ACKNOWLEDGMENTS—Many persons participated in conducting the 1979 Farm Finance Survey. Primary direction was by **Shirley Kallek**, Associate Director for Economic Fields, and **Richard B. Quanrud**, Assistant Director for Economic and Agriculture Censuses (to June 1981), and **Michael G. Farrell**, his successor.

This report was prepared by the staff of the Agriculture Division under the general supervision of **Orvin L. Wilhite**, Chief (to January 1980), and **Arnold L. Bollenbacher**, his successor (to April 1982).

Clerical processing was performed in the Data Preparation Division, Jeffersonville, Ind.

Staff of the Administrative Services Division provided the forms design services.

Many individuals in the Publication Services Division made significant contributions in publication planning and design, editorial review, composition, and printing procurement.

The computer processing facilities were provided by the Computer Operations Division.

Members of the Census Advisory Committee on Agriculture Statistics and representatives of both public and private organizations made significant recommendations which helped establish data content.

Representatives of the Economic Research Service and Farmers Home Administration of the U.S. Department of Agriculture, the Farm Credit Administration, the Bureau of Economic Analysis, and the Board of Governors of the Federal Reserve System contributed to the development of the content and tabulation plans for the survey.

Supplemental funding provided by the Economic Research Service allowed expansion of the survey to provide State-level estimates.

Special tribute is paid to the thousands of farm and ranch operators who furnished the information requested in this survey. Only through their cooperation was it possible to collect and publish the data in this report.

ABBREVIATIONS AND SYMBOLS	VIII

BACKGROUND AND PURPOSE

Varying elements of farm finance have been collected since the first agriculture census was taken in the United States. Initially, the principal points of interest were the value of farmland and sales of agricultural products, but in 1890, census data were also requested on farm mortgage debt. In later censuses, this aspect of the data collection effort was expanded to include farm taxes.

Beginning in 1960, special surveys were conducted in connection with the 1959 and 1964 Censuses of Agriculture on selected aspects of farm finance. In 1971, the 1970 Survey of Agricultural Finance was conducted as part of the 1969 Census of Agriculture. This survey collected data on land in farms, value of land and buildings, rents, capital and operating expenditures, credit used for purchasing specific items, debts outstanding by kind and source, taxes, value of agricultural products sold, construction of new buildings and other structures, and off-farm income.

The 1979 Farm Finance Survey is basically comparable to the 1970 Survey of Agricultural Finance. The 1979 Survey included new sections on production contracts, income and expenses from farm-related sources, assets, when and how owned land was acquired, off-farm work, education, and household characteristics; and repeated questions from the 1970 Survey on debts, expenditures, income, and taxes. Data for all of these items were collected from farm operators, and most of them from landlords. The landlord report form also included new sections on ownership and sales of agricultural land, participation in management decisions, type of ownership, and characteristics and occupation of landlords.

SOURCE OF DATA

Essentially all data shown in this report are from the 1979 Survey of Farm Finance, which was taken in 1980 to cover the calendar year 1979.

The items included in the report forms were suggested by the Census Advisory Committee on Agriculture Statistics in 1978 and 1979, and by various government agencies and private organizations during 1977, 1978, and 1979. These suggestions

were augmented and refined by staff research and by consultations with the suggesting agencies and organizations.

Particularly noteworthy was the assistance provided by the Economic Research Service of the U.S. Department of Agriculture, the Farm Credit Administration, the Federal Reserve Board, and various universities.

In the fall of 1978, a mailout pretest was made of draft versions of the operator and landlord report forms. The pretest was based on a national sample of operators and landlords taken from respondents to the 1974 Census of Agriculture.

Based on evaluation of the pretest and additional research, final data collection forms were developed for operators (79-A9A) and for landlords (79-A9B). Copies of these forms are in the appendix.

The data for the survey were collected principally by mail. Form 79-A9A was sent to a sample of farm operators for completion of applicable items for the land which they operated. Form 79-A9B was sent to landlords for completion of items relating to the land rented to the specified farm operators. A combination of the requisite items from both reports made possible the determination of total estimates for items applicable to all land in farms.

PRESENTATION OF DATA

Data are published for the United States, the 4 regions, the 9 divisions, and each of the 50 States. In general, data are published in greater detail for the United States than for lesser geographic areas. There are tables for operators only, for landlords only, and for operators and landlords combined. Small differences may occur between tables in the totals for the same categories of items because of rounding figures to thousands.

UNPUBLISHED DATA

More detailed data were tabulated at the request of the U.S. Department of Agriculture, but these data have not been published in this report because of space limitations. Inquiries about the content, availability, and costs of reproduction should be directed to: Chief, Agriculture Division, Bureau of the Census, Washington, D.C. 20233.

HISTORICAL DATA

No comparative historical data are shown in this publication. Data from past surveys or censuses are available; see:

1974 Census of Agriculture—volume II, part 2, Chapter III,
Farm Debt.

- 1970 Survey— 1969 Census of Agriculture, volume V, Part II, **Farm Finance**
- 1965 Survey— 1964 Census of Agriculture, volume III, Part 3, **Sample Survey of Agriculture**, and Part 4, **Farm Debt**
- 1960 Survey— 1959 Census of Agriculture, volume V, Part 5, **1960 Sample Survey of Agriculture**, and Part 4, **Farm Mortgage Debt and Farm Taxes**; Board of Governors, Federal Reserve system (Washington, 1964), **Farm Debt**.

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used throughout the tables:

- Zero.
- (D) Data withheld to avoid disclosing information for individual farms.
- (X) Not applicable.
- (Z) Less than half of the unit reported.
- (NA) Not available.

COLLECTION PROCEDURES

Operator

A total of 44,968 report forms were mailed to operators from March to June 1980. The initial mailing was carried out as sample lists and labels became available.

The package contained form 79-A9A, Farm Finance Survey, a form 79-A9A for the respondent's file, an instruction sheet, a brochure—*Why a Farm Finance Survey*, cover letter, and a return envelope.

After the original mailout, there were four mail followups. The first and third consisted of complete survey packages, and the second and fourth consisted of a form letter requesting prompt response. The operator responses were 32,831 or 73 percent. A stratified sample of approximately 5,500 nonrespondents was selected for followup by telephone.

It was not possible to enumerate all of the sample nonresponse cases, however, 1,710 cases were enumerated. The remaining certainty cases were imputed, and a reweight program was applied to the entire farm finance survey to compensate for the noncertainty nonresponse cases.

Landlord

The report forms were mailed to landlords from September to December 1980 in three phases, as the names became available from the operator reports. The reports provided approximately 37,600 landlords. Of these, 34,200 were mailed report forms. The remaining 3,400 names were held as abnormals (government agencies and other institutions) or without sufficient addresses. Attempts were made to call all operators with insufficient or missing landlord names or addresses.

After the original landlord mailouts, there were three mail followups. The first and third consisted of complete survey packages, and the second consisted of a form letter requesting prompt response. The response was 26,000 reports or 76 per-

cent. An additional 3,000 landlords, or 8.8 percent, were returned by the post office because of insufficient address or no forwarding address available.

Additional landlords were located which were not identified in the original review. Information for these landlords, as well as the mail nonresponse landlords, were imputed during processing. Data for these cases were imputed using their operators' data as well as characteristics of landlords of similar size and type.

No field enumeration of landlords was conducted. Telephone followup for nonresponse was limited.

DATA PROCESSING

Operator's Report Forms

The report forms for operators were reviewed prior to keying the data to magnetic tape. This involved a clerical edit check for incompleteness. Whenever the incompleteness was significant, correspondence was initiated or telephone calls were made to collect the missing data.

All problem cases, large operations (as determined by acres or sales), multiunit operations, and multiform cases (reports involving the other follow-on surveys) were referred to technical analysts for review.

The report forms specifying off-farm work were coded by the Current Population Surveys Branch of the Demographic Surveys Division. Approximately 12,000 reports received a three-digit code indicating the type of industry and occupation of the operator and spouse. The coding system was based on the Bureau of the Census 1970 Industrial and Occupational Classification System.

Following the initial edit review, the data were keyed to tape and used in this report. About 1,400 report forms failed for a variety of reasons to meet the census definition of a farm for 1979.

The keyed data were subjected to a series of computer checks to determine whether all required entries had been made and if the entries were internally consistent. Problem items were flagged by the computer and displayed on printouts for review and correction by statistical analysts.

Landlord's Report Forms

The landlord reports were processed in the same way as the operator reports, but in accordance with separate landlord computer edit specifications. Each individual landlord report was edited separately.

The final phase of edit review for the survey was a comparison of the responses of the landlord(s) renting to a particular operator with the responses of that operator. When there were two or more landlords renting to any operator, relevant

responses of all the landlords were added together for the comparison. This phase of review was called the reconciliation edit.

The task of reviewing and making corrections to individual reports was performed simultaneously with needed reconciliation corrections. Reconciliation comparisons between aggregated landlords values (all landlords renting to one operator) and their operators were restricted to data common to both landlord(s) and operator. Data compared were acres rented, their associated value of land and buildings, and share and cash rents. The reconciliation computer edit was designed such that these four essential responses were also imputed on non-response landlord reports based on the response obtained from the operator.

LIMITATIONS OF THE DATA

The published data are subject to both sampling and non-sampling errors. Measurements of the sampling error for selected data are shown in this report. However, nonsampling errors such as underreporting and misclassifications by respondents and processing errors were not measured.

