GENERAL EXPLANATION Continued

the partnership, 38.4 percent of the partnerships with two partners are without plans and 28.7 percent of the partnerships with three partners are without plans, as compared with 20.6 percent of the partnerships with four partners, 16.4 percent of the partnerships with five partners, and 13.8 percent of the partnerships with six partners or more.

Entry into Partnership

The Survey of Farm or Ranch Partnership Operations found that 12,320 or 15.1 percent of the farm partnerships were already in existence at the time they began farming. Of these partnerships, 8,636 had some partners who were already farming and 3,267 had none of their partners farming at the time the partnership began farming. Note that both the 3.267 operations with no partners farming and the 417 who did not report have relatively small operations, 422 acres per farm and 375 acres per farm, respectively. Detailed data on the formation of partnerships and initiation of farming or ranching are shown in table 32.

Other Business Interests

The survey also attempted to obtain estimates for farm partnerships engaged in other businesses and partners engaged in other business activities.
