NA Not available. Z 0.05 percent or less. <sup>1</sup>Ratio of acres fertilized to the total acreage of crops (or pasture) in each respective group. See text for limitations of this percentage. Percentages for total acres fertilized are based on all cropland harvested plus the acres of pasture, other than woodland pasture. <sup>2</sup>Summaries for farms classified as irrigated, including both irrigated and nonirrigated land on these farms. <sup>3</sup>Includes all crops other than those for which fertilizer data are listed for each State. <sup>4</sup>Over 100.0 percent. See text.