During the processing of the survey, most data were accepted as reported unless there were obvious reporting errors or gross inconsistencies among selected data. In general, only land values, the more significant operating expenditures and assets, and the value of agricultural products sold were imputed if the data were not reported by the respondent. Imputations for these data were based on the items reported in the matching 1978 census report. Nonresponses to debt items were reviewed, and to determine whether debt was required, comparison was made with adjacent reports of similar characteristics. This resulted either in telephone followup, or imputations based on the relationships of comparable adjacent reports.

For the most part, estimates from this survey should not be used as the absolute totals without making some comparisons with data from the 1978 Census of Agriculture and other benchmark sources.

DEFINITIONS AND EXPLANATIONS

For an exact wording of the questions used in the survey forms, and the information sheets which accompanied these forms, see the appendix of this publication. The definitions and explanations in this section provide more detailed descriptions for selected items and terms than are available on the report forms or in the tables.

Farm Definition

For this survey, the definition of a farm is the same as that for the 1978 Census of Agriculture. A farm is defined as any place from which \$1,000 or more of agricultural products were sold or normally would have been sold during 1979. The word "place" is defined as all land under the control or supervision of one person or partnership at the time of enumeration and on which agricultural operations were conducted at any time in 1979. It is made up of the sum of the land owned in 1979, plus the land rented from others, minus the land rented to others.

Control may have been exercised through ownership or management, or through a lease, rental, or cropping arrangement.

Abnormal Farms

The term "abnormal farms" includes institutional farms, experimental and research farms, and Indian reservations. Institutional farms include those operated by hospitals, penitentiaries, schools, grazing associations, government agencies, etc. The 2,300 abnormal farms identified in the 1978 Census of Agriculture have been excluded from this survey.

Operator

The term "operator" designates a person who operates a farm, either doing the work or directly supervising the work. The operator may be the owner, a member of the owner's household, a salaried manager, or a tenant. If he/she rents land to others or had land worked on shares by others, he/she is considered the operator only of the land which he/she retains for his/her own operation. For partnerships, only one partner is counted as an operator. If there is no clear-cut partner in charge, the senior or oldest active partner is considered to be the operator. For survey purposes, the number of operators is the same as the number of farms.

Hired Farm Manager

A hired manager is a person who is paid a salary or wage (and sometimes a commission) to operate a farm or ranch for an individual or family, a partnership, a corporation, an institution, or other organizations. The hired manager is in charge of all day-to-day decisions relating to all aspects of the operation. Instructions accompanying the report pointed out that a hired manager should not be confused with a foreman, caretaker, share operator, or hired person who merely carries out the employer's instructions.

On the operator report form the respondent was asked:

Is this farm or ranch operated by a hired manager? Yes No

Reports indicating the presence of a hired manager were reviewed during processing. Obvious reporting errors were corrected.

Although the potential for having a hired farm manager is possible for most sizes or types of farms, the probability is greater for corporate or other large-scale farms and ranches. Follow-up telephone calls to a number of the smaller individual proprietorships reflected obvious confusion between the hired managers, caretakers, and foremen. In such cases, if the owner was actually responsible for purchasing, marketing, and making decisions involving the crop or livestock practices, the report was changed to a nonmanaged classification. This undoubtedly indicated the potential for an inflated count of hired managers.

The salary for hired managers was to be included as income from farm work—section 10, item 1, a, (2) of the report form. The data for personal assets, section 9, items 14 to 21; section 12, Off-Farm Work and Education, and section 13, Household

Characteristics, of the report form were to be reported for the hired manager and his/her family.

Managed Farms

For uses of this survey, farms operated by hired managers are managed farms. Data for managed farms were collected and published in this report at the special request of data users, but managed farms are not shown as a separate tenure class in farms by tenure. In the tenure classification, these farms were distributed among full owners, part owners, and tenants according to the reported ownership.

Farms or Farms Reporting

The term "farms" or "farms reporting" in the presentation of data denotes the number of farms reporting the item. The same applies to the term "landlords" or "landlords reporting."

Land in Farms

The acreage designated in the tables as "land in farms" consists primarily of agricultural land used for crops, pasture, or grazing. It also may include considerable areas of land not actually under cultivation and not used for pasture or grazing. For example, the acreage of woodland and wasteland owned or rented by farm operators along with the land used for their agricultural operations is included as land in farms. Large acreages of land held for nonagricultural purposes were deleted in processing.

All grazing land except open range and grazing land used under government permit was to be included in farms, provided the place of which it was a part was a farm.

Land leased from the Government, Indian reservations, and institutions was considered to be debt free, and also not subject to property taxes. Land leased from corporations was also considered to be debt free unless an amount for mortgage debt was reported. However, data on taxes were requested from corporations.

Capital Purchases

This refers to expenditures used for purchasing long-lasting items required for the production of agricultural income, such as land and buildings, land improvement, equipment and machinery, etc.

Operator's Cash Operating Expenses

This represents the total operating expenditures, excluding depreciation and change in inventory values, made by the farm operator and members of his/her family for farming operations in 1979. To permit a more useful farm-to-farm comparison of cash operating expenditures, cash rent paid is not included, but is shown separately. Cash expenditures paid by landlords were not to be included by the operator, but were reported by landlords. The cost of items and services supplied by contractors is not included, but is shown separately.

Value of Agricultural Products Sold

This item represents the gross market value before taxes and production expenses of all agricultural products sold or removed from the place in 1979 regardless of who received the payment. It includes sales by the operator as well as the value of any shares received by partners, landlords, contractors, and others associated with the operation. It does not include income from farm-related sources, such as customwork or agricultural services, income from the sales of forest products, or income from other nonfarm sources.

Operator's share—For a share tenant, the operator's share is the total value of agricultural products sold minus the landlord's share. In the case of a part owner who share-rented land, it is the total value of the sales from the owned and rented land minus the landlord's share from the share-rented land. In the case of full owners and cash renters, it is the total value of sales from the farm. In the case of an operator with a contract, it is the value of agricultural products sold minus the contractor's share.

Operator's share minus cash rent—This total includes the operator's share of the value of agricultural products sold minus cash rent paid to the landlord.

Landlord's share—This total represents the landlord's share of the value of agricultural products sold from land rented to operators on a share rental basis.

Contractor's share—The contractor's share of the total is the total market value of products produced under contract minus the amount paid to the producer.

Production Contract

Many farm products are produced under a contract or binding agreement between the farm operator (producer) and the person who buys or uses the farm product. A production contract usually specifies the kind and/or amount of farm products to be produced and may specify variety or breed, the operations to be performed during production, the price to be paid the producer, and the inputs and technical assistance to be supplied by the contractor.

Operator's Income

Net cash income from agricultural sales—This income is the operator's share of the income from agricultural products sold minus the cash operating expenses and cash rent.

Net cash farm-related income—This income is the operator's share of income from customwork and other agricultural services, recreational services, payments from government farm programs, gross cash rent or share payments received, sales of forest products, and income from other business or source closely related to agriculture, minus expenses for the services. See section 6 of the operator's report form in the appendix.

Net cash farm income—This is the operator's income from the *net cash income from agricultural sales* plus the *net cash farm-related income*.

Off-farm income—This category covers cash wages, salaries, tips, Armed Forces pay, commissions, piece-rate payments, cash bonuses, income from a nonfarm-related business or professional services, retirements and/or disability payments, public assistance, interest, dividends, income from estates or trust, net cash rent from nonfarm property, net royalties, or lease payments from mineral rights, annuities, alimony, regular contributions from persons not living in the household, and any other money income from any other sources. See section 10 of the operator's report form in the appendix.

Net cash income—This is the operator's total income from *net cash farm income* plus the *off-farm income*.

Cash Rent

Each farm operator renting from others was asked, "If you rented land from others, how much cash rent did you pay for the year 1979?" The cash rent reported includes, in addition to the amount paid for land rented and operated, any cash rent paid for rented lands the operator may have subrented to others.

Total Rent

Total rent includes landlords' share of the value of agricultural products sold plus cash rent paid.

Capital Purchases and Operating Expenses

This is the total expenditures for all capital items and all cash operating expenses.

Funds Borrowed for Unspecified Purposes

These are the funds borrowed in 1979 for general farming operations, and which were not used for or could not be readily allocated to a specific use or purpose. Some part of these funds may not have been used during 1979. Such loans for general operating expenses were most often borrowed from commercial banks or production credit associations and generally paid back when the agricultural products were sold.

Farm Taxes

Farm operators were requested to complete the tax section of the report form if they were owners of farmland.

Both operators and landlords were requested to report taxes on farmland and ranch land, buildings and other improvements, as reported on their tax bills for 1979.

Taxable Land in Farms

This is the total of all taxable farmland as reported in the 1979 Farm Finance Survey. Land in abnormal farms and land rented from public agencies (Federal, State, and Indian lands) were excluded.

Real Estate

This consists of land and any structures or other improvements on it.

