame or cultivated varieties with the one exception, that wild blueberries were considered a harvested crop if the land from which they were harvested was used primarily for their production. The enumerators were instructed to omit the nonbearing acreage of small fruits.

Tree fruits, nuts, and grapes.—The inquiries on tree fruits, nuts, and grapes called for the number of trees or vines of all ages and the production. Except for citrus fruits, the production was for the crop year 1944. For citrus fruits, the production was for the crop harvested in the 1943-1944 season from the bloom of 1943.

Land in orchards, vineyards, and planted nut trees.—Enumerators were instructed to report the acreage of all land in bearing and nonbearing fruit orchards, vineyards, and planted nut trees. On many farms, there are a few fruit or planted nut trees or grapevines which are not a part of a well-defined orchard or vineyard. In many such cases, reports were secured for the number of trees or vines with or without production,

but no acreage was reported. Unless there were sufficient trees to equal the number of trees usually planted on two acres, the acreage was not supplied during the editing process. For this reason, the number of farms reporting specific fruits may exceed the number of farms reporting the acreage in orchards, vineyards, and planted nut trees.

Specified classes of livestock on farms.—The 1945 Farm and Ranch Schedule provided for an inventory as of January 1, 1945, of the following classes of livestock: all horses, all mules, all cattle, cows and heifers 2 years old and over, all hogs, sows and gilts kept for spring farrowing, all goats, all sheep, ewes and ewe lambs kept for breeding ewes, and all chickens over 4 months old.

The inquiries in the 1945 Farm and Ranch Schedule for livestock and livestock products were uniform for all States.

The livestock inventory for the 1945 Census of Agriculture, as also for the 1935, 1925, and 1920 Censuses, was to be reported as of January 1. This is the date most widely used for the inventory or numbers of livestock on hand. The various Acts of Congress authorizing a census of agriculture necessitated the fixing of certain livestock census dates other than January 1. Thus, in 1940 and 1930, the census was taken as of April 1. All livestock operations, regardless of whether the count of inventory numbers was made as of January or April, were to be reported for the preceding calendar year.

Periodically, numbers of certain species of livestock move through complete cycles in which they swing from a high point to a low point, then to another high and low, with considerable regularity. Census dates arbitrarily fixed may not occur at the same point in these cycles. Hence, figures for one census may not be directly comparable with those for another census taken at a different point in the cycle for a particular class of livestock.

Because of the differences in dates of enumeration and changes in age classifications, figures given for the number of animals for the various censuses are not always directly comparable. State table 3 presents a detailed statement of the age classifications for the various classes of livestock for the several censuses.

Livestock were to be enumerated on the farm or ranch where located on January 1, regardless of ownership, according to general instructions to enumerators. However, sheep on range presented, as usual, a special problem which was best solved by a modification of this general rule. In 1945, sheep in the Western States were enumerated at the headquarters (in most cases, the winter headquarters) of the ranch or sheep owner, regardless of where the sheep were located on January 1.

In the 1945 Census, ewes and ewe lambs reported were to be limited, according to the schedule, to those "kept for breeding ewes" and are not, therefore, strictly comparable by class definition with ewes classified according to age only in previous censuses.

Cows milked and dairy products.—The inquiry on the number of cows milked was included for the first time in the census of 1925 and has been included in each census of agriculture since that date. "Cows milked" includes only those cows and heifers actually reported as having been milked any time during 1944. The inquiry following the one calling for the number of cows milked, asked for the total number of gallons of milk produced in 1944. Several inquiries were made concerning the utilization of milk produced in 1944. These inquiries called for the gallons of milk sold as whole milk, pounds of butterfat sold as whole cream, and pounds of butter sold.

Poultry and poultry products.—Chickens on farms on January 1 were reported, according to instructions and by definition of the item, only if over 4 months of age. Broilers under 4 months of age were to be excluded from this January 1 count. The count of chickens on hand January 1, therefore, gave an approximation of the laying and breeding chickens on hand.

Chickens raised in 1944 included broilers and fryers, but excluded chicks hatched for sale as baby chicks as well as started chicks sold for further raising.

Value of specified classes of livestock on farms.—These values for the 1945 Census, shown in State table 3 and county table III, were secured by multiplying the inventory number of each class of livestock for a county by a county-unit price. Similar procedures were used in calculating the inventory values of livestock for the Censuses of 1940, 1935, 1930, and 1925. For the 1920 Census, the inventory value of livestock was enumerated. In all cases, the county-unit prices were obtained cooperatively by the Department of Agriculture and the Bureau of the Census.

Value of livestock and livestock products sold.—These values, which are shown for comparative purposes in State table 3 and county table III, are also included in the value-of-products tables, State table 4 and county table IV. They are enumerated values of livestock and livestock products *sold or traded* during the calendar year. For a discussion of the different value-of-products questions, see pages XIV-XVI.

Farm slaughter and sales of livestock.—The inquiry on farm slaughter called for the number of animals butchered for use on the particular farm as well as those for sale as dressed meat from that farm. Animals butchered off the farm on a custom basis, or otherwise, for use on the farm were to be reported by the operator of the farm for which the animals were butchered.

Animals sold alive were reported for the farm from which sold whether produced on that farm or purchased from others. However, enumerators were instructed not

to report animals purchased and then resold immediately.

Value of farm products sold or used by farm households.—The enumerated values are presented in this bulletin as "Value of farm products sold or used by farm households." These values were obtained by the enumerators from farm operators. The 1945 Farm and Ranch Schedule contained nine questions relating to the value of farm products sold, traded, or used by farm households. (See facsimile of schedule shown in the appendix.) The total value of farm products sold or used by farm households is a total of the individual reports of farm operators for the nine value-of-products questions on the schedule. The total value of farm products, or the value of farm products sold plus the value of farm products used by farm households, gives an approximate measure of gross farm income. The value-of-products questions were uniform for all States. It will be noted that the arrangement of these nine questions was such that each question appeared immediately following the reports on the items to which the value questions related—i.e., the inquiry on the value of the field crops followed immediately after the inquiries on the acreage and production of field crops.

The value questions relating to livestock and livestock products, horticultural products, and forest products apply to the calendar year 1944; whereas, the value questions for fruit and nut crops, vegetables harvested for sale, all other crops (field crops), and farm products used by farm household are for the crop year immediately preceding the census.

Since the individual farm is the unit of enumeration, the value-of-products figures necessarily include duplications because of interfarm sales. For example, feed crops produced on Farm A may be sold to Farm B; in this case, their value will be reflected in the gross livestock income for Farm B. Similarly, a Texas ranch may show sales of feeder cattle, and the same cattle may be fattened and sold from an Illinois farm.

The value-of-products figures do not include income from nonagricultural sources, such as work off the farm by the farm operator or members of his family.

Enumerators were instructed not to include in the value of farm products sold any government payments, such as soil conservation and dairy feed or dairy production payments.

Fruits and nuts sold.—In general, the figures reported for this question cover the value of all fruits and nuts harvested in 1944 that had been or were to be sold at the time of the census enumeration. However, the information on citrus fruit applies to the 1943-1944 season, that is, to the crop harvested from the bloom of 1943. The value figures on fruit cover all tree fruits, nuts, and grapes, as well as small fruits. Sales of wild fruits and nuts are excluded with two exceptions: wild blueberries were to be reported on the census schedule where the land was used primarily for their production; and wild or seedling pecans were also reported whether grown in orchards, farmyards, pastures, or elsewhere on the farm or ranch. The enumerator was instructed that, for all the value-of-products questions, gross receipts or values were desired without deductions for expenses of any kind. However, in the case of fruit, there was a noticeable tendency in many commercial fruit areas for growers to report their net receipts instead of the gross value of all fruit sold or traded. This was particularly true in sections where certain marketing costs were commonly deducted from the payments to the grower for fruit sold. Another factor which may have contributed to the tendency to report net receipts for fruit crops was the absence of any questions on the schedule regarding expenditures for such items as spray materials, orchard cultivation, irrigation water, packages, and other production and marketing costs.

Vegetables sold.—The values reported for this item represent the total value of vegetable crops harvested in 1944 for sale. Irish potatoes and sweetpotatoes were not included under vegetables, but were included under field crops.

Horticultural specialties sold.—The values reported for this item include the value of sales for crops grown under glass and propagated mushrooms; nursery products; and flower and vegetable seeds, bulbs, and flowers and plants grown in the open.

All other crops (field crops) sold.—This question covers the value of the sales of field crops such as corn, sorghums, small grains, annual legumes, hay, clover and grass seeds, and miscellaneous crops, including Irish potatoes and sweetpotatoes, cotton (lint), tobacco, sugarcane, sugar beets, hops, etc. In addition, the enumerator was instructed to include the value of sales of byproducts such as cottonseed, beet pulp and tops, pea vines, etc., although no provision was made for reporting the production of such byproducts on the schedule. On some schedules the value of sales of cottonseed apparently was not included in the value of field crops sold or traded. The enumerator was also instructed that where the farm operator was a tenant, the landlord's share should be included in reporting the value of sales, not only for this item, but also for all other value-of-products questions. Income from grazing livestock on a per-head basis was also included under this question.

Dairy products sold.—This question called for the value of all dairy products sold or traded in 1944, including sales of cheese, buttermilk, and skimmed milk, as well as sales of milk, butterfat, and butter. The value of dairy products purchased for resale was to be excluded, both from this value question and from the preceding items on quantities of whole milk, cream, and butter sold.

Poultry and poultry products sold.—Sales of ducks, geese, guineas, pigeons, baby chicks, and poults were included, as well as sales of eggs, broilers, fryers, other chickens, and turkeys.

Livestock and livestock products sold (other than dairy and poultry).—This value question included the sales of horses, mules, cattle and calves, hogs and pigs, sheep and lambs, meat (except poultry), goats, goat milk, wool, mohair, fur animals in captivity and pelts, bees, and honey.

Forest products sold.—The values reported for this question include sales of firewood, fuel wood, standing timber, sawlogs, veneer logs, pulpwood, mine props, bark, charcoal, fence posts, railroad ties, poles and piling, turpentine, resin, maple sirup and sugar, etc.

Farm products used by farm households.—This question called for the value of products of the farm in 1944 that were, had been, or were to be used by all households on the farm. The following items were to be included in this question if consumed on the farm where produced: meat, milk, cream, butter, poultry, eggs, honey, vegetables, fruit, firewood, fuel wood, and Irish and sweet potatoes. Farm products of institutional farms which were used by inmates of the institution were considered as sold, and the value was included under the other eight value-of-products questions. The same procedure was followed with respect to products of Community Victory gardens.

Comparability of 1940 and 1930 Census figures on value of farm products sold or used by farm households.—In general, the value of farm products information from the 1945 Census is comparable with that from the 1940 and 1930 Censuses. Available comparative figures will be found in State table 4. The 1940 Farm and Ranch Schedule carried 10 value-of-products questions, separate inquiries being used for value of livestock sold and value of sales of livestock products (other than dairy and poultry). The 1930 Farm and Ranch Schedule had 5 questions on value of farm products. A single question was used for the value of sales of all crops. Separate questions were used for value of livestock sold and for value of all livestock products sold (including dairy and poultry). In addition, the 1930 questionnaire carried an inquiry on gross receipts from lodgers, boarders, and campers. The 1930 Census value-of-products figures shown in State table 4 do not include the income reported from this source.

