<sup>1</sup> For States for which data are available.

<sup>2</sup> Includes any farms reporting sheep shorn with no sheep on hand.

The number of hogs and pigs sold has been increasing during the last 20 years, yet the number of farms reporting hogs and pigs was 22 percent less in 1959 than in 1954 and was less than half the number of farms reporting in 1939. Hogs and pigs were sold by only three-fifths as many farms in 1959 as in 1949.

The rapid decline starting in the 1920's in the number of farms reporting horses and mules and the number of horses and mules on farms continued throughout the 1954 to 1959 period. By 1959, only 26 percent as many farms reported horses and mules as in 1940 and the number of horses and mules had declined from a peak of more than 25 million in 1920 to fewer than 3 million in 1959.

NUMBER OF HORSES AND MULES, AND TRACTORS, FOR THE UNITED STATES: 1920 TO 1959

The number of farms with chickens declined almost 1.3 million from 1954 to 1959. Only about half as many farms reported chickens in 1959 as in 1950. From 1949 to 1959, the number of farms reporting chickens sold declined more than half.