Real Estate Taxes

These are taxes levied on real estate. Practically all privately owned real estate is legally subject to the general property tax in the United States. The estimates for the acres of privately owned land in farms in the United States were calculated from the acres in farms reported in the following manner: From the total acres of land in farms in 1979, the acres rented from government agencies, Indian reservations, and institutions were deducted to arrive at the acres of privately owned taxable lands. No adjustments were necessary for operated abnormal farms since they were not included in the survey sample. Similar adjustments were made to arrive at the value of the taxable land and buildings. The total amount of real estate tax was estimated by applying the tax rate per \$100 of market value of land and buildings for farms reporting in the survey to the market value of taxable owned land and buildings from the 1979 Farm Finance Survey. To get the tax rate per \$100 of market value of land and buildings for the survey farms, the tax rate was calculated for farms reporting taxes by tenure. These rates were then applied to all survey farms broken down by tenure. It is possible that taxes reported by small farms might have been affected by residential rates. No attempts were made to correct for this influence.

Assessed Value

The "assessed value" as applied to this survey is "an official valuation of property . . . for taxation." Because of low and often erroneous responses to the question on assessed value of real estate, no data were published for this item.

Total Farm Debt

Farm operators were instructed to report as debt the unpaid principal of the loans, sales contracts, and other bills owed by the farm operator and spouse as of December 31, 1979. In case an indebted farm operator (or spouse) owned farmland that was rented or leased to others, or owned a nonfarm business, the operator was asked to prorate the debt so the amount reported would relate only to the farmland operated. Debts owed for less than 30 days, such as charge accounts, were not to be reported.

The report form contained separate inquiries about debts owed to each of 12 different sources of credit (see section 3 of the operator's report form in the appendix). The inquiry about debts owed to merchants and dealers included an itemization by six purposes. Debts owed to previous owners from whom part or all of the farm was purchased were subdivided into mortgage and land-purchase-contract categories. The use of separate inquiries for different types of debts probably resulted in more complete reporting.

The instructions and procedures for reporting landlord debt were the same as those for reporting farm operator debt. Each

landlord listed by a farm operator was asked to report only debt relating to the acreage rented to the farm operator in the sample.

Real Estate Farm Debt

Farm operators (and landlords) were instructed to report each source of debt as of December 31, 1979, the amount of debt that was secured by all or part of the real estate in his/her place. Secured debts were to include those secured entirely by mortgages (first, second, or third), deeds of trust, and land purchase contracts, and also, debts secured in part by the real estate in his/her place and in part by chattel mortgages or liens on livestock, poultry, equipment, or crops.

Non-Real Estate Farm Debt

Farm operators (and landlords) were instructed to report for each source of debt as of December 31, 1979, the amount of debt arising from the operation of his/her place that was not secured by farm real estate; to include unsecured debts and debts secured entirely by chattel mortgages and crop liens; and also, unpaid bills and accounts which were owed for a period of more than 30 days as of December 31, 1979.

Nonfarm Debt

These are debts related to nonfarm assets such as off-farm dwellings, cotton gins, motels, and stores; and machinery, vehicles, and equipment for nonfarm uses. Nonfarm debt was requested only from operators.

Farm Assets

Operator's—These assets included the physical resources used in the operation of the farm, and the financial resources resulting from or relating to the farm business.

The physical farm assets were farmland and buildings, livestock, machinery, equipment, and crop inventories.

The financial farm assets were deposits, securities, cash value of life insurance, accounts receivable, and cash on hand.

For a family or individual operation, all farm assets owned by the operator and related members of the household engaged in the farm business were to be reported.

For a partnership or family corporation operation, all physical farm assets owned by the partnership or family corporation were to be reported, but the financial farm assets were to be reported only by the senior partner (or person in charge of the partnership), or by the person in charge of the family corporation.

For large corporations, including managed operations, all physical farm assets managed for the farm owner were to be reported. However, only the financial farm assets owned by the hired manager and related members of the household engaged in the farm business were to be reported.

The type of assets excluded from the operator's report were land and buildings rented to others; the landlord's share of any assets; poultry, livestock, and other assets owned by contractors, investors, etc.; and machinery, equipment, and other assets rented from others.

Landlord's—The landlords were requested to report only the physical farm assets pertaining to the land rented to specified renter—operators included in the survey sample.

Operator's Worth

Farm net worth—This category includes the operator's total farm assets minus the total farm debts.

Nonfarm assets—This category includes the market value of nonfarm property, such as off-farm dwellings, cotton gins, stocks of cooperative organizations, motels, stores, and vehicles, machinery, and equipment for nonfarm uses.

Nonfarm net worth—This category includes the operator's nonfarm assets minus the nonfarm debts.

Farm Data

Residence of operator—Farms were classified as to whether the operator lived on the farm operated or not on the farm operated. This classification was obtained from the matched reports of the 1978 Census of Agriculture. No adjustment was made for nonresponse.

Value of land and buildings—Farms were classified by value of land and buildings as established for each farm from the 1979 report. The respondent was asked to give his best estimate of the current market value of the land, including all permanent buildings and permanently attached equipment.

Weeks worked at off-farm job by operator—This classification was based on the data from the 1979 Farm Finance Survey. No adjustment was made for nonresponse.

Sex of operator—The sex classification was based on the matching reports of the 1978 Census of Agriculture. If sex was not reported in 1978, it was derived based on reports with similar acreage, size, tenure, and sales size.

Operators of Spanish origin—The Spanish origin classification was obtained from matching reports of the 1978 Census of Agriculture. No adjustment was made for nonresponse. In the 1978 Census of Agriculture extensive verification and recontacting were done to verify responses.

Landlord

The owner or holder of land which he/she leases to others.

Multiple or duplicate landlords—Since the mail list for landlords was prepared from the names reported by operators, it was possible for the same landlord to appear on two or more different operator reports, or for the same landlord to appear two or more times on the same operator report. Whenever this occurred, one landlord would have submitted multiple reports. During data processing, a special effort was made to locate multiple cases, and to correct items which would have been duplicated on the reports.

Landlords' land sales—Because of the small amounts involved, no adjustments were made for possible duplications resulting from operating landlords reporting both as operators and as landlords.

Landlord by renters—The number of renters reported represents renter-operators included in the survey sample as well as those not included. A landlord may report several renters, at least one of which will be a specified renter-operator included in the survey sample, but the other renters might not have been selected as operators in the survey.

Landlord by acres owned—This represents the total amount of land owned by landlords included in the survey sample. This total may include possible duplications of owned acres whenever the sample included two or more tenant operators with the same landlord. An attempt was made to eliminate duplication during processing.

Landlord by value of land and buildings owned—This is the value of all owned agricultural land reported by landlords.

Landlords by type of ownership organization—The data on ownership organization was obtained from responses to items on the landlord report form. The type of ownership organization is the same as that used for operators. This is the first time that this type of classification was used for landlords.

Family or individual and partnership landlords were further classified as to residence, distances of residence from land rented, two racial groups (White or Black and other races), Spanish origin, age, sex, citizenship, occupation, and percent of income from agricultural rent and sales of products. These classifications were based on the landlords reporting these items.

Corporate landlords were further classified as to whether they had business other than that of a landlord, and whether the business was related to agricultural or nonagricultural activities. All of these data were tabulated only for the landlords reporting the items.

“See Text” Reference

Items in the tables which carry the note “See Text” are explained or defined in this section. Also, additional explanations for some items are provided.

Farms with sales of less than \$2,500—These data include some farms with sales of less than \$1,000, if they qualified as farms based on the farm definition criteria used to measure potential sales in the 1978 Census of Agriculture.

Ownership—Acceptable entries for “Other” as ways acres owned were obtained by operators and landlords were: Law suit judgement, divorce, title dispute, foreclosure, through incorporation, homestead, suit for repossession, and through marriage.

Occupation—Acceptable entries for “Other” as type of occupations of landlords were: Housewife, student, prisoner, and widow.

CLASSIFICATION OF FARMS

The tables present data classified by specified characteristics of the farm or the operator.

Farms by Value of Agricultural Products Sold

Data are shown for farms with sales ranging from less than \$2,500 to farms with \$500,000 or more. The sales values are based on 1979 sales reported in the survey. The survey sample includes farms, which in the 1978 census had sales of \$1,000 or more, or had potential for such sales. Thus, the sales class of “less than \$2,500” includes those farms in the survey reporting sales of less than \$1,000, since these were classified as farms in accordance with census farm definition.

Farms by Standard Industrial Classification

The standard industrial classification (SIC) used in the survey was based on the matching 1978 Census of Agriculture report form. These classifications, found in the 1972 SIC Manual, are used to promote uniformity and comparability in the presentation of statistical data collected by various agencies. The farms were classified into selected 3- and 4-digit industry groups.

Farms by Tenure of Operator

This classification of farms was based on 1979 data reported in the farm finance survey for land owned, land rented from others or worked on shares for others, and land rented to others or worked on shares by others.

The classifications of tenure used in this report are:

Full owners, who operate only land they own.

Part owners, who operate land they own and also land they rent from others.

Tenants, who operate only land they rent from others or work on shares for others.

The subclasses of tenants are:

- a. Cash tenants pay only cash rent, either on a per acre basis or for the farm as a whole. Cash payments representing a share of the crops or livestock are not considered as cash rent.
- b. Share cash tenants pay part of the rent in cash and part in a share of the crops and/or of the livestock and livestock products.
- c. Share tenants pay a share of the crops and/or a share of the livestock or livestock products.
- d. Other tenants are those who do not qualify for inclusion in any of the foregoing subclassifications. They may have had the use of land rent free or in return for a fixed quantity of product, payment of taxes, maintenance of buildings, etc.

Farms by Size

Farms were classified by size according to the total land area (acres in place) established for each farm. Acres owned plus

acres rented from others minus acres rented to others was designated as acres in the place.