1945 classification by type of farm.—In the 1945 Census, all farms have been classified mechanically by type of farm, based on the principal source of income in 1944. The procedure was as follows:

After eliminating "farms with no products" and "unclassified" farms, which could not be classified by type on the basis of the value of products, the remaining farms were sorted into two groups: (1) farms producing products primarily for sale, and (2) farms producing products primarily for own household use. If the value of farm products used by farm households exceeded the total value of all farm products sold, the farm was classified as a "farm producing products primarily for own household use." On the other hand, if the value of all farm products sold equaled or exceeded the value of farm products used by farm households, then the farm was classified as a "farm producing products primarily for sale." "Farms producing products primarily for sale" were further classified into the following nine major types, on the basis of source of income: fruit-and-nut farms, vegetable farms, horticultural-specialty farms, all-other-crop (field crop) farms, dairy farms, poultry farms, livestock farms, forest-product farms, and general farms. If the value of products sold from one source of income was more than 50 percent of the total value of all farm products sold, then the farm was classified as the type corresponding to that source of income. Farms for which the value of products from any one of the eight sources of income did not exceed 50 percent of the total value of all farm products sold were classified as "general" farms.

Farms with no farm products sold or used.—These are farms for which there was a correct report of no farm products sold or used by farm households. Such farms include: (a) new farms being operated for the first time in 1945, and (b) farms having a complete crop failure in 1944 with no livestock or livestock products sold and no value for farm products used by farm households. For example, in certain areas, such as the New England States, some farms reported hay as the only product, with no sales and no livestock on hand at the time of enumeration. Such farms are included in the category of "farms with no farm products sold or used."

Unclassified farms.—Where information on the farm production and value of farm products sold or used was incomplete or not reported, the farm was designated as "unclassified."

Comparative 1940 Census figures on type of farm.—The 1945 and 1940 Census classifications of farms by type are not comparable. In the 1940 Census, farms were classified by type on the basis of major source of income. To illustrate, if the entry for value of dairy products sold was the largest entry under the 10 value-of-products questions, the farm was classified as a dairy farm. If a farm had two or more sources of income for which the value entries were the same, and these were the largest value entries, the farm was classified according to the item predominating as to major source in that locality. While this method of classification was simple and objective, the results were not entirely satisfactory. For example, farms for which the value of products used by the farm households was only slightly larger than the value of the largest sales item were classified as subsistence or

family-living farms. But many of these "family living" farms had diversified operations so that the total value of farm products sold was greatly in excess of the value of products for farm household use. Logically, such farms belonged in a "general farm" category.

Table B, on page XVII, shows comparative State figures on farms, classified by type, for both the 1945 and 1940 Censuses. In the last two columns are figures from the 1940 Census on number of farms, classified by the 1940 Census "major source of income" procedure, described in the preceding paragraph. The figures in the second and fourth columns show the 1940 Census number of farms reclassified, using the 1945 Census procedure described in the preceding section entitled "1945 Classification by Type of Farm." As explained in footnote 2 of table B, this reclassification is based, in part, on a comparatively small sample. The coefficients of variation shown in the fifth column may be interpreted as follows: The probabilities are about 2 in 3 that the percent error of the 1940 estimate will be less than the coefficient of variation and about 1 in 3 that it will exceed the coefficient of variation. The coefficients of variation apply alike to the estimated 1940 number of farms of each type and to the percentage that the number of each type is of the total farms in the State.

(*) Not available.
(x) 0.5 percent or less.
[1] For comparable figures by counties, see 1940 Reports on Agriculture, vol. II, pt. 2, county table XIX, p. 824.
[2] County figures are not available. The 1940 Census figures (State) by type of farm are based on a 2-percent sample for farms with under $10,000 total value of farm products, plus a tabulation of all farms with $10,000 or more total value of farm products. These figures are, therefore, subject to sampling errors. The coefficients of variation provide information on the approximate magnitudes of these errors. See text.
[3] Classified by total value of farm products, but not classified by type. See State tables 4, 7, and 8.
[4] Not classified either by total value of farm products or by type. See State tables 4, 7, and 8.

*Not available.

**Available data not comparable; see text.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940, 1935, 1930, and 1925 figures exclude land in managed farms.

[2] In 1944, 1939, 1934, 1929, 1924, and 1919, respectively.

[3] Total acreage of crops for which figures are available, except that corn cut for forage was excluded as most of this acreage was probably duplicated in the acreage of corn harvested for grain.

[4] The figures for 1940, 1935, 1930, and 1925 are not strictly comparable with those for 1945. The figures for 1945 include land used only for pasture which had been plowed within 7 years. The figures for 1940, 1935, 1930, and 1925 include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to the census date.

[5] 1945 figure excludes automobiles; 1940 and earlier figures include automobiles.

[6] White includes Mexicans; nonwhite includes Negroes, Indians, Chinese, Japanese, and other nonwhite races.

[7] For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations; the figures for the 1935, 1930, 1925, and 1920 Censuses are in general comparable with those for 1945 as they include all operators who began operations within a year preceding the census date. See text.

[8] 5 to 10 years.

[9] 11 years and over.

[10] 11 to 14 years.

[11] In 1944, 1939, 1934, and 1929, respectively.

[12] Shown under "Specified facilities in farm dwellings for farms with resident operators," as the 1930 inquiry referred to "farmer's dwelling" and the 1920 inquiry referred to "operator's dwelling."

[13] Farms having telephones.

[14] Gas or electricity.

[15] For 1940, farms on hard-surfaced, gravel, shell, shale, etc., roads; for 1930, farms on concrete, brick, asphalt, macadam, gravel, and sand-clay roads; for 1925, farms on concrete, brick, macadam, and gravel roads.

[16] In 1944, 1939, 1929, 1924, and 1919.

[17] Includes value of board furnished.

STATE TABLE 2.—SPECIFIED CROPS HARVESTED:[1] CENSUSES OF 1920 TO 1945

* Not available.
** Available data not comparable; see text.
[1] Figures for cropland harvested and specified crops relate to the crop years 1944, 1939, 1934, 1929, 1924, and 1919.
[2] Total acreage of crops for which figures are available, except that corn cut for forage was excluded, as most of this was probably duplicated in acreage of corn harvested for grain.
[3] Includes calculated value of corn for grain, silage, fodder, and corn hogged off or grazed.
[4] Includes calculated value of sorghums for grain, silage, hay or dry forage, and sorghums hogged off or grazed.
[5] Includes sorghums for grain and sorghums for seed, which were reported separately in 1920.
[6] Excludes reports for farms reporting acreage grown for all purposes with no production. Includes acreage grown alone and acreage grown with other crops. Acreage harvested for beans not available.
[7] Includes acreage grown alone and acreage grown with other crops for all purposes. Acreage harvested for beans not available.
[8] Annual legumes saved for hay. Vetches not included for 1925.
[9] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[10] Includes sweetclover cut for hay, which was reported separately in 1940.
[11] Running bales, counting round as half bales.
[12] "Farms reporting" represents farms reporting trees (or vines) and/or production.
[13] The 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939; other years for the preceding crop year.
[14] Figures do not include farms reporting a small number of trees without acreage. Acreages for various censuses are not strictly comparable as enumerators may not have always reported acreage for a small number of trees.
[15] Excludes Irish and sweet potatoes, except for 1920 Census which included potatoes grown for home use only.
[16] Enumerated value.
[17] Excludes Irish and sweet potatoes.
[18] Includes green lima and snap beans not reported separately.

STATE TABLE 3.—LIVESTOCK AND LIVESTOCK PRODUCTS: CENSUSES OF 1920 TO 1945

[Except as noted in the text, values for inventory items are based on unit prices, and values for products sold are enumerated values]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See State tables 4 and 7.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

TYPE AND TOTAL VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945

by type, see text]

FARM PRODUCTS SOLD—Continued										FARM PRODUCTS USED BY FARM HOUSEHOLDS		
All other crops sold[3]		Dairy products sold		Poultry and poultry products sold		Livestock and livestock products sold (other than dairy and poultry)		Forest products sold

*Not available.

**Available data not comparable; see text.

[1]The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1]1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

CHARACTERISTICS: CENSUSES OF 1945 AND 1940

[2]In 1944 and in 1939.

[3]The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4]The 1945 figures exclude automobiles; the 1940 figures include automobiles.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

(*) Not available.

(**) Available data not comparable; see text.

† The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

CHARACTERISTICS: CENSUSES OF 1945 AND 1940—Continued

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1]1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1]1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

CHARACTERISTICS: CENSUSES OF 1945 AND 1940—Continued

[3]In 1944 and in 1939.

[3]The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4]The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

* Not available.

** Available data not comparable; see text.

† The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[For part 2,

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1]1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2]In 1944 and in 1939.

[3]The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4]The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1]1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2]In 1944 and in 1939.

[3]The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4]The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[For part 2,

[3]The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4]The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[For part 2,

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1]1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

* Not available.

** Available data not comparable; see text.

† The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

735329 O - 47 - 5

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

* Not available.

** Available data not comparable; see text.

† The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

352,437

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

* Not available.

** Available data not comparable; see text.

† The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[For part 2,

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

(*) Not available.

(**) Available data not comparable; see text.

† The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

*Not available.

**Available data not comparable; see text.

†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.

[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

*Not available.
**Available data not comparable; see text.
†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.
[1]1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[For part 2,

*Not available.
**Available data not comparable; see text.
†The excess of farm acreage over approximate land area is due to the fact that the entire acreage of a farm is tabulated as in the county in which the headquarters is located, even though a part of the farm may be situated in an adjoining county.
[1] 1945 figures include land in managed farms classified on basis of whether owned or rented by the employer; 1940 figures exclude land in managed farms.

[2] In 1944 and in 1939.

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 1 OF 2).—FARMS AND FARM

[For part 2,

	ITEM (For definitions, see text)	WILLIAMSON		WILSON		WINKLER	
		Census of 1945	Census of 1940	Census of 1945	Census of 1940	Census of 1945	Census of 1940
	FARMS, ACREAGE, AND LAND AREA						
1	Farms.....number..	4,071	3,954	1,915	2,092	40	25
2	Approximate land area.....acres..	720,640	720,640	513,280	513,280	567,680	567,680
3	Proportion in farms.....percent..	93.2	90.5	83.0	78.6	85.8	60.0
4	Land in farms.....acres..	671,641	651,969	426,052	403,370	486,927	340,605
5	Owned by operator[1].....acres..	335,983	258,326	242,333	205,515	243,512	141,736

[3] The 1940 figures are not strictly comparable with those for 1945 since the 1940 figures include land pastured which could have been plowed and used for crops without additional clearing, drainage, or irrigation. This land may not have been plowed within 7 years prior to 1940.

[4] The 1945 figures exclude automobiles; the 1940 figures include automobiles.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

735329 O - 47 - 7

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and, in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[3] 1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4] In 1944 and in 1939.

[5] Farms located on hard-surfaced, gravel, shell, or shale roads.

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[6]Farms located on hard-surfaced, gravel, shell, or shale roads.

735329 O - 47 - 8

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[3]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE I (PART 2 OF 2).—FARMS AND FARM

[For part 1,

[5]1940 figure not strictly comparable with that for 1945. For the 1945 Census, taken as of Jan. 1, 1945, the figure includes all operators reporting 1944 or 1945 as year they began operations—22,177 operators in the State reporting 1945; for the 1940 Census, taken as of Apr. 1, 1940, the figure includes only operators reporting 1940 as year they began operations.

[4]In 1944 and in 1939.

[5]Farms located on hard-surfaced, gravel, shell, or shale roads.

COUNTY TABLE II (PART 1 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] One-half acre or less.

[4] For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940

sold are enumerated values. See text. For part 1, see page 112, for part 3, see page 216]

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[1] Not available.
[2] Figures relate to the crop years 1944 and 1939.
[3] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[4] One-half acre or less.
[5] For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

*Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

*Not available.

[1]Figures relate to the crop years 1944 and 1939.

[2]For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3]One-half acre or less.

[4]For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5]For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6]Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7]Running bales, counting round as half bales.
[8]Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

*Not available.

[1]Figures relate to the crop years 1944 and 1939.

[2]For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3]For 1940 Census, annual legumes saved for hay.

