table 26. Percent of Farms Enumerated, by Week of Enumeration: 1964 and 1959
[Census starting date November 9, 1964, and October 21, 1959]

| Week of enumeration | Percent of farms enumerated by week of emumeration | Week of enumeration | Percent of farms enumerated by week of enumeration |
| :---: | :---: | :---: | :---: |
| 1964 |  | 1959 |  |
| Average date of enumeration.... | November 27 | Average date of enumeration. | November 6 |
| Farms enumeratei during week of: |  | Farms enurerated during week of: |  |
| Hovember 1 to 7.. | 1 | October 1 to 10.. | $\left.{ }^{2}\right)$ |
| Novecter 8 to $14 .$. | 17 | October 11 to 17. | 6 |
| llovember 15 to 21. | 24 | October 13.3 to 24. | 9 |
| November 22 to 28.. | 16 | October 25 to 31. | 18 |
| Novertber 29 to Secerber 5. | 17 | November I to 7.. | 23 |
| December 5 to $12 . \ldots$ | 12 | Noveriber 8 to 14. | 18 |
| Decenter 13 to 19.. | 5 | Noveriber 15 to 21. | 16 |
| Deceraber 20 to 26... | 2 | November 22 to 28..... | 8 |
| Decemoer 27 to January 2.. | 1 | Noverber 29 to -ecember 5. | ${ }^{1}$ |
| January 3 to $9 . .$. | 1 | Jecember 6 to $12 . . .$. | ${ }^{1}$ ) |
| January 10 to 16.. | 1 | Secember 13 to 19. |  |
| Januery 17 or later. | 4 | December 20 ox later. | ( ${ }^{\text {a }}$ |

${ }^{1}$ Less than 0.5 percent.

## table 27. Sampling Reliability for Estimated Totals for Items Estimated on Basis of Reports for a Sample of Farms, by Number of Farms, by Levels: 1964

| If number of farms ror item is- | Then the chances are 2 out of 3 that the eatimate based on reports for a sample of farms would differ from the total obtafned from reports obtained by the enumeration and tabulation of reports for all farms by less than- |  |  |  | If number of farms for item is- | Then the chances are 2 out of 3 that the estimate based on reports for a sample of farms would differ from the total obtained fram reports obtained by the enumeration and tabulation of reports for all farms by less than- |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Level $\mathrm{I}^{1}$ | Level 2 | Level 3 | Level 4 |  | Level $1^{1}$ | Level 2 | Level 3 | Level 4 |
|  | Percent | Percent | Percent | Percent |  | Percent | Percent | Percent | Percent |
| 25............ | 40 | 53 | 71 | 96 | 1,000....................... | 6.3 | 8.4 | 11 | 15 |
| 50. | 28 | 37 | 50 | 68 | 2,500....................... | 4.0 | 5.3 | 7.1 | 9.6 |
| 100.. | 20 | 26 | 35 | 48 | 5,000....................... | 2.8 | 3.7 | 5.0 | 6.8 |
| 250........... | 13 | 17 | 22 | 30 | 10,000.................... | 2.0 | 2.6 | 3.5 | 4.8 |
| 500.................... | 8.9 | 12 | 16 | 21 | 25,000.................... | 1.3 | 1.7 | 2.2 | 3.0 |

[^0]
[^0]:    ${ }^{1}$ Level 1 should be used in determinfing the sampling relfability of estimated number of farms and farms reporting.