Farms by Type of Organization

The type of organization classification used was based on information taken from matched 1978 Census of Agriculture reports.

The classifications used are:

- Individual or family operation* (sole proprietorship), excluding partnership and corporation.
- Partnership operation*, including family partnership.
- Corporation*, including family corporation.
- Other*, such as cooperative, estate or trust, etc.

Corporations were subclassified:

- a. Family held
- b. Other than family held

Farms by Age of Operator

The age classification was based on the matching report of the 1978 Census of Agriculture. If age was not reported in 1978, it was derived based on reports with similar acreage size, tenure, and sales size.

Farms by Race of Operator

The race classification was obtained from matching reports of the 1978 Census of Agriculture. If race was not reported in 1978, it was derived based on reports with similar acreage, size, tenure, and sales size. Data for the following racial classifications are presented in the tables:

- White
- Black and other races

The classification "Black and other races" includes Blacks, American Indians, Asian or Pacific Islanders, and any other separate racial group, except White.

Farms by Principal Occupation of Operator

Farms were classified as to whether the principal occupation of the operator was:

- Farming—The operator spent 50 percent or more of the worktime in farming or ranching.
- Other—The operator spent 50 percent or more of the worktime in occupations other than farming.

The classification was obtained from matching reports of the 1978 Census of Agriculture.

SAMPLING AND ESTIMATING PROCEDURES

The estimates from this survey are based on a probability sample of farms identified in the 1978 Census of Agriculture.

Sample Selection

All farms in the 1978 Census of Agriculture were divided into strata based on: (1) The State in which they were enumer-

ated, (2) whether they were enumerated from the mail list or from the direct enumeration area sample¹, and (3) their value of agricultural sales. The level of sales used to define strata varied from State-to-State. All large farms and farms from the direct enumeration area sample with a large expansion factor were included in the sample with certainty. The size of the large or certainty farms varied from \$250,000 in West Virginia to \$5,000,000 in California.

Within each noncertainty strata, a systematic sample of farms was selected. Farms in a stratum were sorted by State, county, and approximately by ZIP code within a county. Counties were arranged geographically within each State. Samples were selected independently from each State and within each stratum of a State. A different integer sampling interval was used for each stratum.

Whole Farm Nonresponse

Each farm selected into the sample was mailed a series of report forms and letters to encourage response. All nonrespondent farms among farms in certainty strata were telephoned. When responses could not be obtained from certainty farms, information was imputed by Bureau of the Census subject matter analysts using 1978 census information and information from similar farms which did respond. Nonresponding farms among farms in noncertainty strata were enumerated on a sample basis. A sample of 1-in-6 nonresponding farms was initially selected to be enumerated.

In the nonresponse sample, an adjustment was made to the expansion factor of enumerated and imputed farms. The expansion factor was adjusted by stratum within a State, and was calculated by dividing the total of the enumerated and nonrespondent farms by the number of farms enumerated. This adjustment assumes that nonrespondents have the same characteristics as respondents and that all nonrespondents still operate farms.

Method of Estimation

Estimates were prepared by weighting the data for each farm by the initial sampling interval adjusted for nonresponse. Initial weights assigned to individual farms range from 1 to 1,312. A final expansion factor was calculated by multiplying the adjustment factor by the original expansion factor and converting the product to an integer. For final tabulation, the average weight for all farms was 69.8. The landlord units were assigned the same weights as the operators with which they were associated.

RELIABILITY

The statistics in this report are estimates derived from a sample survey. There are two types of errors possible in an estimate based on a sample survey—sampling and nonsampling. Sampling errors occur because observations are made only on a sample, not on the entire population. Nonsampling errors can

¹ Selected geographic areas completely canvassed by direct enumeration. See text of volume 1, *1978 Census of Agriculture*, for more detailed explanation.

be attributed to many sources, e.g., inability to obtain information about all cases in the sample, definitional difficulties, difference in the interpretation of questions, inability or unwillingness to provide correct information on the part of respondent, mistakes in recording or coding the data and other errors of collections, responses, processing, coverage, and estimation for missing data. Also, nonsampling errors occur in complete censuses. The "accuracy" of a survey result is determined by the joint effects of sampling and nonsampling errors.

Coverage

The target population for this survey is all census farms included in the 1978 Census of Agriculture or their successors. The population of farms from which the sample was selected was different from the target population. This difference introduces a coverage error. This coverage error is caused by several factors: (1) The list of farms from which the sample was selected was a preliminary list which did not include all farms included in the census, (2) abnormal farms were excluded from the sample, and (3) farms which went out of business after the census were dropped from the sample.

If a farm operator selected in the 1979 sample continued to operate any part of the farm he/she operated in 1978, he/she was eligible for inclusion in the survey regardless of the size of the 1978 operation. However, if the operator did not operate any part of the farm in 1979 he/she operated in 1978, the operator was requested to identify who the operator was in 1979. To avoid duplication in the sample, the "new" operator was eligible for inclusion in the survey only if he did not farm at all in 1978. By use of this successor procedure, survey estimates accounted for consolidations and splitups of farms. This permitted some "new" operators to fall into the sample, and prevented an operator from having more than one chance of being selected in the sample.

Unless directly related to a sample farm, farms starting into business after the census were not included in the survey. A total of 1,033 successors were deleted from the survey because their operators' names appeared on the 1978 census list. A total of 882 operators were included in the survey as "new" operators. Table A measures in part the coverage error associated with the survey.

Nonresponse Adjustment

Budget restrictions that prevented the enumeration of all farms in the nonresponse adjustment sample introduced a potential bias of unknown size to the survey. If the estimates are to be unbiased, the adjustment procedure used requires that on the average, nonrespondent farms be the same as respondent farms and that all nonrespondents operate farms. Since it is unlikely that this is true, a bias of unknown size and direction has probably been introduced.

Item Nonresponse and Processing Error

Respondent problems with understanding questions or lack of available records resulted in incorrect or missing responses

to questions. During processing, respondent data were examined for consistency and reasonableness. Information considered unreasonable or missing when not directly confirmable by telephone was estimated. Information was estimated in several ways: (1) from responses to related questions, (2) from data relationships of similar farms in the sample, and (3) by statistical estimation procedures. Processing errors, item non-response, and respondent problems introduced a nonsampling error. There is no measure of the size of this error.

Sampling Error

The particular sample used is one of a large number of possible samples of the same sample size that could have been selected using the same sample design. Estimates derived from the different samples would differ from each other.

The standard or sampling error of a survey estimate is a measure of the variation among the estimates from all possible samples, and thus is a measure of the precision with which an estimate from a particular sample approximates the average result of all possible samples. The relative standard error is defined as the standard error of the estimate divided by the value being estimated times 100. Table 95 provides relative sampling errors for selected items. Additional measures of relative sampling errors will be available upon request. Please direct request to the Chief, Agriculture Division, Bureau of the Census, Washington, D.C. 20233.

The standard error also partially measures the effect of certain nonsample errors but does not measure any systematic biases in the data. Bias is the difference, averaged over all possible samples, between the estimate and the true values. Obviously, the accuracy of the survey results depends on both the sampling and nonsampling errors measured by the standard error and the bias and other types of nonsampling error not measured by the standard error.

The sample estimate and an estimate of the standard error permit the construction of an interval estimate with prescribed confidence that the interval includes the average result of all possible samples (for a given sampling rate).

To illustrate, if all possible samples were selected, each of these was surveyed under essentially the same conditions, and an estimate and its estimated standard error were calculated from each sample, then:

1. Approximately two-thirds of the intervals from one standard error below the estimate to one standard error above the estimate would include the average value of all possible samples. We call an interval from one standard error below the estimate to one standard error above the estimate a 67-percent confidence interval.
2. Approximately 9/10 of the intervals from 1.6 standard errors below the estimate to 1.6 standard errors above the estimate would include the average value of all possible samples. We call an interval from 1.6 standard errors below the estimate to 1.6 standard errors above the estimate a 90-percent confidence interval.
3. Approximately 19/20 of the intervals from two standard errors below the estimate to two standard errors above the

¹Excludes abnormal farms.

estimate would include the average value of all possible samples. We call an interval from two standard errors below the estimate to two standard errors above the estimate a 95-percent confidence interval.

4. Almost all intervals from three standard errors below the sample estimate to three standard errors above the sample estimate would include the average value of all possible samples.

The average value of all possible samples may or may not be contained in any particular computed interval. But for a particular sample, one can say with specified confidence that the average of all possible samples is included in the constructed interval.

For example, an approximate 95-percent confidence interval on the number of farms in Maine in 1979 can be constructed as follows:

1. The estimate of the number of farms is 7,782 from table 1.
2. The estimate of the relative standard error of the estimated total is 11.8 from table 95.
3. An estimate of the absolute standard error of the estimate can be calculated by multiplying the estimate times the relative error of the estimate divided by 100.

$$\text{Absolute standard error} = (7,782) \times (11.8/100) = 918.3.$$

4. A 95-percent confidence interval is constructed by adding and subtracting twice the absolute standard error from the estimate.

Confidence limit

$$\text{Upper} = 9,619 = 7,782 + 2 \times (918.3)$$

$$\text{Lower} = 5,945 = 7,782 - 2 \times (918.3)$$

The estimate and confidence interval can be interpreted in the following way. The best estimate of the total farms is given by 7,782. You can be 95-percent confident that the average of all possible samples lies in the interval of 5,945 to 9,618.

