

Woodland not Pastured.—The enumerator was instructed to include in this category land in the Soil Bank planted to trees.

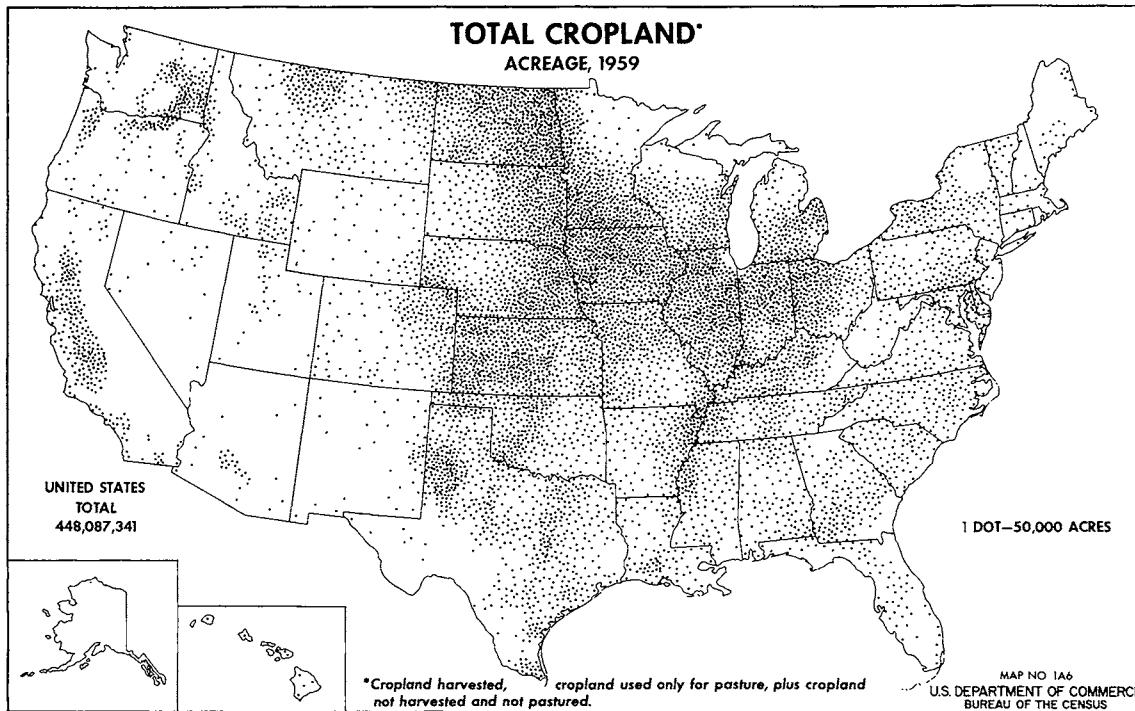

Other Pasture.—All land, other than woodland and cropland, used for pasture or grazing was designated other pasture.

Improved Pasture.—A pasture that had been limed, fertilized, seeded, irrigated, drained, or cleared of weeds or brush was to be considered improved pasture. Data on improved pasture were obtained only for the 1954 and 1959 Censuses. Information on improved pasture is not available for Alaska for either 1954 or 1959.

All Other Land.—This item refers to all land not included in any of the preceding land-use items and includes land occupied by a house or other buildings; lanes, roads, and ditches; and land area of ponds and wasteland. Unusually large tracts of other land held primarily for purposes other than agriculture were excluded from the tabulations.

In addition to the classification of land in farms according to use, data for three summary classes are presented as follows:

Cropland, total.—This class includes cropland harvested, cropland used only for pasture, and cropland not harvested and not pastured.

Land pastured, total.—This class includes cropland used only for pasture, woodland pastured, and other pasture.

Woodland, total.—This class includes both woodland pastured and woodland not pastured.
