NA Not available. <sup>1</sup>For the Census of 1954, in the calendar year; all other censuses, in the calendar year preceding the census. <sup>2</sup>Total acreage of crops for which figures are available, except that corn cut for forage was excluded as most of this acreage was probably duplicated in the acreage of corn harvested for grain. <sup>3</sup>10 to 49 acres. <sup>4</sup>50 to 99 acres. <sup>5</sup>100 to 259 acres. <sup>6</sup>Total cropland, cropland used only for pasture, and other pasture not fully comparable for the various census years because of differences in definition of cropland used only for pasture.