Estimation of Sampling Error

Sampling error was estimated using a random group method of estimation within each stratum. When the sample was selected, each sample farm in a stratum was assigned to one of eight random groups. An estimate of the stratum total was made for each of the random groups within each stratum. The sampling error of the estimate was calculated using estimates from the random groups. The estimate of sampling error does not include adjustment for the nonresponse subsample.

SUMMARY OF FINDINGS

Changes in Farms From 1978 to 1979

In comparing the results of the 1979 survey to the 1978 census, a number of differences are apparent, some of which are due to actual changes taking place in agriculture; others to sampling error and bias which resulted from the sampling, enumeration, and processing procedures.

The greatest change was in the value of agricultural products sold, an increase of 14 percent. Farms with sales of \$200,000

or more had the highest increase, 27 percent. Farms with sales of \$20,000 to \$39,999 had the greatest decrease, 16 percent. All sales groups with less than \$40,000 had decreases.

The number of farms and land in farms decreased by 5 percent, but the value of land and buildings increased by 5 percent. A portion of this decrease resulted from the lack of ability to identify new farms starting in business in 1979. See **Sampling and Estimating Procedures**. Table B shows the survey results compared to totals from the 1978 Census of Agriculture.

Assets

Combined operator and landlord farm and nonfarm assets—These assets amounted to \$908 billion. Farm assets of \$872 billion made up 96 percent of the total. Operators held 71 percent of the combined farm and nonfarm assets, and 69 percent of the combined farm assets. Landlords were requested to report only the value of physical farm assets. These amounted to \$266 billion. (See tables 14 and 21.)

Combined operator and landlord physical farm assets—These assets are real estate, machinery, crop stored, and livestock and poultry. (See table 12.)

Table B. **Comparison of 1979 Farm Finance Survey to 1978 Census of Agriculture for Selected Farm Characteristics**

	1979 Farm Finance Survey ¹	1978 Census of Agriculture ¹	Percent change

¹Excludes abnormal farms.

²Owned and rented land reported by operators.

³Based on a sample of farms.

Real estate—The value of farm real estate reported was \$676 billion, and was 78 percent of the total value of farm assets. The value of land was 86 percent of real estate value, and 67 percent of the total farm asset value. For the survey, respondents were asked to report the estimated current market value of land including buildings. In addition, they were asked to report the value of different categories of buildings. The value of land was obtained by subtracting the value of buildings from the combined value of land and buildings.

Machinery—The value of machinery reported was \$73 billion, and was 8 percent of the total farm asset value. Survey respondents were asked to report only the value of machinery and equipment that they owned. Therefore, items rented or borrowed would not be included.

Crops stored—The value of crops stored reported was \$15 billion, and was 2 percent of the total farm asset value.

Livestock and poultry—The value of livestock and poultry reported was \$48 billion, and was 6 percent of the total farm asset value.

Assets for livestock and poultry included only those owned by operators and landlords. Assets owned by integrators and investors not participating as operators or landlords were not included. Also, operator-owned livestock in a separate feedlot on a custom feeding basis were not included as assets by either the operator or the custom feedlot.

Financial farm assets—The survey collected financial assets only from operators. These amounted to \$60 billion. (See table 14.)

Operator farm assets—These assets of \$605 billion were 94 percent of the value of operator farm and nonfarm assets. The average value per farm was \$257,000. The value per farm ranged from \$2.6 million for farms with sales of \$500,000 or more to \$93,000 for farms with sales of less than \$2,500. Farms with sales of \$100,000 or more accounted for 40 percent of the value of operator farm assets. (See table 20.)

Debts

Combined operator and landlord farm debt—The combined operator and landlord farm debt was \$111.6 billion. Commercial or savings banks were the largest lender with 24 percent of the debt and federal land banks were second with 20 percent. (See table 55.)

Operator farm debt—Operator farm debt was \$100.9 billion. Nearly 4 out of 5 farms with sales of \$40,000 or more reported debt. For all farms, 54 percent of operators reported debt averaging \$80,000 per farm and a debt to asset ratio of 24. Operators in the higher sales classes had larger debt per farm, a higher proportion of farms with debt, and higher debt to asset ratios. (See tables 2, 58, and 76.)

Real estate debt—About 858,000 operators had real estate debt of \$65.1 billion, equivalent to 65 percent of the total

operator farm debt. Federal land banks were the largest lenders with 30 percent and commercial banks were second with 17 percent. (See table 62.)

Non-real estate debt—About 903,000 operators had non-real estate debt of \$35.8 billion, equivalent to 35 percent of the total operator farm debt. Commercial and savings banks were the largest lender with 40 percent and production credit associations were second with 24 percent.

Merchants and dealers were the source of non-real estate debt for 416,000 operators. Non-real estate debt owed to merchants and dealers comprised 5 percent of total operator debt and 14 percent of non-real estate debt. (See table 63.)

Operator nonfarm debt—About 215,000 (9 percent) of farm operators reported nonfarm debt of \$8.9 billion, equivalent to 8 percent of the total operator farm and nonfarm debt. The nonfarm debt per farm reporting was \$41,000. For farms with sales of \$500,000 or more, the average was \$132,000, and for farms with sales of less than \$2,500, it was \$25,000. (See table 58.)

Balance Sheet

Of the combined operator and landlord farm assets of \$872 billion, real estate with 78 percent accounted for the major portion. The total debt-to-asset ratio and real estate debt-to-asset ratio were 13 and 11, respectively. The net worth-to-assets ratio for the survey was 87. (See table C.)

Net Worth

Of the combined operator and landlord farm and nonfarm net worth of \$787 billion, farm net worth with \$759 billion accounted for 96 percent. Operators had 66 percent of the combined farm net worth. The farm net worth of \$255 billion for landlords was based on the value of physical farm assets and farm debt reported by landlords. No data on financial farm assets, nonfarm assets, and nonfarm debt were obtained from landlords. (See tables 21, 64, 79, and 80.)

Table C. **Balance Sheet for Combined Operators and Landlords: December 31, 1979**

Non-real estate.....	37	32.9
Net worth (equity) (percentage of assets)	760	87.2

¹Operators only.

Income

The total net cash income of operators and their families was \$60 billion. Net cash farm income of \$27 billion represented 45 percent, and off-farm income of \$33 billion represented 55 percent of the total. Farms with sales of \$40,000 or more accounted for 87 percent of the total net cash farm income and 19 percent of the total off-farm income. Off-farm income as a percent of total net cash income ranged from 21 percent for farms with sales of \$40,000 or more to 94 percent for farms with sales of less than \$20,000. (See table 31.)

Off-farm income was received by 92 percent of farm operators and members of their families. The average per farm was \$15,138.

Wages and salaries from nonfarm jobs were received by 53 percent of operator families averaging \$16,934 per family, and 6 percent received wages and salaries from farmwork averaging \$8,283 per family. Income from wages and salaries amounted to \$22.3 billion and was 68 percent of total off-farm income. (See table 33.)

Expenditures

Combined operator and landlord capital purchases and operating expenses—Combined operator and landlord capital purchases and operating expenses were \$112.2 billion of which 72 percent was for operating expenses. Operators accounted for 96 percent of the total capital purchases and operating expenses, 95 percent of the capital purchases, and 96 percent of the operating expenses. (See tables 35, 40, and 48.)

Capital purchases of operators—Operators had capital purchases of \$30.2 billion. This was 28 percent of the total operator capital purchases and operating expenses and 95 percent of the combined operator and landlord capital purchases. Operators with sales of \$40,000 or more accounted for 74 percent of the value of capital purchases. (See table 41.)

Operating expenses of operators—Operators reported operating expenses of \$77.3 billion. This was 72 percent of the total operator capital purchases and operating expenses and 96 percent of the combined operator and landlord operating expenses. Operators with sales of \$40,000 or more accounted for 86 percent of the operating expenses. (See table 41.)

Credit Flow

The data on credit flow measures the amount of credit used by farm operators and landlords to finance capital purchases and operating items.

The combined operator and landlord funds borrowed for agricultural operations was \$41.3 billion of which \$33.2 billion (98 percent) was for specified items and \$8.0 billion (2 percent) for unspecified or general purposes.

For operators and landlords combined, 52 percent of the specified capital purchases and 21 percent of operating expenses were financed. Funds borrowed for operating expenses accounted for 50 percent of the total funds borrowed for specified purposes.

Farm operators accounted for 98 percent of funds borrowed for specified purposes. They financed 52 percent of capital purchases and 21 percent of the operating expenses. Landlords financed 40 percent of capital purchases and 5 percent of operating expenses. (See tables 35, 41, and 48.)

Farm and Ranch Land Sold

Operators and landlords combined sold 9.2 million acres for \$8.1 billion. Land sold for farm and ranch use was 86 percent of the total acreage sold and other uses was 14 percent. Operators sold 66 percent of the acreage. The combined acreage sold for an average of \$881 per acre. (See tables 1 and 10.)

Land Acquisition

For operators reporting, 39 percent acquired 40 percent of their land prior to 1960. The second largest number (27 percent) acquired 17 percent of their land during 1970 through 1974. However, from 1970 to 1978, 32 percent of owned land in farms was acquired. During both 1970 to 1974 and 1975 to 1978, nearly 1 in 4 owner-operator acquired land. (See table 4.)