[4]For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] One-half acre or less.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

⁶ Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] One-half acre or less.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

*Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] One-half acre or less.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] One-half acre or less.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[5] Not available.
[1] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] One-half acre or less.
[4] For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.
[*] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] For 1940 Census, annual legumes saved for hay.
[4] One-half acre or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] Fifty cents or less.
[6] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[7] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[8] Running bales, counting round as half bales.
[9] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[4] Not available.
[1] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] For 1940 Census, annual legumes saved for hay.
[4] One-half acre or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

*Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] One-half acre or less.

[3] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[4] For 1940 Census, annual legumes saved for hay.

HARVESTED: [1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] One-half acre or less.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

*Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

HARVESTED[4] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] One-half acre or less.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.
[1] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] One-half acre or less.
[4] For 1940 Census, annual legumes saved for hay.

HARVESTED.[1] CENSUSES OF 1945 AND 1940—Continued.

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[1] Not available.
[1] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] For 1940 Census, annual legumes saved for hay.
[4] One-half acre or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

[4] One-half acre or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[6] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] One-half acre or less.
[7] Running bales, counting round as half bales.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.
[1] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] For 1940 Census, annual legumes saved for hay.
[4] One-half acre or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112 ; for part 3, see page 216]

[5] Fifty cents or less.
[6] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[7] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[8] Running bales, counting round as half bales.
[9] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[5] Not available.
[1] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] One-half acre or less.
[4] For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

* Not available.

[1] Figures relate to the crop years 1944 and 1939.

[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.

[3] For 1940 Census, annual legumes saved for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 3, see page 216]

[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.
[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 2 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Not available.
[1] Figures relate to the crop years 1944 and 1939.
[2] For 1940 Census, includes acreage grown alone and acreage grown with other crops. Acreage harvested not available. Excludes reports for farms reporting acreage but no production.
[3] For 1940 Census, annual legumes saved for hay.
[4] For figures on annual legumes, including peanut vines, saved for hay, see soybeans and cowpeas harvested for hay.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112 ; for part 3, see page 216]

[5] Includes sweetclover cut for hay which was reported separately in 1940. Farms reporting for 1940 shown if only one kind of hay (sweetclover or other tame) was reported.
[6] Running bales, counting round as half bales.
[7] One-half acre or less.
[8] Includes specified crops in parts 1 and 2 of county table II; also includes value of lespedeza seed harvested and value of tobacco harvested, not shown separately. See State table 2.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] One-half ton or less reported.
[7] Does not include farms with a small number of trees or vines which did not report acreage.
[8] Excludes Irish and sweet potatoes.
[9] Enumerated value.

[5] One-half ton or less reported.
[6] Fifty cents or less.
[7] One-half ton or less reported. Value not computed.
[8] Does not include farms with a small number of trees or vines which did not report acreage.
[9] Excludes Irish and sweet potatoes.
[10] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

*Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] One-half ton or less reported.
[7] Does not include farms with a small number of trees or vines which did not report acreage.
[8] Excludes Irish and sweet potatoes.
[9] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943–44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939–40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

° Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] Does not include farms with a small number of trees or vines which did not report acreage.
[7] Excludes Irish and sweet potatoes.
[8] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164.]

(*) Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[6] One-half ton or less reported. Value not computed.
[7] One-half ton or less reported.
[8] Does not include farms with a small number of trees or vines which did not report acreage.
[9] Excludes Irish and sweet potatoes.
[10] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

(*) Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

*Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[1] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[2] Does not include farms with a small number of trees or vines which did not report acreage.
[7] Excludes Irish and sweet potatoes.
[8] Enumerated value.

(*) Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] One-half ton or less reported.
[7] Does not include farms with a small number of trees or vines which did not report acreage.
[8] Excludes Irish and sweet potatoes.
[9] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

[6] One-half ton or less reported.

[7] Does not include farms with a small number of trees or vines which did not report acreage.

[8] Excludes Irish and sweet potatoes.

[9] Enumerated value.

735329 O - 47 - 17

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[4] Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943–44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939–40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] Does not include farms with a small number of trees or vines which did not report acreage.
[7] Excludes Irish and sweet potatoes.
[8] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

(*) Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[1] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[2] Does not include farms with a small number of trees or vines which did not report acreage.
[3] Excludes Irish and sweet potatoes.
[4] Enumerated value.

(*) Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943–44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939–40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] Does not include farms with a small number of trees or vines which did not report acreage.
[7] Excludes Irish and sweet potatoes.
[8] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] One-half ton or less reported.
[7] Does not include farms with a small number of trees or vines which did not report acreage.
[8] Excludes Irish and sweet potatoes.
[9] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[6] One-half ton or less reported. Value not computed.
[7] One-half ton or less reported.
[8] Does not include farms with a small number of trees or vines which did not report acreage.
[9] Excludes Irish and sweet potatoes.
[10] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] One-half ton or less reported. Value not computed.
[7] Does not include farms with a small number of trees or vines which did not report acreage.
[8] Excludes Irish and sweet potatoes.
[9] Enumerated value.

735329 O - 47 - 18

[8] Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943–44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939–40 from the bloom of 1939.

[2] One-half acre or less.

[3] Fifty cents or less.

[4] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

*Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

[6] One-half ton or less reported. Value not computed.

[7] Does not include farms with a small number of trees or vines which did not report acreage.

[8] Excludes Irish and sweet potatoes.

[9] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[6] Does not include farms with a small number of trees or vines which did not report acreage.
[7] Excludes Irish and sweet potatoes.
[8] Enumerated value.

COUNTY TABLE II (PART 3 OF 3).—SPECIFIED CROPS

[Values of specified crops harvested are based on county-unit prices; values for crops

[6] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.
[7] One-half ton or less reported.
[8] Does not include farms with a small number of trees or vines which did not report acreage.
[9] Excludes Irish and sweet potatoes.
[9] Enumerated value.

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

* Not available.

[1] Figures relate to the crop years 1944 and 1939 except for citrus fruits. For citrus fruits, the 1945 Census figures relate to the crop harvested in 1943-44 from the bloom of 1943; the 1940 Census figures relate to the crop harvested in 1939-40 from the bloom of 1939.

[2] One-half acre or less.

[3] "Farms reporting" represents farms reporting trees (or vines) and/or production.

[4] Fifty cents or less.

[5] Includes oranges of all kinds, which were reported separately in 1940. Farms reporting for 1940 shown if only one kind of orange (Satsuma, other early and midseason, or Valencia and other late) was reported.

HARVESTED:[1] CENSUSES OF 1945 AND 1940—Continued

sold are enumerated values. See text. For part 1, see page 112; for part 2, see page 164]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.
[3] For classification by total value of products, see State table 8.

COUNTY TABLE VIII.—FARMS CLASSIFIED[1] BY TYPE AND TOTAL

[For basis of classification by type, see text.

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

DENTON			DE WITT			DICKENS			DIMMIT			DONLEY

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1]Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2]Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1]Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2]Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

POLK			POTTER			PRESIDIO			RAINS			RANDALL

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

[1] Does not include farms with no farm products sold or used, or unclassified farms. See county tables IV and VII.
[2] Includes value of farm products for farm households' use. Does not include value of products fed to livestock or used for seed on farm where produced.

VALUE[2] OF FARM PRODUCTS: CENSUS OF 1945—Continued

For value by source of income, see table IV]

INSTRUCTIONS

Purpose of the Census of Agriculture.—An Act of Congress provides that a census of agriculture be taken every 5 years, for the purpose of obtaining basic information on farm acreage, land values, crops, livestock, and other general items relating to agriculture. The census of January 1, 1945, will consist of an enumeration of every farm in the United States.

Each enumerator will be assigned an enumeration district. In each such district he must enumerate every tract of land which might be classified as a farm under the Census definition. The information is to be obtained by a personal visit. He must secure for each farm all the information requested in order that totals may be obtained which will represent a complete and accurate picture of the agriculture within the area.

Census Schedules Are Confidential.—During the war emergency census returns are accorded confidential treatment as heretofore, subject to existing law. Under the Census Act heavy penalties are prescribed for revealing information to unauthorized persons. The enumerator should make it clear, in dealing with persons who seem unwilling to give the information requested, that he is not allowed to give any information from the schedule to their neighbors or other persons; that only sworn Census employees will have access to the farm schedules; and that those records for individual farms cannot be used for purposes of taxation, regulation, or investigation.

DEFINITION OF A FARM

A farm, for Census purposes, is all the land on which some agricultural operations are performed by one person, either by his own labor alone or with the assistance of members of his household, or hired employees. The land operated by a partnership is likewise considered a farm. A "farm" may consist of a single tract of land, or a number of separate tracts, and the several tracts may be held under different tenures, as when one tract is owned by the farmer and another tract is rented by him. When a landowner has one or more tenants, renters, croppers, or managers, the land operated by each is considered a farm. Thus, on a plantation the land operated by each cropper, renter, or tenant should be reported as a separate farm, and the land operated by the owner or manager by means of wage hands should likewise be reported as a separate farm.

Include dry-lot or barn dairies, nurseries, greenhouses, hatcheries, fur farms, mushroom cellars, apiaries, cranberry bogs, etc.

Do not include "fish farms," "fish hatcheries," "oyster farms," and "frog farms." **Do not report as a farm any tract of land of less than 3 acres, unless its agricultural products in 1944 were valued at $250 or more.**

Farming, or agricultural operations, consists of the production of crops or plants, vines, and trees (excluding forestry operations) or of the keeping, grazing, or feeding of livestock for animal products (including serums), animal increase, or value increase. Livestock, as here used, includes poultry of all kinds, rabbits, bees, and fur-bearing animals in captivity—in addition to mules, asses, burros, horses, cattle, sheep, goats, and hogs. Frequently, certain operations are not generally recognized as farming. This is especially true where no crops are grown or where the establishments are not commonly considered as farms.

Following is a partial list of types of specialized agriculture and of operations not generally recognized as farms or farming, for which returns on the Farm and Ranch Schedule are required, provided the area is 3 acres or more or, if less than 3 acres, the value of the products in 1944 was $250 or more:

Apiaries (bee farms).
Community or cooperative gardens.
Country estates and country homes (if there is production of vegetables, eggs, milk, or other agricultural products either for home use or for sale).
Cranberry bogs.
Dry-lot or barn dairies.
Feed lots.
Fur farms (fox, mink, skunk, etc., in captivity).
Garbage-feeding hog yards.
Greenhouses.
Hatcheries (baby chicks, poults, etc.).
Institutional farms (connected with schools, prisons, hospitals, etc.).
Mushroom cellars.
Nurseries (except for reforestation projects, or in connection with parks).
Part-time farms (agricultural operations incidental to other occupation).
Victory gardens.
Blueberry production from wild plants where the land is used primarily for their production.
Cutting of hay (even though this is the only farming operation).
Grazing or pasturing of livestock.
Harvesting of grass seed.
Keeping of chickens and the production of broilers (including battery-laying and battery-broiler plants).
Production of medicinal or drug plants and herbs.
Production of flowers and bulbs for sale.
Production of vegetables under glass.
Production of vegetable and flower seeds, plants, bulbs, tubers, etc.
Production, in captivity, of pheasants, quail, etc.
Production of mint, spices, or other special crops.
Raising of Shetland or other ponies.
Rabbit raising.
Squab raising.

If any specialized or unusual types of agriculture such as those mentioned above are reported, list type under Supplemental Information on page 12.

Although columns are not provided on the schedule for obtaining reports for all the above-mentioned specialized operations in detail, be sure to report on all items that are applicable, making use of inquiries for "other crops" (cols. 140–141, 191, and 202). Note that value of land and buildings and value of sales of products should be reported in all cases.

