<sup>1</sup> 0.5 percent or less.  
<sup>2</sup> 0.05 percent or less.  
<sup>3</sup> More than 15 percent.

The 1940 figures by type of farm for all States are based on a 2-percent sample for farms with under \$10,000 total value of farm products, plus a tabulation of all farms with \$10,000 or more total value of farm products. These figures are, therefore, subject to sampling errors. The coefficients of variation provide information on the approximate magnitudes of these errors. The figures for the District of Columbia represent all farms. See text.  
<sup>2</sup> Classified by total value of farm products, but not classified by type. See text.  
<sup>3</sup> Not classified either by total value of farm products or by type. See text.

<sup>1</sup>0.5 percent or less.  
<sup>2</sup>0.05 percent or less.  
<sup>3</sup>More than 15 percent.

The 1940 figures by type of farm for all States are based on a 2-percent sample for farms with under \$10,000 total value of farm products, plus a tabulation of all farms with \$10,000 or more total value of farm products. These figures are, therefore, subject to sampling errors. The coefficients of variation provide information on the approximate magnitudes of these errors. The figures for the District of Columbia represent all farms. See text.

<sup>4</sup>Classified by total value of farm products, but not classified by type. See text.

<sup>5</sup>Not classified either by total value of farm products or by type. See text.

<sup>1</sup>0.5 percent or less.

<sup>2</sup>0.05 percent or less.

<sup>3</sup>More than 15 percent.

<sup>1</sup>The 1940 figures by type of farm for all States are based on a 2-percent sample for farms with under \$10,000 total value of farm products, plus a tabulation of all farms with \$10,000 or more total value of farm products. These figures are, therefore, subject to sampling errors. The coefficients of variation provide information on the approximate magnitudes of these errors. The figures for the District of Columbia represent all farms. See text.

<sup>2</sup>Classified by total value of farm products, but not classified by type. See text.

<sup>3</sup>Not classified either by total value of farm products or by type. See text.

<sup>1</sup>0.5 percent or less.  
<sup>2</sup>0.05 percent or less.  
<sup>3</sup>More than 15 percent.

<sup>1</sup>The 1940 figures by type of farm for all States are based on a 2-percent sample for farms with under \$10,000 total value of farm products, plus a tabulation of all farms with \$10,000 or more total value of farm products. These figures are, therefore, subject to sampling errors. The coefficients of variation provide information on the approximate magnitudes of these errors. The figures for the District of Columbia represent all farms. See text.  
<sup>2</sup>Classified by total value of farm products, but not classified by type. See text.  
<sup>3</sup>Not classified either by total value of farm products or by type. See text.