For operators reporting, 67 percent purchased 59 percent of their land from nonrelatives. The second largest number (31 percent) purchased 22 percent of their land from relatives. (See table 6.)

For landlords reporting, 82 percent purchased 75 percent of their land. The second largest number (24 percent) acquired 25 percent of their land by inheritance or gift. (See table 10.)

Real Estate Taxes

The data on real estate taxes refer to taxes levied in 1979 on privately owned farm and ranch land reported in the survey.

The total real estate tax was estimated by applying the tax rate per \$100 of market value of land and buildings for farms reporting taxes to the market value of taxable owned land and buildings for all farms. To get the tax rate per \$100 of market value of land and buildings, the rate was determined for farms reporting taxes by tenure. Then, these rates were applied to all farms broken down by tenure.

Real estate taxes on taxable land and buildings in the United States for 1979 were estimated at \$4,367 million. This was the estimated tax bill for 903.6 million acres of privately owned land used for agricultural operations. This acreage, including buildings, had an estimated market value of \$670.9 billion. Real estate taxes were equivalent to a tax of \$4.83 per acre or \$0.65 for each \$100 of market value. (See table 85.)

Off-Farm Work

To the question of off-farm work for operator and/or spouse, 2.2 million (94 percent) of the 2.4 million farm operators responded. Of these, 55 percent reported either operator and/or spouse worked off the farm.

For farms with sales of less than \$20,000, 67 percent reported either operator and/or spouse worked off the farm, compared to 34 percent for farms with sales of \$40,000 or more.

The most frequently reported off-farm employment was as an employee of private business, 51 percent for operators and 56 percent for spouses. The most prevalent off-farm occupation for operators was craftsmen and kindred workers, 21 percent. However, for farms with sales of \$40,000 or more, the most frequently reported occupation for operators was managers and administrators (except farm), 21 percent.

For spouses, the most frequently reported occupation was clerical and kindred workers, 26 percent, followed by service workers, 17 percent. (See table 90.)

Household Characteristics of Operators

A total of 6.9 million persons were reported in farm operator households. Persons under 16 years of age accounted for 22.8 percent of the total. There was an average of 2.9 persons per household. About 51 percent of households had an average of 1.7 persons, and 16 percent an average of 5.8 persons.

Farms with sales of less than \$20,000 had an average of

2.8 persons per household, and accounted for 58 percent of persons in all households. Farms with sales of \$40,000 or more had an average of 3.3 persons per household, and accounted for 31 percent of persons in all households.

For all households, 66 percent of operators and 76 percent of spouses completed 12 years or more of school. For farms with sales of less than \$20,000, 61 percent of operators and 71 percent of spouses completed 12 years or more of school. The corresponding percentages for farms with sales of \$40,000 or more was 77 for operators and 86 for spouses.

Total net cash income per farm was \$25,000 for all farms, \$17,000 for farms with sales of less than \$20,000, and \$46,000 for farms with sales of \$40,000 or more. Net cash farm income per farm was \$12,000 for all farms, \$1,000 for farms with sales of less than \$20,000, and \$36,000 for farms with sales of \$40,000 or more. Off-farm income per farm was \$15,000 for all farms, \$17,000 for farms with sales of less than \$20,000, and \$12,000 for farms with sales of \$40,000 or more. (See table 91.)

APPENDIX Report Forms

DUE DATE: 20 DAYS AFTER RECEIPT OF FORM

Form Approved: O.M.B. No. 41-579057

NOTICE Response to this inquiry is required by law (title 13, U.S. Code). By the same law your report to the Census Bureau is confidential. It may be seen only by sworn Census employees and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.

FORM 79-A9A
(11-9-79)

U.S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

In correspondence pertaining to this report, please refer to the 11-digit Census File Number (CFN) in label below

FARM FINANCE SURVEY — 1979 OPERATOR'S REPORT

COMPLETE AND RETURN TO  Bureau of the Census
1201 East Tenth Street
Jeffersonville, Indiana 47132

The financial needs of the American farmers are changing.

It is important to know facts such as:
The relative debt burden of farmers
That sufficient loan funds are available from the different lenders

The capital investment, operating expenditures, and the amount and sources of income of farmers

These and many other financial problems can be examined only by obtaining information from you and the other survey respondents. Please give the best answers you can, making estimates when you do not have exact figures. Your answers will be combined with others so that confidentiality is maintained. Please answer each question that applies to you.

CENSUS USE ONLY	035	036	037	038
	039	040	041	042

(Please correct any error in name and address, including ZIP code.)

Section 1 ACREAGE in 1979 and CURRENT MARKET VALUE of land and buildings (See instruction sheet.) Include all cropland, pastureland, rangeland, woodland, wasteland, idle land, house lots, etc.

1. All land owned None
2. All land rented or leased FROM OTHERS, including land worked on shares, leased Federal, State, and railroad land, and land used rent free. (Do NOT include land used on a per-head basis under a grazing permit.) Also complete item 5 below
3. ALL land rented or leased TO OTHERS, including land worked on shares by others and land subleased

Number of acres	Estimated current market value of these acres including the dwellings and other buildings on them	
	Dollars	Cents
043	044	
	\$	
045	046	
	\$	
047	048	
	\$	
049	These are the ACRES in "THIS PLACE" for this Census report	

4. TOTAL ACRES IN "THIS PLACE" (Please ADD acres owned (item 1) and acres rented (item 2), then SUBTRACT acres rented to others (item 3), and enter your answer in this space.)

"THIS PLACE" means your farm or ranch, feedlots, poultry houses, greenhouses, and/or any other agricultural operations.

5. If you rented land FROM OTHERS (item 2 above), please enter the following information for each landlord.

Name of landlord	Mailing address of landlord	Number of acres rented	Rental arrangements in 1979 — Mark (X) all that apply			
			Share of crops	Share of livestock or products	Cash as rent	Other arrangements
First name, middle initial, last name	Number and street or rural route and box number	052	053			
	Post Office State ZIP code		1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
First name, middle initial, last name	Number and street or rural route and box number	054	055			
	Post Office State ZIP code		1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
First name, middle initial, last name	Number and street or rural route and box number	056	057			
	Post Office State ZIP code		1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
First name, middle initial, last name	Number and street or rural route and box number	058	059			
	Post Office State ZIP code		1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
First name, middle initial, last name	Number and street or rural route and box number	060	061			
	Post Office State ZIP code		1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>

List any additional landlords on continuation sheet.

6. Of the land you rented or leased to others (item 3 above), how many acres did you own? None

Number of acres	Current market value	
	Dollars	Cents
062	063	
	\$	

PLEASE READ

You may be able to skip most of this form if

- a. All the land you owned or rented was worked on shares or rented to someone else.
 - b. There were no crops or livestock in 1979 on the acres in THIS PLACE (item 4).
 - c. The land you operated prior to 1979 has been sold to someone else.
- If a, b, or c apply to your operation, please explain in section 14, complete section 15 and mail back the report form in the return envelope.

7. How many set aside acres did you have in the Federal Farm Program in 1979? None 064 _____ Acres

8. Was any farm or ranch land sold by you in 1979 for —

- a. Farming or ranching purposes? None
- b. Other purposes?

Acres	Sales value	
	Dollars	Cents
065	066	
	\$	
067	068	
	\$	

9. If you rented land from others (item 2), how much cash rent did you pay for the year 1979? .. None

Acres	Cash rent	
	Dollars	Cents
069	070	
	\$	

10. Is this farm or ranch operated by a hired manager? (See enclosed instruction sheet.) 071

1 YES 2 NO

Section 2 PURCHASES, EXPENDITURES AND CREDIT USED DURING 1979 FOR THE AGRICULTURAL OPERATION

These items concern the kinds of purchases and expenditures made and the amount of credit used during 1979 for agricultural operations on this place, section 1, item 4. In column 1, report the total cost of the purchases or expenditures. In column 2, report the amount of credit used, if any, for the purchases and expenditures. (See enclosed instruction sheet.)

▶ **NOTE** — For each expense or purchase in column 1, complete column 2 either with the dollar amount or mark (X) in the "No credit used" box.

■ **Agricultural capital purchases for this place during 1979**

- 1. Purchases in 1979 of land, including buildings — *Include only land in this place as reported in section 1, item 4.*
- 2. Expenditures for land and irrigation improvements including land preparation, well drilling, ponds, drainage, roads, feedlots, fences, trench silos, lagoons, etc.
- 3. Expenditures for buildings and structures — *Include new or additions to dwellings, barns, shelters, milking parlors, hog houses, poultry houses, crop storage, silos, and others. Exclude repairs.*
- 4. Purchases of tractors and farm machinery at net cost — *(Total cost minus trade-in values)*
 - a. New
 - b. Used
- 5. Purchases of trucks and autos at net cost — *(Total cost minus trade-in values)*
 - a. New
 - b. Used
- 6. Purchases of breeding livestock and dairy cows and heifers
- 7. All other agricultural capital purchases — *Include movable irrigation equipment and machinery such as pipes, siphons, nozzles, pumps and engines; other motor driven vehicles such as airplanes or other special use vehicles that were used on this place. Exclude capital purchases covered above.*

■ **Agricultural operating expenses and other purchases for this place during 1979. Do not include here depreciation, income taxes, cash rent; expenditures for the purchase of land, buildings, or machinery; expenditures for the farm dwelling including repairs, taxes, insurance, and other items; also exclude expenses paid by landlords, and value of items furnished by contractors.**

- 8. Expenditures for feed — grain, hay, silage, mixed feeds, concentrates, etc.
- 9. Purchases of livestock and poultry other than breeding stock and dairy cows and heifers
- 10. Purchases of fertilizer
- 11. Expenditures for hired wages and contract labor — *Report gross cash payments to employees, including paid family members, before deductions for Social Security, taxes, insurance premiums, etc.*
- 12. Purchases of gasoline, diesel fuel, LP gas, other fuel, motor oil, and grease for farm use only
- 13. All other agricultural operating expenditures such as machine hire, customwork, seeds, pesticides, real estate and personal property taxes, utilities; upkeep of farm buildings, machinery, fences, drains and irrigation systems; interest and other finance charges; storage charges; lime, soil conditioners, etc.
- 14. Funds borrowed during 1979 for any farm purpose other than listed above (such as replenishment of working capital or to increase your bank balance)

Section 3 DEBTS AS OF DECEMBER 31, 1979
(See enclosed instruction sheet.)