Include in one report all land which the operator uses for agricultural purposes, as previously defined, also all outlying or separate fields, meadows, pastures, woodland, and waste lands. A farm may consist of two or more separate tracts not necessarily adjacent. Do not include public or open range neither owned nor leased by the operator (see Livestock on Open Range). If the operator cuts hay from land that he does not own and for which he pays no rent, include such acreage under Wild Hay Cut (col. 114) and explain under Supplemental Information on page 12. Large areas of timber land or other nonagricultural land held as a separate business and not used for pasture or grazing should not be included.

The following types of establishments and operations do not require returns on the Farm and Ranch Schedules unless there are also agricultural operations:

Canneries.
Cheese factories.
Creameries.
Deer parks.
Fish, frog, alligator, or snake "farms."
Fish hatcheries.
Game preserves.
Kennels.
Livestock dealers (except feed lots or other farming operations).
Ostrich "farms."
Oyster "farms."
Parks.
Riding academies with no farming operations.
Shipping pens.
Turpentine "farms" or turpentine "orchards."
Distilleries, gins, dryers, mills, refineries, or packing plants.
Establishments of 3 acres or more, even though locally known as "farms" on which there are no agricultural operations.
Idle or abandoned farms which were not operated in 1944 and will not be operated in 1945.
Cutting or gathering of forest products with no farming operations.
Landscaping, or maintaining grounds, and growing of flowers, shrubs, and ornamentals for home use only.
Picking or gathering of wild nuts, wild fruits, or wild plants (medicinal, ornamental, etc.) except where the land is maintained primarily for their production.
Production of maple sirup or sugar with no farming operations.
Raising canaries, guinea pigs, white rats, or white mice.
Stock yards and auction yards or barns.
Trapping of wild animals.

One Farm Return for Each Operator.—As a rule, one (and only one) return should be prepared for each operation. But to this

(Reduced facsimile)

rule there is one rare exception. If a person operates two separate tracts of land as hired manager for two different owners (except for collectively developed unit farms), or one tract of land as owner (or tenant) and another as manager, a separate return should be prepared for each, as each represents a separate enterprise. Only one return should be prepared if a farm operator owns a tract of land and also rents a tract from another person.

ENUMERATOR'S RECORD AND CERTIFICATE

Enumerator's Record.—The enumerator's record on the front cover of every book must be filled out carefully. It is by means of this record that the information for the farms enumerated is properly classified as to geographic location.

If an enumerator is assigned more than one enumeration district, separate books must be used for each. Under no circumstances is the same book to be used for more than one enumeration district.

Number the books for each enumeration district in the order in which you use them.

The name of the minor civil division (M. C. D.)—known by various names in the different States, such as township, town, ward, precinct, district, beat, etc.—should be entered with any numerical identification usually employed; for example, Precinct No. 1, Hawkinsville.

Enumerator's Certificate.—When you start a book, enter the time and date you begin and when you have completed the book enter the time and date of completion and your signature. Be sure to make the checks listed opposite the Enumerator's Certificate before signing your name. These checks should be kept in mind throughout the enumeration.

GENERAL INFORMATION

Who Should Supply the Information?—The enumerator must obtain information in regard to a farm or establishment from the actual operator if possible. If unable to locate the operator, statements by members of his family, his employees, or other qualified persons may be accepted. Neighboring farmers may be able to supply the information. If obtained from other than the farm operator, note under Supplemental Information from whom obtained.

In case the land was farmed by some other person last year, the present operator should, from the stubble or other evidence, be able to give the approximate acreages and productions for the crops harvested in 1944 on this particular farm. Do not permit an operator who has recently taken possession to report the crops which he harvested in 1944 on some other farm.

Effort should be made to obtain figures from the farmer's records, if such are kept. It is imperative, however, that you secure a complete return for every farm in your district.

How to Fill Out a Schedule.—Use blue or black ink only. Never use ink of any other color or a pencil.

Write legibly.

Make your entries in the lower part of the space provided rather than in the center of the space between lines.

If a mistake is made, draw a line through the entry in error in such manner that it can still be read and rewrite the new figure within the proper space.

Do not use an eraser or ink eradicator.

Where no entries are required, leave the spaces blank; do not insert dashes, ciphers, or check marks.

Do not use ditto marks.

In reporting values enter dollars only; omit cents.

Report all numerical data in whole numbers unless a separate column is provided for fractions. Report fractions in tenths.

Use the space under Supplemental Information on page 12 for making notes.

On all doubtful points consult your supervisor.

Remember that you are enumerating the farm as of January 1, 1945, for all items except crop production, livestock products, and value of products, which are for the year 1944.

Obtain the best possible information.

Report in the units specified in the headings.

Be sure to read explanations of questions appearing at the bottom of the pages each time you ask the questions until you become thoroughly familiar with them. It is very important that the questions be interpreted according to these explanations.

Use one line (and only one) for each farm (see definition). Be sure that the entries for a particular farm are on the same line on all pages. To assist in keeping on the line, line numbers appear on both the right and left margins of each page. Each farm is to be listed in the order of visitation. When no one is at home to supply the information, the name of the operator should be obtained from a neighbor and entered in the space in which it should appear. Then when the line for the next farm is filled in, the preceding line will stand out as blank across all pages, thus serving as a reminder that here is a farm for which the information must be obtained on a repeat visit. Be sure to fill all such blank lines before turning in your book. Your enumeration must include all going farms in your district.

Order of Enumeration.—In filling out the schedule, you may find it helpful to secure reports for the various crops (cols. 49 to 204) before entering the acreages by land use (cols. 19–26). This procedure will help you in determining the acreages in the farm by use, especially land from which crops were harvested (col. 19). Before leaving a farm, be sure to make vertical and horizontal checks for each page of the schedule; that is, check to see that you have not made entries in the wrong columns or on the wrong lines and that you have not omitted entries for any inquiries which are applicable. Also make the checks listed on page 12. By making these checks, you may avoid the necessity of a return visit.

Operator Not Living On the Farm.—If a person living in a city operates a farm outside the city limits, going to the farm day by day as necessary, and he keeps livestock at his place in the city or carries on some farming operations (not merely a home garden) there, the residence should be included as part of the farm and the value included in the value of land and buildings. In such cases, the farm should be enumerated in the minor civil division where located, although the residence may be in another.

Farms with No Operator.—Infrequently a farm operated in 1944 will not have an operator at the time of the enumeration. In such cases, secure a return from the previous operator or from the owner or his representative. In column 1 write "No operator at present" and enter all other pertinent information. Report as owned or rented on basis of intentions for 1945. If it will not be operated in 1945, report on the basis of 1944 operations.

If a farm was operated in 1944, but will not be operated in 1945, fill in all information the same as you would for any other farm, except that pertaining to the operator and his household. In this case, since there will be no operator, write on the line for this farm on the first page in the columns for name and address of operator, "Will not be operated in 1945," and give, under Supplemental Information on page 12, the reason why it will not be operated. Report as owned or rented on basis of 1944 operations.

If the farm was not operated by anyone in 1944, but will be operated in 1945, there will, of course, be no crop entries for 1944, but there should be entries on pages 1 and 2 concerning the farm and the operator, and on pages 10 and 11 for livestock and poultry. On page 4 write, on the line for this farm, "Not operated in 1944, but will be in 1945."

Farms abandoned or idle in both 1944 and in 1945 are not to be enumerated on this schedule.

Farms Extending Across Boundaries of Enumeration District.—Include entire acreage of all farms whose headquarters are

(Reduced facsimile)

within the enumeration district. The farm headquarters should be determined as follows:

1. If there is only one dwelling on the farm, this dwelling is the farm headquarters, regardless of whether it is occupied or unoccupied.
2. If there are two or more dwellings on the farm, and the farm operator lives on the farm, the farm headquarters is the dwelling in which the farm operator lives.
3. If there are two or more dwellings on the farm, and the farm operator does not live on the farm, the farm headquarters is the dwelling of greatest value.
4. If there is no dwelling on the farm, but there is a building on the farm, this building is the farm headquarters.
   If there are two or more such buildings, the farm headquarters is the building of greatest value.
5. If there are no buildings on the farm, the farm headquarters is the main farm entrance. The main farm entrance is the point where the farm operator usually turns off a public road, private road, trail, or path, on to the farm he operates.
   If a farm with no buildings is composed of two or more separate tracts of land, the main entrance to the farm is the main entrance to the tract of land of greatest value.

In enumerating farms extending into another minor civil division or county, enter on the appropriate line in the spaces provided on page 12 the name or names of the additional minor civil divisions, the county in which each is located, and the acres in each.

If the headquarters of a farm is located in another enumeration district, the entire farm is to be enumerated in that district.

It will be helpful to indicate on your map farms for which the headquarters are in an adjoining enumeration district. If you inform the enumerator in the adjoining district, or your supervisor, of such farms it will insure that all such farm lands are included in the census enumeration and that none are duplicated.

Partnerships.—For a farm operated by two or more partners enter only one of the partners as the operator, preferably the senior partner, unless the junior partner is actually conducting the operations.

Farming Combined With Nonfarm Activities.—If manufacturing or processing is carried on primarily for the disposal of raw materials produced on the farm where the plant is located, or for putting them into a marketable form, such a plant should be included as part of the farm. If, on the other hand, the operations represent mainly custom work, or an independent enterprise, then such a plant is not to be considered a part of the farm. Report only the acreage and value of land and buildings actually used for farming purposes, and include only the products from the farming operations and their value before processing.

Institution and Corporate Farms.—Farms operated by or for institutions (schools, hospitals, prisons, reformatories, etc.) or by corporations should be recorded in the name of the person in charge of all the farming operations, even though submanagers may be employed. For such farms be sure to enter a "Yes" in column 11. Reports for such farms should include only the portions used for farming purposes. Do not include acreage and value for institutional and other nonfarm buildings (see definition of farm). In columns 27–40 the inquiries relate only to persons and dwellings connected with the farming operations. Inmates of institutions who work on the farm for pay should be classed as hired laborers; unpaid inmates should not be included. Products of the farm consumed by inmates should be considered as sold.

Agricultural Operations by Other Than the Operator of the Farm.—On some farms, members of the operator's family or other persons living on the farm (not croppers or tenants) will grow small acreages of crops or will keep some livestock, or both. For example, a 4–H Club member may have a crop or livestock project, or a hired man may have a garden or some livestock. Include all such crop operations and livestock on the return for the farm operator.

Indian Reservations and Allotted Indian Land.—Where land has been allotted to Indians, an individual return should be secured for each Indian, the use of whose land would bring it under the classification of a farm. The word "allotted" is to be construed as covering allotment in fee, allotment in trust, and the simple designation of a certain acreage as the place of residence or agricultural activity of an individual Indian. Also, a separate return should be made for each Indian having no allotted land, but having livestock pastured on unallotted reservation, national forest, or public domain, if the value of the natural increase in his livestock and the value of his livestock products in 1944 amounted to $250 or more. In the latter case, write in columns 18–26 "No land owned or leased."

Any acreage belonging to an Indian reservation that has not been allotted or assigned to Indians and that is not leased to corporations or individuals, if used for agricultural purposes, constitutes a single farm for which a return is to be secured from the Indian agent. The Indian agent is to be reported as manager and the name of the reservation is to be reported in column 3. The reservation return should include only such acreage as is usually devoted to crops, any fenced lands on which livestock is grazed, also unfenced grazing land over which reservation livestock is herded, and land occupied by farm buildings. Any vast acreage of wild land not utilized to an appreciable extent should not be included. All livestock belonging to the reservation must be reported on the reservation return.

Livestock on Open Range.—A flock of sheep or a herd of cattle being pastured on open range or in a national forest by a person who does not own or rent any land used for that purpose should be enumerated as a farm with "None" entered in column 18. However, public lands used under a lease are to be included as a part of the farm, **but land used under a grazing permit is not to be included.**

Plantations.—See special instructions on page VII for enumerating multiple-unit operations (including plantations) in regions 2, 3, and 4.

