Farms reporting broilers sold decreased from 50,000 in 1954 to 42,000 in 1959; however, the number of broilers sold increased from 796 million to 1,420 million during the same period. The number of farms reporting fewer than 16,000 broilers sold decreased by over 53 percent from 1954 to 1959. Farms with 60,000 or more broilers sold increased from 1,687 in 1954 to 6,102 in 1959. These 6,102 farms, each with 60,000 or more broilers sold in 1959.

Table 10.—Farms Reporting and Number of Broilers Sold by Number of Broilers Sold Per Farm: 1959 and 1954

NA Not available.

A large proportion of the broilers sold is produced on a relatively few specialized poultry farms. Only 42,000 farms reported broilers sold in 1959. Of these, 37,000, or 89 percent, were commercial poultry farms and 97 percent of all broilers sold in 1959 were from these farms. Over 28 percent of the broilers were sold from 2,254 farms, each selling 100,000 or more broilers in 1959.

Only half as many farms reported turkeys raised in 1959 as in 1954. The number of turkeys raised in 1959 was 80.4 million compared with 61.8 million in 1954, and 36.4 million in 1949. Approximately 73,000 out of the 88,000 farms raising turkeys raised less than 50 turkeys each in 1959. (The average number of turkeys raised per farm for these farms was 9.4.) The 6,600 farms raising 1,600 or more turkeys in 1959 accounted for 96 percent of all the turkeys raised. The 2,144 farms with 10,000 or more turkeys raised in 1959 accounted for 70 percent of all turkeys raised and the average number of turkeys raised per farm for these farms was over 26,000.