The debts to be reported are those owed as of December 31, 1979 arising from the operation of the acres in section 1, item 4.

■ Source of Debt

1. Federal Land Banks (or Federal Land Bank Associations)
2. The Farmers Home Administration
3. Small Business Administration
4. Insurance Companies — Exclude premiums due
5. Commercial banks and savings banks (national or State banks, trust companies, etc.)
6. Individuals from whom you bought part or all of this acreage —
 - a. Under a mortgage or deed of trust
 - b. Under a land purchase contract
7. Production credit associations
8. Other lending institutions (mortgage companies, real estate agents or dealers, savings and loan associations, agricultural credit corporations, finance companies, State or county agencies, credit unions, livestock loan companies, etc.)
9. Merchants and dealers, including cooperatives, mail order companies, farm machinery companies, and other manufacturers, (exclude debts on 30-day accounts) for purchase of —
 - a. Tractors and farm machinery, including repairs
 - b. Autos and trucks, including repairs
 - c. Gasoline, oil, and other fuel
 - d. Feed, seed, and fertilizer
 - e. Livestock and poultry
 - f. All other purchases for the operation of this acreage from merchants and dealers, including building supplies, fencing, hardware, customwork, and similar purchases
10. Any other individuals, a relative, a friend, a landlord, an estate, etc. — Exclude debts on 30-day accounts.
11. Commodity Credit Corporation loans:
 - a. On crops
 - b. For crop storage facilities
12. Unpaid bills for veterinary services, utilities, past due taxes or insurance premiums, and debts for other purposes relating to this acreage — Include all debts on account not expected to be paid in 30 days.

AMOUNT OWED ON DECEMBER 31, 1979 (Exclude Interest)

	Total amount owed <i>For each entry in this column please answer columns 2 and 3</i>			Amount of debt secured by real estate <i>Include debts secured by mortgages on land and buildings, deeds of trust, land purchase, etc.</i>			Amount of debt not secured by real estate <i>Include debts secured by notes, machinery, crops, or other non-real estate assets, and unsecured debts.</i>

Section 4 MARKET VALUE OF AGRICULTURAL PRODUCTS SOLD DURING 1979
(See enclosed instruction sheet.)

1. What was the total market value of farm products sold from this place in 1979? — Include the value of the landlord's and/or contractor's share, estimating if necessary. Include value of Government CCC loans, but exclude sales of forest products.

None	Dollars	Cents
<input type="checkbox"/> 161	\$	
<input type="checkbox"/> 162	\$	

 - a. If you rented or leased land from others on a share basis, what was the value of your landlord's share of the total sales reported in item 1 above?

None	Dollars	Cents
<input type="checkbox"/> 164	\$	
<input type="checkbox"/> 165	\$	
<input type="checkbox"/> 166	\$	

Section 6 INCOME AND EXPENSES FROM FARM-RELATED SOURCES IN 1979
(See enclosed instruction sheet.)

■ Part A — Income from Farm-Related Sources
Report amount received before taxes and expenses.

	Farm-related income	
	Dollars	Cents
1. Customwork and other agricultural services provided for farmers and others — plowing, planting, spraying, harvesting, preparation of products for market, etc. (If customwork is a separate business, report in section 10, item 1b.)	<input type="checkbox"/> 167	\$
2. Recreational services — providing hunting, fishing, picnicking, camping, boarding and lodging, or other recreational facilities on this place	<input type="checkbox"/> 168	\$
3. Payments you received for participation in Government farm programs — Do not include Commodity Credit Corporation loans.	<input type="checkbox"/> 169	\$
4. Gross cash rent or share payments received from renting out farm land or payments received from lease or sale of allotments — Include payments for livestock pastured on a per-head basis, per-month basis, per-pound basis, etc.	<input type="checkbox"/> 170	\$
5. Sales of forest products (including maple products, naval stores, etc.)	<input type="checkbox"/> 171	\$
6. Other business or source of income which is conducted on or CLOSELY RELATED to the AGRICULTURAL OPERATIONS on this place — Specify kind	<input type="checkbox"/> 172	\$

■ Part B — Expenses for Farm-Related Income Sources

	Farm-related expenses	
	Dollars	Cents
1. For farm-related sources reported in items 1 through 6 above, enter the total estimated expenses paid by you and others in 1979 — Include all cash operating expenses, taxes, interest, insurance, etc. Do not include expenses already reported in section 2.	<input type="checkbox"/> 173	\$

Section 5 PRODUCTION CONTRACTS

Did you have any contract to produce any crop, poultry, or livestock products in 1979? — Do not include marketing only contracts. (See enclosed instruction sheet.)

163 YES — Complete this section
 NO — Go to section 6

Section 7 NET CASH FARM INCOME OF PARTNERSHIPS (See enclosed instruction sheet.)

Did you raise or produce any agricultural products with others under a partnership in 1979?

031 YES — Complete this section
 NO — Go to section 8

1. What proportion of the net cash farm income (net sales of agricultural products plus net income from farm-related sources) was received by the senior partner?

<input type="checkbox"/> 174	<input type="checkbox"/> 1	Less than 10 percent
	<input type="checkbox"/> 2	10 to 29 percent
	<input type="checkbox"/> 3	30 to 49 percent
	<input type="checkbox"/> 4	50 to 69 percent
	<input type="checkbox"/> 5	70 percent and over

Section 8 TAXES

Did you own any farm or ranch land in 1979?
 032 YES — Complete this section (See enclosed instruction sheet.)
 2 NO — Go to section 9

1. What was the number of acres of your farm or ranch land as shown on your tax bill(s) for 1979? 175 Acres

	None	Dollars	Cents
2. What was the assessed value of land, buildings, and other improvements shown on your real estate tax bill(s) for 1979?	<input type="checkbox"/>	176	
3. What was the total amount of real estate taxes (land, buildings, and other improvements) payable by you as shown on your tax bill(s) for 1979?	<input type="checkbox"/>	\$ 177	

Section 9 ASSETS OWNED BY THE FARM OPERATOR
 (See enclosed instruction sheet.)

■ Items owned — Exclude value of land reported in section 1.

	None	Estimated market value as of December 31, 1979	
		Dollars	Cents
1. Dwellings	<input type="checkbox"/>	178	
a. Farm dwellings for hired laborers	<input type="checkbox"/>	\$	
b. Operator's dwelling if on this place (section 1, item 4) (If not on this place report in item 21 below.)	<input type="checkbox"/>	179	
2. All other buildings except dwellings	<input type="checkbox"/>	180	
3. Autos	<input type="checkbox"/>	181

7. Crops stored: a. On-farm b. Off-farm Include crops under Government CCC loans.	<input type="checkbox"/>	185	
8. Beef animals	<input type="checkbox"/>	186	
9. Dairy animals	<input type="checkbox"/>	187	
10. Hogs and pigs	<input type="checkbox"/>	188	
11. Sheep and lambs	<input type="checkbox"/>	189	
12. Poultry — Include layers, broilers, turkeys, etc.	<input type="checkbox"/>	190	
13. Other livestock (horses, mink, bees, fish, rabbits, etc.)	<input type="checkbox"/>	191	
14. Money owed to you	<input type="checkbox"/>	192	
15. U.S. Savings Bonds	<input type="checkbox"/>	193	
16. Other bonds, corporate stocks, and certificates of deposit	<input type="checkbox"/>	194	
17. Cash values of life insurance	<input type="checkbox"/>	195	
18. Money in checking and savings accounts in banks	<input type="checkbox"/>	196	
19. Money in savings and loan associations and other savings accounts	<input type="checkbox"/>	197	
20. Cash and currency on hand	<input type="checkbox"/>	198	
21. Nonfarm assets owned and debts — Include nonfarm property such as off farm dwellings, cotton gins, stocks of cooperative organizations, motels, stores, vehicles, machinery, and equipment for nonfarm uses, etc.	<input type="checkbox"/>	199	
	<input type="checkbox"/>	200	
	<input type="checkbox"/>	201	

Estimated market value of these assets (as of December 31, 1979) \$

Debts related to these assets (as of December 31, 1979) \$

Section 10 OFF-FARM INCOME DURING 1979
 (See enclosed instruction sheet.)

1. How much did you and members of your family living in your household receive in 1979 from each of the following sources?