Collectively Developed or Unit Farms.—If agricultural land is being developed and sold in small tracts to nonresidents and the original tract is farmed essentially as a unit, such development should be returned as one farm in the name of the person managing it.

Citrus Groves With Various Operations Handled Under Separate Contracts.—Citrus groves are often handled by having the various operations, such as pruning, cultivating, irrigating, spraying or dusting, harvesting, etc., performed on a contract basis. If one person performs practically all of these operations, except possibly the harvesting of the fruit, this person should be listed as the operator. If the various operations are handled separately, one person contracting to do the pruning, another the cultivating, etc., the person directing all these services is the operator. This person may be a nonresident owner or he may be a local representative of the owner.

In such cases it will often be necessary to obtain the required information from a number of different sources depending upon the local persons responsible for the various operations.

Obtain complete information from as reliable sources as possible.

Acres Owned and Acres Rented.—Acres owned and acres rented must account for all the land in the farm. Consider as owned the land which the operator or his wife holds under title, homestead law, purchase contract, or as one of the heirs or as trustee of an undivided estate.

Under Supplemental Information, on the lines provided on page 12, briefly explain any unusual entries. Comment on unusual yields, acreages, values, etc.

Land Irrigated in 1944.—Consider as irrigated any land which had water supplied to it by artificial means in 1944 for agricultural purposes.

For all regions enter in column 236 the total acreage of land in each farm irrigated in 1944, including both irrigated cropland and irrigated pasture.

In regions 4, 5, 6, and 7, where a check column for irrigation is carried for the individual crops, enter a check mark (√) in the box provided for each crop which was harvested from land irrigated in 1944. If only a part of the acreage of a crop was irri-

gated, report separately, within the same block, the acreage and production of the portion irrigated and that grown on dry land, entering the nonirrigated portion directly above the irrigated portion, bracketing the two entries as a further indication that they are for the same farm. Be sure to check the irrigated portion.

CROPS HARVESTED ON THIS FARM IN 1944

Include under the various crop questions only those acreages harvested by cutting, digging, picking, etc., and by grazing or hogging off. In reporting crops which were harvested by grazing or hogging off, include only the crops which were allowed to mature, or to approach maturity, before they were grazed or hogged off. Except for orchards, do not include crops which were complete failures. Do not include as harvested any crops used solely for soil improvement or any grown solely for pasture and utilized as such.

Omitted Column Numbers.—In preparing the schedule, the more important crops grown in all regions were included and were assigned column numbers. However, in order to shorten the schedule for each region, questions for crops which are grown infrequently in a particular region were omitted. Whenever you find that a crop has been harvested for which there is not a specific inquiry on the schedule for your region, report such crop in columns 140–141, except for fruits, vegetables, and horticultural specialties which are to be reported in columns 191, 202, or 204, whichever is applicable.

Unit of Measure.—Frequently the unit of measure common to your locality will not be that called for on the schedule. In such cases, convert to the unit specified and, under Supplemental Information, name and describe the unit commonly used in the locality, giving its approximate cubic content or net weight and the conversion factor used. The conversion tables on pages V and VI may be helpful, in some instances, in making the conversion to the unit called for on the schedule.

Two or More Crops From Same Land.—Where two or more crops were harvested from the same land in 1944. be sure to report all crops.

(1) **Succession Crops.**—Where two or more crops were harvested from the same land in 1944 but were grown in succession, i. e., one crop planted and harvested, then another crop planted and harvested. the acreage should be reported under the inquiry for each crop.

(2) **Interplanted Crops.**—Where a row crop is planted at approximately normal planting distance and some other crop is grown between or in the rows of the first crop, the acreage should be reported under the inquiry for the row crop and also under the inquiry for the interplanted crop.

(3) **Mixed Crops.**—As noted on the schedule, where flax and wheat are grown together, one-half of the acreage is to be reported under each crop. The schedule provides for reporting other mixed grains in columns 57–58 and for reporting a mixture of clover and timothy hay in columns 106–107. A mixture of grains for hay should be reported in columns 110–111. Crops grown and **harvested as a mixture**, for which the schedule makes no provision, should be reported under the crop which predominates. A notation should be made under Supplemental Information, such as "mixed with ....," giving the name of the secondary crop.

(4) **Contour Farming.**—In contour farming where different crops are alternated on different levels, the acreage should be fairly allocated among the several crops. Do not confuse with interplanting.

(5) **Strip Cropping.**—Allocate the acreage among the several crops as for contour farming.

LIVESTOCK, JANUARY 1, 1945, AND LIVESTOCK PRODUCTS, 1944

In the enumeration of livestock, include all animals and poultry on the farm or ranch on January 1, 1945, whether or not all are owned by the operator, but do not include any belonging to the operator and being kept on another farm or ranch. Also include livestock belonging to the farm or ranch but grazing in national forests or on open range.

In areas where livestock are grazed in national forests or on open range, secure the report from the ranch operator for all his herds or bands and not from the herder who happens to be in charge of a particular herd or band. Every effort should be made to enumerate all livestock for which the ranch headquarters are in your enumeration district. To insure complete enumeration, any information concerning the grazing of livestock in national forests or on open range in your district, when the ranch headquarters are located elsewhere, should be given to your supervisor along with the location of the headquarters, the name and address of the owner, and any other pertinent information, such as the location of the animals during the four main seasons of the year.

Livestock sold and livestock production in 1944 should be reported for the farm even though some of these items may represent operations for someone else or under some arrangement whereby the title may be held wholly or partly by other persons. For example, broilers raised "on shares" or on a "per-head basis" are to be reported for the farm on which they were produced and not for the hatchery or feed dealer for whom they were produced.

Livestock Dealers.—Animals purchased for immediate resale and not for feeding or grazing to increase their value should not be reported under Livestock Sold Alive in 1944. Such operations are not considered "farming" and are largely duplications of sales reported for other farms. However, if the place qualifies in other respects as a farm, a report should be made of the farming operations and of the livestock on hand.

VALUE OF FARM PRODUCTS

In reporting the value of farm products sold or traded in columns 142, 193, 203, 204, 221, 227, 232, and 234, the value of vegetables for farm household use in column 194, and the value of all farm products used by households on the farm in column 235, observe the following rules:

(1) There must be an entry of **either dollars or "None"** in every one of these columns for every farm.

(2) "None" is to be entered for the value of farm products sold or traded whenever the farm did not produce any of the products; or, if such products were produced, none were or are to be sold or traded. "None" is to be entered for value of vegetables grown for farm household use, and for value of farm products used by farm households only if **none** of these products of the farm in 1944 were or are to be used by households on that farm.

(3) The value-of-products questions apply to the farm and not to the farm operator. Hence, for tenants and croppers, **include the value of the landlord's share.** That is, any products of the farm, which were or are to be paid as rent, are to be considered as sold. However, if the landlord's share of the products was purchased by the tenant and used on the farm where produced, such products should not be considered as sold.

(4) Since the value-of-products questions apply to the farm and not to the farm operator, **do not include** the value of any products which were received by the farm operator as rent from land rented to others.

(5) Report gross value of sales without deductions for expenses of any kind.

(6) Include the value of **byproducts** sold or traded, such as cottonseed, straw, skimmed milk, buttermilk, hides, poultry manure, etc.

(7) For columns 142, 193, and 203, crops harvested in 1944, which will be sold after the enumeration date, should be valued on the basis of market quotations at the time of the enumeration.

(8) **Do not include** the value of crops used for seed or fed to livestock on the farm where produced.

(9) **Do not include** government payments, such as soil-conservation and dairy-feed payments.

(10) Note that the values reported in column 194 must always be included in column 235. In no other instance are any value-of-products figures to be included in more than one column.

(11) The value of farm products used by households on the farm where produced (col. 235) frequently represents a considerable part of the total value of farm products. A special effort should be made to avoid underestimating the value of such consumption. Products used by farm households should be valued at local farm prices.

(12) Products of institutional farms, consumed by inmates of the institution, should be considered as sold, and the values of such products should be reported in columns 142, 193, 203, 204, 221, 227, 232, and 234. For institutional farms, enter in columns 194 and 235 the value of products consumed by households of full-time farm employees (other than inmates) living on the farm.

(13) Many farmers do not keep records and will not be able to answer the value-of-products questions accurately. Nevertheless, they should be able to give an approximation. The enumerator should secure an estimate in every case where exact figures are not available, and should enter any necessary explanations under Supplemental Information on page 12.

(Reduced facsimile)

CONVERSION TABLES

Caution.—Many of the weights and ratios given are approximations and should be used only in the absence of more accurate figures. Weights per unit for many commodities vary greatly depending upon variety, season, locality, etc.; therefore, those given may not be accurate for your community and may not be in agreement with the legal requirements in your State. However, the tables and conversion factors which follow may assist in making calculations when records are not available in terms of units given on the schedule.

The paragraph numbers refer to the column (or columns) to which the conversion relates.

CROPS

EQUIVALENT BUSHELS PER CWT. AND PER TON FOR COMMODITIES OF VARIOUS WEIGHTS

Weight Per Bushel (pounds)	Number of Bushels	
	Per 100 Pounds	Per Ton
14	7	140
24	4⅙	83⅓
32	3⅛	62½
45	2⅑	44½
48	2⅓	41⅔
50	2	40
56	1⅞	35⅞
60	1⅔	33⅓
70	1⅐	28⅝

CORN AND SORGHUMS

51.—**Corn** (bushels):
Shelled corn, 56 pounds.
Ear corn, 70 pounds, or 2 bushel baskets level or 1½ heaped.
Corn with husks, 6 bushel baskets level or 4 heaped.
For converting barrels to bushels, multiply by local equivalent in bushels of ear corn (not baskets).
Corn in crib: 1 bushel of ear corn (70 pounds) occupies about 2½ cubic feet. Bushels of corn in crib equal length by width by average depth by ⅘.

54.—**Grain Sorghums** (bushel), 56 pounds. 1 ton of heads=25 bushels.

56.—**Sorghum Hay** (tons). Convert green to dry weight by dividing by 3.

SMALL GRAINS

Grain in bin: 1 bushel of grain occupies about 1¼ cubic feet. Bushels of grain in a bin equal length by width by average depth by ⅘.

58.—**Mixed Grains** (bushels). Use weights based on approximate proportion of each grain in the mixture.

60.—**Oats for Grain** (bushels), 32 pounds.

63.—**Barley** (bushels), 48 pounds.

65.—**Rye** (bushels), 56 pounds.

67.—**Flax** (bushels), 56 pounds.

69, 71, 73.—**Wheat** (bushels), 60 pounds.

75.—**Rice**:
1 bushel weighs 45 pounds.
1 barrel, 162 pounds.
1 barrel, about 3⅗ bushels.
1 bag (Southern States), 162 to 200 pounds or 1 to 1¼ barrel.

ANNUAL LEGUMES

81.—**Soybeans and Mungbeans** (bushels), 60 pounds.

Dry Field and Seed Beans:

85.—**Lima** (dry), 1 bushel=56 pounds.

119.—**Vetch Seed**, 1 bushel=60 pounds.

83, 87.—**Other Beans and Lentils** (dry), 1 bushel=60 pounds.

90.—**Cowpeas** (bushels), 60 pounds.

94, 96.—**Dry Field and Seed Peas**, 1 bushel=60 pounds.

100.—**Peanuts** (pounds). 1 bushel of unshelled: Virginia, 22 pounds; runners, 28 pounds; and Spanish, 30 pounds.

HAY

92, 101–165.—Report tons of cured hay; 3 tons green weight equal approximately 1 ton cured hay.

CLOVER AND GRASS SEEDS

117.—**Lespedeza Seed** (pounds). In some States the weight is 25 pounds per bushel; in others common seed will weight 28 pounds; Kobe seed, 30 pounds; and Korean seed as high as 44 pounds.

