

TABLE 26. **Percent of Farms Enumerated, by Week of Enumeration: 1964 and 1959**

[Census starting date November 9, 1964, and October 28, 1959]

| Week of enumeration              | Percent of farms enumerated by week of enumeration | Week of enumeration              | Percent of farms enumerated by week of enumeration |
|----------------------------------|--|----------------------------------|--|
| 1964                             |  | 1959                             |  |
| Average date of enumeration..... | November 23  | Average date of enumeration..... | November 11  |
| Farms enumerated during week of: |  | Farms enumerated during week of: |  |
| November 1 to 7.....             | 8  | October 1 to 10.....             | (1)  |
| November 8 to 14.....            | 18   | October 11 to 17.....            | (1)  |
| November 15 to 21.....           | 24   | October 18 to 24.....            | 6  |
| November 22 to 28.....           | 17   | October 25 to 31.....            | 8  |
| November 29 to December 5.....   | 17   | November 1 to 7.....             | 24   |
| December 6 to 12.....            | 9  | November 8 to 14.....            | 24   |
| December 13 to 19.....           | 3  | November 15 to 21.....           | 20   |
| December 20 to 26.....           | (1)  | November 22 to 28.....           | 10   |
| December 27 to January 2.....    | 1  | November 29 to December 5.....   | 5  |
| January 3 to 9.....              | (1)  | December 6 to 12.....            | 1  |
| January 10 to 16.....            | -  | December 13 to 19.....           | (1)  |
| January 17 or later.....         | 2  | December 20 or later.....        | (1)  |

<sup>1</sup>Less than 0.5 percent.

TABLE 27. **Sampling Reliability for Estimated Totals for Items Estimated on Basis of Reports for a Sample of Farms, by Number of Farms, by Levels: 1964**

| If number of farms for item is— | Then the chances are 2 out of 3 that the estimate based on reports for a sample of farms would differ from the total obtained from reports obtained by the enumeration and tabulation of reports for all farms by less than— |         |         |         | If number of farms for item is— | Then the chances are 2 out of 3 that the estimate based on reports for a sample of farms would differ from the total obtained from reports obtained by the enumeration and tabulation of reports for all farms by less than— |         |         |         |
|---------------------------------|--|---------|---------|---------|---------------------------------|--|---------|---------|---------|
|                                 | Level 1 <sup>1</sup>   | Level 2 | Level 3 | Level 4 |                                 | Level 1 <sup>1</sup>   | Level 2 | Level 3 | Level 4 |
|                                 | Percent  | Percent | Percent | Percent |                                 | Percent  | Percent | Percent | Percent |
| 25.....                         | 40   | 53      | 71      | 96      | 1,000.....                      | 6.3  | 8.4     | 11      | 15      |
| 50.....                         | 28   | 37      | 50      | 68      | 2,500.....                      | 4.0  | 5.3     | 7.1     | 9.6     |
| 100.....                        | 20   | 26      | 35      | 48      | 5,000.....                      | 2.8  | 3.7     | 5.0     | 6.8     |
| 250.....                        | 13   | 17      | 22      | 30      | 10,000.....                     | 2.0  | 2.6     | 3.5     | 4.8     |
| 500.....                        | 8.9  | 12      | 16      | 21      | 25,000.....                     | 1.3  | 1.7     | 2.2     | 3.0     |

<sup>1</sup>Level 1 should be used in determining the sampling reliability of estimated number of farms and farms reporting.
