256 NEW YORK

## TABLE 26. Percent of Farms Enumerated, by Week of Enumeration: 1964 and 1959

[Census starting date November 9, 1964, and October 28, 1959]

| Week of enumeration   | Percent of farms<br>enumerated by<br>week of<br>enumeration | Week of enumeration   | Percent of farms enumerated by week of enumeration |  |
|---|---|---|--|--|
| 1964 Average date of enumeration  | November 23   | 1959 Average date of enumeration,   | November 9   |  |
| Farms enumerated during week of: November 1 to 7. November 8 to 14. November 15 to 21. November 22 to 28. November 29 to December 5. December 6 to 12. December 13 to 19. December 20 to 26. December 27 to January 2. January 3 to 9. January 10 to 16. January 17 or later. | 3<br>22<br>25<br>18<br>15<br>8<br>4<br>1<br>1<br>(1)        | Farms enumerated during week of: October 1 to 10. October 18 to 24. October 25 to 31. November 1 to 7. November 8 to 14. November 15 to 21. November 15 to 28. November 25 to 28. November 29 to December 5. December 6 to 12. December 13 to 19. December 20 or later. | (1)<br>8<br>12<br>25<br>24<br>17<br>7<br>5<br>1    |  |

<sup>1</sup>Less than 0.5 percent.

## TABLE 27. Sampling Reliability for Estimated Totals for Items Estimated on Basis of Reports for a Sample of Farms, by Number of Farms, by Levels: 1964

|                                 |  | •       |         |                                    |  |          |         |         |         |
|---------------------------------|--|---------|---------|------------------------------------|--|----------|---------|---------|---------|
| If number of farms for item is- | Then the chances are 2 out of 3 that the estimate based on reports for a sample of farms would differ from the total obtained from reports obtained by the enumeration and tabulation of reports for all farms by less than— |         |         | If number of farms<br>for item is— | Then the chances are 2 out of 3 that the estimate based on reports for a sample of farms would differ from the total obtained from reports obtained by the enumeration and tabulation of reports for all farms by less than— |          |         |         |         |
|                                 | Level 11   | Level 2 | Level 3 | Level 4                            |  | Level 11 | Level 2 | Level 3 | Level 4 |
|                                 | Percent  | Percent | Percent | Percent                            |  | Percent  | Percent | Percent | Percent |
| 25,                             | 40   | 53      | 71      | 96                                 | 1,000  | 6.3      | 8.4     | n       | 15      |
| 50                              | 28   | 37      | 50      | 68                                 | 2,500  | 4.0      | 5.3     | 7.1     | 9,6     |
| 100                             | 20   | 26      | 35      | 48                                 | 5,000  | 2,8      | 3.7     | 5.0     | 6.8     |
| 250                             | 13   | 17      | 22      | 30                                 | 10,000   | 2.0      | 2.6     | 3.5     | 4.8     |
| 500,                            | 8.9  | 12      | 16      | 21                                 | 25,000   | 1.3      | 1.7     | 2.2     | 3,0     |

<sup>1</sup> Level 1 should be used in determining the sampling reliability of estimated number of farms and farms reporting.