121.—**Alfalfa Seed** (bushels), 60 pounds.

123.—**Clover Seed** (bushels), 60 pounds.

MISCELLANEOUS CROPS

125.—**Irish Potatoes**:
1 bushel=60 pounds.
1 barrel=2⅔ bushels.

127.—**Cotton** (running square bales):
2 round bales=1 square bale.
1,500-pound seed cotton=approximately 1 square bale.

129.—**Sweetpotatoes.** 1 bushel weighs about 55 pounds.

131.—**Hops.** 1 bale=about 200 pounds.

SMALL FRUITS

1 quart weighs about 1½ pound.
1 gallon=4 quarts.
2 pints=1 quart.
Convert crates to quarts on basis of capacity in quarts or pints.

TREE FRUITS, NUTS, AND GRAPES

154.—**Apples**:
1 bushel weighs about 48 pounds.
1 western box is considered the equivalent of 1 bushel.
1 pound dried fruit is equivalent to about 7 pounds of fresh fruit.

156.—**Cherries**:
1 bushel, unstemmed=about 56 pounds.
1 quart, unstemmed=1¾ pound.
1 bushel, stemmed=about 64 pounds.
1 quart, stemmed=about 2 pounds.

158.—**Peaches**:
1 bushel=about 48 pounds.
1 western crate=20 pounds.
1 pound dried peaches is equivalent to about: 7 pounds fresh fruit for clings, or 6½ pounds fresh fruit for freestones.

160.—**Pears**:
1 bushel=about 50 pounds.
1 box, western=46 pounds.
1 crate, western (4½ by 16 by 16½)=22 pounds.
1 pound dried fruit is equivalent to about 5½ pounds fresh fruit.

162.—**Plums and Prunes**:
1 bushel=about 56 pounds.
1 box, western=20 pounds.
1 box, N. W. suitcase=16 pounds.
1 pound dried fruit is equivalent to about 2½ pounds fresh fruit for California, and 3½ pounds fresh fruit for Washington and Oregon.

223–225.—**Milk and Cream:**

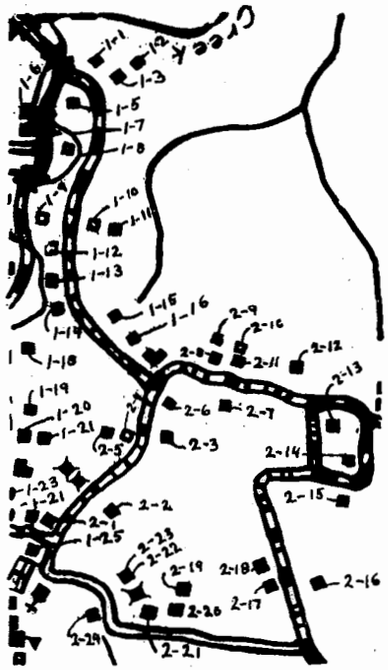
1 gallon milk=8.6 pounds.
1 hundredweight milk=11.6 gallons.
Average cream, 2 to 2½ pounds butterfat per gallon of cream.
Double or whipping cream, about 3 to 3½ pounds per gallon of cream.

ILLUSTRATIVE EXAMPLE OF ENUMERATOR'S MAP PROPERLY MARKED FOR IDENTIFICATION

An enlarged map (or set of maps) will be furnished each enumerator. The enumeration district will be delineated on the map. You will be expected to identify on the map every farm you enumerate. Alongside the dwelling symbol on the map, mark the book number and the line number on which is recorded the report of each farm visited. Draw a square in the proper location for each farm you may record which is not shown on the map. Mark a cross through symbols on the map which are found to represent abandoned or idle farms, or which, for any reason, do not represent a farm. There will be instances when you may enumerate more than one farm operated from a single dwelling unit. Show the book number and line number for each such report.

The illustrative example on the right represents a small section of an enumerator's map. The map has been properly marked so that enumerated farms may be identified.

A properly marked map is an important check upon the completeness of the enumeration, and is required from each enumerator.



(Reduced facsimile)

INSTRUCTIONS FOR ENUMERATION OF MULTIPLE-UNIT OPERATIONS (INCLUDING PLANTATIONS)

Definition of Multiple-Unit Operations.—A multiple-unit operation is one in which two or more subunits are handled as a single-farm enterprise. It usually involves supervision of cropper or tenant operations and central control of such items as sale of products, work power, machinery and equipment, crop rotation, or purchase of supplies. A multiple-unit operation consists of two or more subunits, one of which must be a cropper or tenant operation under the close supervision of the multiple-unit operator. One of the subunits may consist of land worked by the operator, his family, or wage hands. Plantations should usually be reported as multiple-unit operations.

Plan of Enumeration.—For multiple-unit operations, including plantations, information is desired for the entire enterprise as a unit, also for each cropper and tenant now on the multiple unit and for the "home farm." This will permit the tabulation of multiple units as operating units as well as the tabulation of the operations of each cropper or tenant, and of the "home farm." Obtaining separate totals for the multiple unit as a whole and for each cropper, tenant, and "home farm" will also help to prevent omissions and duplications.

In regions 2, 3, and 4, which include the plantation areas, the schedule is set up to provide for this plan of enumeration. Each schedule contains 20 numbered lines and, at the bottom, 4 lettered lines. The numbered lines are to be used for enumerating farms other than multiple-unit operations, also for enumerating the subunits (each cropper, tenant, and "home farm") of multiple-unit operations. The lettered lines are to be used for enumerating the over-all operations of the multiple units.

The information is required not only for those operations which concern the multiple-unit operator, but also for operations and items which pertain only to the individual croppers and tenants. The multiple-unit operator may have little or incomplete information concerning these operations of croppers and tenants; therefore, it will always be necessary to visit both the multiple-unit operator and each cropper and tenant. Always visit the multiple-unit operator first.

Identifying Multiple-Unit Operations.—Generally no difficulty will be encountered in recognizing multiple-unit operations. Your supervisor may be able to provide you with a list of multiple-unit operators to assist you in identifying such operations in your district. However, these lists may not be complete and some of the farms represented on the lists may no longer be operated as multiple units. Therefore, 4 questions are provided on the schedule to insure that no multiple-unit operations will be overlooked. These questions appear in columns a, b, c, and d of page 1. The questions in columns a and b will determine whether or not a respondent is a multiple-unit operator, while questions in columns c and d will determine whether a tenant operation might represent part of a multiple unit. Until you have asked these questions you will not know whether to record the replies in one of the lettered lines at the bottom of the schedule, in one of the numbered lines, or whether you may need to terminate your visit and locate the multiple-unit operator before continuing with the enumeration. Therefore, these questions should be asked before making any entries on the schedule.

Having determined that a respondent is a farm operator, ask whether he has any croppers or tenants (col. a). If the answer is "yes," ask whether any of these croppers are a part of a multiple-unit operation (col. b) defining such an operation. If the answers for both columns a and b are "yes," the respondent is a multiple-unit operator and you should obtain a multiple-unit report as explained in these instructions. If the answer for column a is "yes" and the answer for column b is "no," the respondent is not a multiple-unit operator. In this case obtain from him a report covering only the land which he worked either with his own labor, or with the assistance of members of his household or wage hands. Do not include in his report any land which he rents to others. Use a numbered line for this report.

If the respondent has no croppers or tenants ("no" for col. a), ask if he rents land from others (col. c). If the answer is "no," then no multiple unit is involved and you may proceed to enumerate the farm, using a numbered line for the report. If the answer is "yes," ask if the person from whom he rents operates other farm land in the vicinity, either through his own labor, that of his family, or wage hands, or through croppers or tenants (col. d). If the answers for both columns c and d are "yes," then there is considerable possibility that a multiple-unit operation is involved. In such case, you should find out from whom the land is rented, terminate your visit, and contact the landlord or his local representative.

Recording the Information.—In enumerating a multiple-unit operation, keep in mind that complete information is required not only for the multiple unit as a whole but also for each cropper or tenant on the multiple unit on January 1, 1945, and the "home farm." Enter in column 1, on one of the lettered lines in the lower part of the schedule, the names of the multiple-unit operator. Obtain from him the names of the croppers and tenants on the

multiple unit on January 1, 1945, and list these in the upper part of the schedule, one name on each line. If any of the land in the multiple unit is not assigned croppers and tenants, consider such acreage as the "home farm" and list the name of the multiple-unit operator in the upper portion of the schedule also. You will use the "home farm" line for reporting any items not definitely assigned specific croppers or tenants, and those items which cannot be readily distributed.

When listing the cropper, tenant, and "home farm" operations for a given multiple unit, you should begin on a line immediately below one of the heavy rules (lines 1, 6, 11, and 16) even though this may mean leaving some lines blank. Also leave blank any lines below the last subunit listed (usually the "home farm") and the next heavy rule.

It is essential that the reports for all croppers and tenants of a multiple unit and the report for the "home farm" be entered on consecutive lines in order properly to identify such operations in their relation to the multiple unit of which they are a part and to facilitate adding the data to obtain or check the totals for the multiple unit as a whole.

To identify the subunits comprising a multiple unit you should bracket, to the left of the names, all the numbered lines representing the reports for a multiple-unit operation and enter, opposite the bracket, the letter corresponding to the line used for reporting the over-all operations of the multiple unit. See illustration on preceding page.

If possible, list in one book all the subunits comprising a multiple-unit operation. If too few lines are left in a book for enumerating an entire plantation, start a new book. If the multiple unit consists of more than 20 subunits, it will be necessary to use 2 or more books. When 2 or more books are required, report the over-all operations of the multiple unit in the first book only. In each book identify the plantation by carrying, opposite the bracketed names, the book number, the line designation (letter), and the word "part." The word "part" will indicate that the entries represent only a part of the subunits included in the multiple unit.

Information From Multiple-Unit Operator.—Obtain from the multiple-unit operator information for the multiple unit as a whole for all items which are of direct concern to him. He should be able to provide you with complete information for such items as total acreage, value of land and buildings, mortgage debt on land in the multiple unit which he owns, and acreage and production of principal crops.

As a general rule, for items such as crops which may be grown also by croppers or tenants on their own account, and for livestock, poultry, and machinery and equipment, obtain from the multiple-unit operator information for only those portions which are of direct concern to him. It will be necessary to visit the croppers or tenants to secure information for crops grown on the multiple unit strictly on their own account and for livestock, poultry, and machinery and equipment not provided them by the multiple-unit operator.

In recording the figures for items which require information from both the multiple-unit operator and the croppers and tenants, enter, in the lower half of the spaces provided, the figures which represent items in which the multiple-unit operator has an interest. Leave the upper half for recording the information for items in which the multiple-unit operator has no direct interest. For convenience the spaces provided for many of these items are divided by a broken rule.

For a few of the items, such as numbers of persons living in the occupied dwellings on the multiple unit and land from which crops were harvested, etc., totals for the multiple unit as a whole should not be entered at this time but should be obtained by addition after visiting the croppers and tenants.

After obtaining from the multiple-unit operator figures for the multiple unit as a whole, with the exceptions noted above, also obtain from him, for each cropper and tenant, the acreage assigned for 1945; the value of the land and buildings; the acreage and production of principal crops; livestock and machinery provided by him and definitely assigned to specific croppers or tenants; and any other items concerning which the multiple-unit operator has definite information.

In recording for each cropper or tenant the total acreage assigned and the crops harvested in 1944, it will be permissible to enter this information on the basis of the 1944 operations as outlined below:

(1) For a 1945 cropper or tenant who was on the multiple unit in 1944, you may report the land rented (col. 14), the total acreage in farm (col. 18), the land use in 1944 (cols. 19–26), and the acreages and production of crops harvested in 1944 on the basis of his 1944 operations.

