

Table 25. Number of Farms and Basis for Qualifying as a Farm in the Census, by Coverage Status and Economic Class

(In thousands)

Coverage status and economic class ¹	Number of farms	Basis for qualifying as a farm in the census	
		Actual sales ²	Potential sales ³
Correctly counted farms.....	2,973	2,819	154
Classes I to V.....	1,739	1,738	1
Class VI.....	336	308	28
Class VII.....	570	491	79
Class VIII.....	328	282	46
Overenumerated farms.....	79	72	7
Classes I to V.....	31	31	-
Class VI.....	12	10	2
Class VII.....	20	16	4
Class VIII.....	15	14	1
Underenumerated and missed..	480	428	52
Classes I to V.....	113	110	3
Class VI.....	80	75	5
Class VII.....	192	163	29
Class VIII.....	95	80	15

¹Economic classes defined as follows:

I to V - Sales of \$2,500 or more. Also includes institutional farms with sales of \$50 or more.

VI - Sales of \$50 to \$2,499, operator under 65 years of age and not working off farm 100 days or more.

VII - Sales of \$50 to \$2,499, operator under 65 years of age and reporting 100 days or more of work off farm.

VIII - Sales of \$50 to \$2,499, operator 65 years of age and over.

²Estimated sales > \$50 if farm has 10 or more acres, and > \$250 if farm has under 10 acres.

³Estimated sales less than amounts shown in footnote 2, place called a farm on basis of inventory and production items which indicate potential sales.

Table 26. Results of Phase II Followup for Correctly Counted Farms

(Unweighted data are presented)

Result of phase II followup	All farms	Size of farm in phase II		Respondent in phase I	
		Under 220 acres	220 acres and over	Operator	Other
Total.....	826	277	549	719	107
Phase I results verified ¹ ..	169	73	96	150	19
Census results verified ² ..	135	66	69	107	28
Other.....	522	138	384	462	60

¹Exact agreement between phase II and phase I for total land and cropland harvested.

²Exact agreement between phase II and census for total land and cropland harvested.