(2) For each cropper or tenant who replaces a 1944 cropper or tenant on the multiple unit, you may report the above items on the basis of the 1944 tenant who was replaced.

(3) If a 1945 cropper or tenant does not replace a 1944 cropper or tenant, report these items on the basis of the land assigned in 1945. This may mean the reporting for such cropper or tenant crops which were harvested on the "home farm" in 1944.

(4) If a 1944 cropper or tenant has moved off the multiple unit, or is now a wage hand, **and he has not been replaced** by a new cropper or tenant, include the land assigned him in1944 and the operations thereon in the report for the "home farm."

In all cases the totals of these items, as reported for the croppers and tenants, plus those reported for the "home farm" must equal the totals reported for the multiple unit as a whole. Remember that the report for the "home farm" includes items not reported for specific croppers or tenants and may not conform exactly to what is generally considered the "home farm."

In entering the information for each cropper and tenant for items for which additional information must be obtained from them, record those portions which are of direct concern to the multiple-unit operator in the lower half of the spaces provided. You will use the upper half of these spaces for recording the additional information representing operations of croppers and tenants in which the multiple-unit operator has no direct interest.

If the cropper or tenant lives on the multiple unit, the value of the dwelling should be included with the value of the land and buildings allotted the cropper or tenant, even though the dwelling may not be on the particular plot assigned him.

Also enter figures for the "home farm." Remember that the "home farm" should include not only what is ordinarily considered as the "home farm," but all items not definitely assigned specific croppers or tenants on this schedule. In reporting the amount of mortgage debt for the "home farm," allocate, on a value basis, a proportionate share of the total mortgage.

Before leaving the multiple-unit operator, add the entries for the items reported for the croppers and tenants and the "home farm" and check the totals with the corresponding entries for the multiple unit as a whole. In checking the entries for the subunits to the total, keep in mind that the acres and value of land and buildings owned and rented as reported for each subunit should check to the sum of the acres and value of the owned and rented land for the multiple unit as a whole, although the separate columns cannot be expected to check except where all the land in the multiple unit is rented from others. Also see instructions for enumeration of value of products for multiple-unit operations.

Information From Croppers and Tenants.—Visit each cropper and tenant in order to obtain information regarding his family, crops, livestock, or other items which were not reported by the multiple-unit operator, paying particular attention to minor items which would otherwise be omitted, such as sweetpotatoes, cane patches, gardens, pigs, chickens, and the like. Report the residence of the cropper or tenant as on the farm operated if he resides on the multiple unit. As previously mentioned, the dwelling, if on the multiple unit, is to be considered a part of the cropper's or tenant's "farm," even though it may not be located on the particular tract assigned him. For the year in which the operator began to operate this farm, report the year the cropper or tenant began as cropper or tenant on this multiple unit. Report, as work off this farm, work for wages on other parts of the multiple unit.

If new croppers or tenants replace croppers or tenants who were on the multiple unit in 1944, obtain from the multiple-unit operator information for crops grown by the replaced cropper or tenant on his own account rather than depend upon the new cropper or tenant for this information.

If a cropper or tenant operates land in addition to that in the multiple unit, report such operations on a separate numbered line and not as a part of the multiple unit and explain under Supplemental Information on page 12.

Revisit Multiple-Unit Operator.—After completing the enumeration of all croppers and tenants, add the entries for the croppers, tenants, and "home farm," entering the multiple-unit totals where they have not already been entered and checking those which have been entered. Before leaving the multiple unit, revisit the multiple-unit operator so that he may review these totals with you and determine whether or not there have been any omissions or duplications. Be sure that you have obtained complete information for the multiple unit as a whole, also for each cropper, tenant, and the "home farm." There should be entries for all lines in all columns which are applicable.

Value of Farm Products.—Instructions 1 to 13, inclusive, on value of farm products should be followed in filling out the value-of-products questions for multiple-unit operations as a whole, as well as in filling out these value questions for each cropper, tenant, and "home farm" of the multiple unit. This will sometimes result, and properly so, in a report of value of products sold or traded for the multiple unit as a whole which is less than the sum of the value of products sold or traded reported for the croppers, tenants, and "home farm." This will occur if the share rent, paid by the croppers and tenants, includes feed crops, such as corn and hay, or other products which are not sold but are used elsewhere on the multiple unit. Thus, the reports for each cropper and tenant **should include** the value of the multiple-unit operator's share of the products (Instruction 3). In the report for the "home farm," the value of the multiple-unit operator's share of the croppers' and tenants' production should **not be included** (Instruction 4.) In the report for the multiple unit as a whole, the value of the multiple-unit operator's share of the croppers' and tenants' production is not to be included, if it is not sold but is used on the multiple unit where produced (Instruction 8).

Enumeration of Multiple Units Extending Across Boundaries of Enumeration Districts.—If a multiple unit lies in two or more enumeration districts the entire multiple unit (including each of its subunits) should be enumerated where the "home farm" or the multiple-unit headquarters is located. For such cross-line multiple units, be sure to report, for the multiple unit as a whole and also for each subunit, the location and acreage of land located in other minor civil divisions, using the columns provided on page 12 (see Instructions on page II, Farms Extending Across Boundaries of Enumeration Districts).

The enumerators in each district should advise their supervisor of such multiple units in order that he may work out plans whereby omissions and duplications may be prevented. Unless the enumerators of the two or more districts work in close harmony, there will be considerable danger of omitting the multiple unit or some of its subunits or of enumerating them in more than one district. Sometimes farms which are not a part of a multiple unit will be intermingled with some of the subunits of a multiple-unit operation. If the multiple unit is enumerated in another district, be sure that these farms are not overlooked.

MULTIPLE-UNIT OPERATIONS (see Instructions, page VII):									
D									D
C									C
B									B
A									A

Questions a, b, c, and d should be asked before any entries are made on the schedule.

Use numbered lines for enumerating farms other than multiple-unit operations and for each cropper, tenant, and "home farm" of a multiple-unit operation.

Use lettered lines for enumerating multiple-unit operations as a whole.

a and b If answers to both questions a and b are "Yes," a multiple-unit operation is involved. Enumerate the multiple unit on one of the lettered lines and each cropper and tenant operation and the "home farm" on numbered lines. See instructions, page VII, for enumerating multiple-unit operations.

If "Yes" for column a and "No" for column b, then no multiple unit is involved. Use a numbered line for enumerating the farm.

c and d If answers to both questions c and d are "Yes," there is considerable possibility that a multiple-unit operation is involved. In such case the enumerator should visit the person from whom the land is rented and from questions a and b determine if the tenants' operations are parts of a multiple unit.

If "Yes" for column c and "No" for column d, then no multiple unit is involved. Use a numbered line for enumerating the farm.

1 The farm operator is the person who works the farm, performing the labor himself, or directly supervising it. When land is rented or cropped, the tenant, renter, or cropper is the operator even though the owner may exercise some supervision. If the farming operations are performed by a caretaker who merely carries out the instructions of his employer, report the employer as operator. However, report as operator a paid manager responsible for the farming operations. If the farm is operated for a corporation or institution, report as operator the superintendent, manager, supervisor, or other person directly responsible for the farming operations.

MULTIPLE-UNIT OPERATIONS (see instructions on page VII):

D																							D
C																							C
B																							B
A																							A

5 If farm is located in E. D. Segment, enter segment number shown on E. D. map. See instructions on supplemental schedule.

6 W for white, O for other. Include Mexicans with "white." Include Negroes, Indians, Chinese, Japanese, and other nonwhite races with "other."

9 In case of operator who has returned to a farm which he had previously operated, report year in which he returned to begin operations anew.

10 Report nonfarm work and work on other farms for pay. Include work in connection with filling station, garage, store, tourist camp, or other nonfarm business conducted at this farm. **Do not include exchange work.**

12 **Do not include in this farm any land now rented to or cropped by others.**

13 and 15 Report present market value. **Do not report the assessed value unless it conforms to the market value.**

18 Include all outlying or separate fields, meadows, pastures, woodland, or waste lands.

19 Report acres in this farm from which one or more crops were cut, dug, picked, or otherwise harvested in 1944; all land in orchards and small fruits (bearing or nonbearing); and acreage in nurseries and greenhouses. **Do not count same land twice, even though two crops were harvested from it. Suggestion to Enumerator:** It may be helpful to fill in the information for columns 49 to 204 before proceeding with columns 19 to 26.

20 Land on which all crops (except orchards) were destroyed by drought, hail, flood, insects, disease, etc.; also acreage not harvested on account of labor shortage, poor stand, etc. **Do not report as failure any crops which were grazed, hogged off, or otherwise harvested for any purpose, or any land replanted to a crop that was harvested.**

21 **Do not report here cropland pastured; report it in column 22.**

22 **Do not report here land from which crops were harvested; report in column 19.**

23 and 25 Include as woodland all farm wood lots or timber tracts, natural or planted, and cut-over land with young growth which has or will have value as wood or timber. **Do not report here chaparral and woody shrubs; report such acreage in column 24 or 26.**

(Reduced facsimile)

SCHEDULE

[In reporting values enter dollars only; omit cents. In reporting value of products if none, enter "None." Do not use ditto marks. Report all numerical data in whole numbers unless a separate column is provided for fractions. Report fractions in tenths $\frac{1}{2}=\frac{5}{10}$, $\frac{1}{3}=\frac{3}{10}$, $\frac{2}{3}=\frac{7}{10}$, $\frac{1}{4}=\frac{2}{10}$, $\frac{3}{4}=\frac{8}{10}$, $\frac{1}{8}=\frac{1}{10}$, $\frac{3}{8}=\frac{4}{10}$, $\frac{5}{8}=\frac{6}{10}$, $\frac{7}{8}=\frac{9}{10}$.]

A																							A

27–28 **Omit dwellings rented to others and tourist camps or institutional buildings.**

29–32 **Omit inmates of institutions.**

33–35 Report number working at farm work, including farm chores; **omit housework and contract construction work. Omit unpaid inmates of institutions.** If partnership, report in column 34 partners other than one listed as operator.

36 **Omit expenditures for machine hire and for any labor included in cost of such machine hire; and expenditures for housework and for contract construction work.**

41 Or if no farm dwelling, electric distribution line within ¼ mile of farm buildings? If no farm buildings, within ¼ mile of main farm entrance? Main farm entrance is point where operator usually turns off public road (or off private road giving access to farm).

42 If main farm entrance is on all-weather road, report "0" miles; if not, give distance along highway to nearest road that is passable at all times and all seasons. Hard-surfaced roads occasionally snow-bound or flooded are considered "all-weather" roads.

43–44 Report only those used in the operation of the farm. **Do not include trailers.** If used or owned jointly, report for farm where usually kept. Report truck-trailer combinations (road tractor with trailer) under motortrucks, counting only number of power units.

45 Report present market value. If machinery is used or owned jointly, report only for farm where usually kept. Include all farm implements and farm machinery **(except automobiles)**, such as tractors; trucks; tools; wagons; harnesses; dairy equipme threshing machines; combines; etc. **Do not include machinery and equipment used primarily for nonfarm purposes. Report permanently installed irrigation and drainage equipment under value of land and buildings.**

46 Include any owned by hired help living on farm.

48 If mortgage covers larger acreage than reported in column 12, prorate share of mortgage on value basis.

49 Corn for grain, silage, or fodder; hogged off or grazed. If grown with other crops, report total acreage of mixture. **Do not report sweet corn and "Egyptian corn," kafir, milo, etc., here; see columns 198 and 52–54.**

50 Whether snapped, husked, or machine-harvested for grain.

51 56 pounds shelled corn or 70 pounds ear corn=1 bushel.

52 Sorghums for grain, hay or dry forage, silage, and hogged off or grazed. **Do not include sorghums for sirup. Report in columns 140–141.**

53–54 Either threshed or combined for feeding in the head after cutting from stalk. 1 ton heads=25 bushels grain.

57–58 Wheat and oats, wheat and barley, wheat and rye, oats and barley, oats and peas, etc. Underscore or name here mixtures reported on these farms. .....
See instructions for columns 66–67 for reporting wheat and flax mixtures.

61 Oats cut for grain when ripe or nearly ripe (milk stage or later), either tied in bundles or loose, for feeding unthreshed. **Do not report oats cut prior to milk stage here; report in columns 110–111.**

(Reduced facsimile)

66–67 Where flax and wheat were grown together, report one-half of the acreage under each crop. Where flax is grown for fiber and threshed, report the acreage and the flax seed produced. Report in columns 140–141 the acreage and value of fiber flax grown.

75 Approximately 3.6 bushels=1 barrel.

78–79 Include mung beans. Report total acreage harvested for beans, hay, or silage; hogged off or grazed. If harvested for beans, also report in column 81; if cut for hay, also report in columns 91-92.

82–83 Include navy, pea bean, Great Northern, kidney, lima, pinto, etc.

88–89 Total acreage harvested for peas, hay, or silage; hogged off or grazed. If harvested for peas, also report in column 90; if cut for hay also report in columns 91–92.

91–92 Also include this acreage in column 78, 79, 88, or 89. **Omit byproduct straw (stalks and leaves) of soybeans or cowpeas which have been threshed.**

97 Total acreage picked or threshed, used for hay; hogged off or grazed. If harvested for nuts, also report in columns 98–100; if the vines were saved for hay, also report tons in column 101.

(Reduced facsimile)

121 Country or thresher run.

127 If sold in seed, estimate square bales of lint. Approximately 1,500 pounds seed cotton=1 bale. Convert round bales to square (2 round bales=1 square).

138–139 Indicate the unit used for each book by placing a (✓) mark in one of the boxes at the top of column 139. Sugarcane harvested for sugar or for sale to mills should be reported in tons: Sugarcane for sirup should be reported in gallons.

140–141 Some of the crops to be included are listed below with an identification number. Each crop reported should be identified by entering its number in the column headed "Iden. No."

Crop	Iden. No.	Crop	Iden. No.
Broomcorn	1	Sunflower seed	9
Buckwheat	2	Sweetclover seed	10
Dry field and seed peas other than cowpeas	3	Sweet sorghums for sirup	11
Emmer and spelt	4	Vetch seed	12
Popcorn	5	Velvet beans for beans	13
Red clover seed	6		14
Sudan grass seed	7		15
Sugar beet seed	8		16

Use numbers 14, 15, and 16 for identifying any unusual crops not listed in these instructions and for reporting such crops as root and grain crops hogged off or grazed (except corn, sorghums, cowpeas, soybeans, and peanuts) and silage crops (except corn, sorghums, cowpeas, and soybeans).

If more than one such crop for an individual farm, report the combined acreage and value in columns 140-141 and give the name, acreage, and value of each crop under Supplemental Information, page 12.

In column 141 report the actual or estimated **value of production,** whether it has been or is to be sold, traded, or used on the farm.

Do not include crops covered in columns 49 to 139 or fruits, vegetables, and horticultural specialties, columns 143 to 204.

142 If none, enter "None." Include value of byproducts sold or traded, such as cottonseed and straw. For tenants and croppers include the value of the landlord's share.

Do not include value of field crops received by the farm operator as rent from land rented to others. Do not include value of crops fed to livestock, used for seed, or consumed by households on farm where produced.

176 From the bloom of 1943.

178 From the bloom of 1943.

180 From the bloom of 1943.

191 Report blueberries, boysenberries, currants, gooseberries, apricots, figs, lemons, limes, nectarines, Japanese persimmons, quinces, almonds, English or Persian walnuts. Underscore or name here kinds reported on these farms.

192 Report all land in bearing and nonbearing fruit orchards, vineyards, and planted nut trees. **Do not include land planted in small fruits (berries) and nurseries.**

193 If none, enter "None." Report gross value of sales without deductions for expenses of any kind. Include small fruits as well as tree fruits, nuts, and grapes. **Do not include here value of nursery products sold or traded; report in column 204. Do not include value of fruits and nuts used by households or fed to livestock on farm where produced.**

194 If none, enter "None." Vegetables grown on this farm in 1944 for consumption by operator's family and all households on farm. **Do not report Irish and sweet potatoes here; report in columns 124 and 128.**

(Reduced facsimile)

[This inquiry is conducted under authority contained in section 16 of the Act of Congress, approved June 18, 1929. During the war emergency your census returns are accorded confidential treatment subject to existing law.]

10 R4

VEGETABLES HARVESTED IN 1944 FOR SALE (NOT FOR HOME USE)
(Include vegetables sold to canneries. Where a crop was harvested following another on the same land during year, report acreage for each crop)

201 **Do not report green cowpeas (crowder, blackeyes, etc.) or dry peas here; see columns 202 and 140–141.**

202 **Do not report Irish and sweet potatoes here; report in columns 124 and 128.** Report asparagus, green lima beans, cantaloups, carrots, celery, cucumbers, eggplant, lettuce, dry onions, sweet peppers, spinach, watermelons, etc. Underscore or name here kinds reported on these farms.....

203 If none, enter "None." Report gross value of sales without deductions for expenses of any kind.

Do not include here value of Irish and sweet potatoes sold or traded, or value of vegetables used by households on farm. Report the former in column 142, the latter in both columns 194 and 235.

204 If none, enter "None." Include value of sales in 1944 of —

Crops grown under glass (flowers, plants, and vegetables) and propagated mushrooms.

Nursery products (trees, shrubs, vines, ornamentals, etc.).

Flower and vegetable seeds, bulbs, and flowers and plants **grown in the open.**

205 Mules and mule colts of all ages, both male and female.

206 Horses and colts of all kinds and ages, both male and female.

207 Cattle and calves of all ages, including calves, bulls, steers, and young heifers, as well as the cows and heifers 2 years old and over reported in column 208.

209 Hogs and pigs of all kinds and ages, including the sows and gilts reported in column 210.

210 Sows and gilts that farrowed since December 1, 1944, or to farrow before June 1, 1945.

211 Goats and kids of all ages.

212 Sheep and lambs of all kinds and ages, including the ewes reported in column 213.

213 **Do not include 1944 fall lambs.**

(Reduced facsimile)

SCHEDULE

[In reporting values enter dollars only; omit cents. In reporting value of products if none, enter "None." Do not use ditto marks. Report all numerical data in whole numbers unless a separate column is provided for fractions. Report fractions in tenths $\frac{1}{2}=\frac{5}{10}$, $\frac{1}{5}=\frac{3}{10}$, $\frac{2}{3}=\frac{7}{10}$, $\frac{1}{4}=\frac{2}{10}$, $\frac{3}{4}=\frac{8}{10}$, $\frac{1}{8}=\frac{1}{10}$, $\frac{3}{8}=\frac{4}{10}$, $\frac{5}{8}=\frac{6}{10}$, $\frac{7}{8}=\frac{9}{10}$.]

MULTIPLE-UNIT OPERATIONS (see instructions on page VII):

D																							D
C																							C
B																							B
A																							A

215–217 Report animals sold alive from this farm whether produced on this farm or purchased from others. See instructions on page IV regarding livestock dealers.

218–220 Report animals butchered for use on this farm or for sale as dressed meat from this farm.

221 If none, enter "None." Include value of sales of horses and mules, wool, goats, mohair, goat milk, meat, fur animals in captivity and pelts, bees, honey, etc., as well as value of sales for columns 215-217. **Do not include here value of sales of dairy products or poultry and poultry products. Report the former in column 227, the latter in column 232.**

222 Include cows and heifers of all kinds milked during all or any part of 1944.

223 8.6 pounds=1 gallon. Report all milk produced, whether consumed, sold, fed to stock, or otherwise disposed of.

225 Report pounds of butterfat, not pounds of cream.

227 If none, enter "None." Include value of sales of cheese, buttermilk, and skimmed milk, as well as value of sales for columns 224 226. Report gross value of sales without deductions for expenses of any kind. **Do not include value of dairy products purchased and resold.**

230 Include as raised all broilers, fryers, and roasters, as well as chickens raised for this year's flock, whether chicks were hatched on this farm or purchased as baby chicks.

232 If none, enter "None." Include value of sales of ducks, geese, guineas, pigeons, baby chicks, poults, etc., as well as value of sales of eggs, broilers, fryers, other chickens, and turkeys.

233 Hay, grain, mill feed, tankage, mixed feeds, oyster shells, etc., purchased. **Do not include expenditures for feed crops grown on this farm and purchased from landlords.**

234 If none, enter "None." Include value of sales in 1944 of firewood, fuel wood, standing timber, sawlogs, veneer logs, pulpwood, mine props, bark, charcoal, fence posts, railroad ties, poles and piling, turpentine, resin, maple sirup and sugar, etc.

235 If none, enter "None." Include value of vegetables for farm households' use (column 194), as well as value of meat, milk, cream, butter, poultry, eggs, honey, fruits, firewood, fuel wood, Irish and sweet potatoes, etc., used by households on farm where produced.

236 Include both cropland and pasture irrigated in 1944.

LIVESTOCK Include animals on farm or ranch whether belonging to the farm operator or not, also animals belonging to farm but grazing in national forests or on open range.

(Reduced facsimile)

[In reporting values enter dollars only; omit cents. In reporting value of products if none, enter "None." Do not use ditto marks. Report all numerical data in whole numbers unless a separate column is provided for fractions. Report fractions in tenths $\frac{1}{2} = \frac{5}{10}$, $\frac{1}{3} = \frac{3}{10}$, $\frac{2}{3} = \frac{7}{10}$, $\frac{1}{4} = \frac{2}{10}$, $\frac{3}{4} = \frac{8}{10}$, $\frac{1}{8} = \frac{1}{10}$, $\frac{3}{8} = \frac{4}{10}$, $\frac{5}{8} = \frac{6}{10}$, $\frac{7}{8} = \frac{9}{10}$.]

12 **SUPPLEMENTAL INFORMATION AND CERTIFICATE**

	If any part of this farm is in another Minor Civil Division, give name of the M. C. D., also class, as township, town, ward, precinct, district, beat, etc. 237	Give name of county in which the Minor Civil Division named in column 237 is located 238	How many acres of this farm are located in the Minor Civil Division named in column 237? 239	REMARKS Clarify any unusual entries in this report by adequate explanations below. Comment on unusual crops, yields, values, acreages, location and ownership of livestock, etc.:

MULTIPLE-UNIT OPERATIONS (see instructions on page VII):

D					D
C					C
B					B
A					A

Make these checks before signing the adjoining certificate:

Each line should contain the entries for one farm according to the Census definition.
The report for each farm must be complete.
There must be entries in columns 1, 8, 11, 12 or 14, 13 or 15, 18, 41, and 42.
Check each line used to make sure that you have entries of either dollars or "None" in all of the value-of-products columns (columns 142, 193, 194, 203, 204, 221, 227, 232, 234, and 235).
The entry in column 18 should equal the sum of the entries in columns 19 to 26, inclusive; also the sum of columns 12 and 14.
The sum of the acres in columns 49 to 204, after subtracting duplicated acreages, should approximately check to the entry in column 19.
If there is an entry in column 27 or 28, there should be entries in columns 37–40.
Examine carefully any infrequent reports to make sure you have not made entries in the wrong column.
Check to see that you have obtained answers to all inquiries which are applicable in your area
Check to see that both acreage and production are reported where called for.
Check to see that production is reported in the units of measure called for on the schedule.
Check production of each crop with the acreage harvested to see that the yield per acre is reasonable for your locality.
All entries should be legible.
All numerical data should be in whole numbers except where a separate column is provided for fractions. Fractions should be in tenths.
All values should be reported in dollars only, not dollars and cents.