	None	Dollars	Cents
a. Cash wages, salaries, tips, Armed Forces pay, commissions, piece-rate payments, and cash bonuses (report amount before deducting income taxes and other withholding items).	<input type="checkbox"/>	229	
(1) Nonfarm jobs or professions	<input type="checkbox"/>	\$	
(2) Farm work — Exclude customwork reported in section 6, Item 1.	<input type="checkbox"/>	230	
b. Operation of a non-farm-related business (not reported in section 6) or professional practice. — Report NET after cash expenses.	<input type="checkbox"/>	231	
c. Retirement and/or disability —	<input type="checkbox"/>	\$	
(1) Social Security	<input type="checkbox"/>	232	
(2) Other public (government retiree, military, or railroad) veterans payments	<input type="checkbox"/>	\$	
(3) Private pensions	<input type="checkbox"/>	233	
d. Public assistance, SSI (Supplemental Security income), welfare benefits, unemployment compensation	<input type="checkbox"/>	\$	
e. Interest	<input type="checkbox"/>	234	
f. Dividends	<input type="checkbox"/>	\$	
g. Income from estates or trusts, net cash rental income from nonfarm property, net royalties, or lease payments for mineral rights	<input type="checkbox"/>	235	
h. Annuities, alimony, regular contributions from persons not living in the household, and other money income, from any other source	<input type="checkbox"/>	\$	

Section 11 WHEN AND HOW OWNED LAND OPERATED WAS ACQUIRED

	None	Acres
1. Copy reported acres from section 1, item 1	<input type="checkbox"/>	270
2. Copy reported acres from section 1, item 6	<input type="checkbox"/>	271
3. Subtract item 2 from item 1, this is the "owned land operated" by you	<input type="checkbox"/>	272

If "owned land operated" is greater than zero — complete this section, otherwise skip to section 12.

4. When did you purchase or acquire the "owned land operated"? Please enter acres by years listed below.

	None	Acres
a. During 1979	<input type="checkbox"/>	280
(1) Was any of the land purchased in 1979 financed by a mortgage on land you already owned? 281 1 <input type="checkbox"/> Yes 2 <input type="checkbox"/> No		
b. 1975 through 1978	<input type="checkbox"/>	282
c. 1970 through 1974	<input type="checkbox"/>	283
d. 1965 through 1969	<input type="checkbox"/>	284
e. 1960 through 1964	<input type="checkbox"/>	285
f. Prior to 1960	<input type="checkbox"/>	286
g. TOTAL (Should equal item 3 above)	<input type="checkbox"/>	287

5. How did you purchase or acquire the "owned land operated"? Please enter acres by appropriate source.

	None	Acres
a. Purchase from non-relative	<input type="checkbox"/>	288
b. Purchase from a relative	<input type="checkbox"/>	289
c. Inherited or gift	<input type="checkbox"/>	290
d. Other — Specify	<input type="checkbox"/>	291
e. TOTAL (Should equal item 3 above)	<input type="checkbox"/>	292

Section 12 OFF-FARM WORK AND EDUCATION
(See enclosed instruction sheet.)

FORM 79-A9A(D)
(11-14-80)U. S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

INSTRUCTION SHEET

1979 FARM FINANCE SURVEY

GENERAL INFORMATION

To make recordkeeping more economical, every case drawn in the Farm Finance Survey has a separate Census File Number. In order to close out the survey, we need a reply from everyone receiving the report form, whether agricultural operations were conducted in 1979 or not. Please follow the instructions given below for completing section 1. You will then be able to determine what additional information is to be provided.

1. The enclosed report form may contain sections and inquiries which do not apply to you. Where this is the case, you may simply mark the "None" or "No" box and go on to the next item or section.

2. If You Receive More Than One Report Form for the 1979 Farm Finance Survey

If you had multiple farming operations, you should complete a report form for EACH SEPARATE and DISTINCT production unit (farm, ranch, feedlot, greenhouse, etc., for which you maintained SEPARATE records of operating expense and sales, livestock and other inventories, crop acreages, and production).

If you received more than one report form and you DID NOT have multiple farming operations, complete only ONE report form for your place. Near the address label of each extra report form write "Extra" and the 11-digit Census File Number from the label of the report form you complete. Return the extra report(s) in the same envelope with your completed report form, so that we can remove the extra addresses from our mail register.

3. Partnership Operations

Complete only ONE report form for the entire partnership farm and ranch operations, including all partners' shares on the same report. If two or more report forms were received for the partnership see item 2 above.

A partnership is an association of two or more persons who have agreed (informally or under legal contract) on the amount of their contributions or profits.

Co-ownership of land by husband and wife or joint filing of income tax forms does not constitute a partnership unless an agreement to share contributions, decisionmaking, profits, and liabilities also exists. The "Senior Partner" should complete the report form for this operation. Consider the "Senior Partner" as the person mainly in charge of the agricultural operation on this place. If partners share the work equally, consider the oldest individual as the "Senior Partner."

4. How to Enter Your Response on the Report Form

To make tabulation easier and more accurate, please enter your answers in the proper spaces, on the correct lines, and in the units requested, i.e., dollars, acres, etc. Write any explanation outside the answer spaces, in the remarks section, or on a separate piece of paper.

If you do not recall exact figures, please give your best estimate. You may indicate "Est." (for estimated) beside the answer, if you like. For all dollar items, report whole dollars, although a "Cents" column is provided for those who wish to report cents.

COMPLETING THE REPORT FORM

Section 1 — Acreage in 1979 and Current Market Value of Land and Buildings

This section determines the land for which you should report agricultural activities. It also provides space for reporting value of land and buildings, names and addresses of landlords, and other land-related items.

Changes in the Acres Operated in 1979 — Report all land that was associated with your agricultural operation in 1979 even if some or all of it was no longer a part of your operation on December 31, 1979.

If you had agricultural operations at any time during 1979, but quit farming before December 31, 1979, report your 1979 operations and sales for that land for the portion of the year that you operated. Normally you would not have any inventory values for poultry, livestock, machinery, and equipment to report. Please explain in section 14 that you quit farming or ranching during 1979 and give the approximate date.

If you acquired land for agricultural operations, but did not use it for livestock and crop production, include that land in section 1. Please explain the changes in acres if necessary in section 14.

Completing Items 1, 2, 3, and 4 of Section 1 — Use items 1, 2, and 3 to determine the total acres of land for which you should complete the census report form. Include all land with which you were associated in 1979, regardless of location or use. Do not include holdings of residential property not associated with agricultural operations. Report all land in whole acres in this section. If you used less than one acre, report it as one acre.

Item 1 — Land Owned — Report all land owned and associated with agriculture in 1979 whether held under title, purchase contract or mortgage, homestead law, or as heir or trustee of an undivided estate, by you and/or your spouse, or by the partnership, corporation, or organization for which you are reporting.

Item 2 — Land Rented or Leased FROM Others — Report all land rented by you even though the landlord may have supplied equipment, fertilizer, or other materials and/or some supervision of the work.

INCLUDE in item 2 —

- a. Land (for agricultural uses) that you rented FROM others for cash payments
- b. Land worked on a share basis
- c. Land (owned by someone else) which you used rent-free
- d. Federal, State, Indian, or railroad land rented or leased by the acre

DO NOT INCLUDE in item 2 — Land used on a per-head or animal unit license or permit basis, such as land used under section 3 of the Taylor Grazing Act, National Forest Land, or Indian Reservation Permit Land.

Item 3 — Land Rented TO OTHERS — Cash tenants, share tenants, and share croppers are farm operators for census purposes and are responsible for reporting all land they operate.

INCLUDE in item 3 —

- a. Owned land rented TO others for cash or a share of the crops or livestock
- b. Land which you rented from others and then subleased to others in 1979
- c. Land rented out for residential or other nonfarm purposes, if it was part of the land reported in items 1 or 2
- d. Land worked for you by someone else on a share-of-crop basis
- e. Land which you allowed others to use rent-free

Note: In the remaining sections (except section 8) of the questionnaire DO NOT report any items relating to the land reported in item 3 "Land rented or leased TO others for all of 1979." Operations on this land should be reported by the individual tenant(s).

Item 4 — Acres in This Place — This is the sum of the land that you owned in 1979 (item 1), PLUS the land that you rented FROM others (item 2), MINUS the land that you rented TO others (item 3). It is very important that you report this figure correctly (even if "0" acres), since much of the form applies only to the resulting net figure — the "Acres in This Place."

"Zero Acres in Place" — Should you complete the rest of this form?

If you yourself had crop or livestock activities on the land for any portion of the year, you should complete the rest of the form. See "Changes in Acres Operated in 1979" above.

If all your land was operated by a renter or sharecropper for all of 1979, you do not have to complete the entire form. In this case, you should:

- a. Explain in section 14 that "All land was rented out," and give the name and address of the renter or sharecropper in 1979.
- b. Complete section 15 with name, date, and telephone number.

If for any other reason you had no agricultural operations during 1979:

- a. Explain briefly in section 14, "Sold Farm," "Retired," etc., and give the approximate date that you quit operating. If you sold your farm, please give the name and address of the current owner or operator, if known.

b. Complete section 15 with name, date, and telephone number.

Mail the form in the return envelope provided.

Value of Land and Buildings — Please give your best estimate of the current market value of the land, including all permanent buildings and permanently attached or built-in equipment.

Include the value of the dwelling(s) on the place and of all farm buildings such as barns, poultry houses, fruit packing sheds, vegetable sheds, etc.

Include the value of attached or built-in machinery and equipment which would normally be included with the sale of the farm or ranch such as:

- Crop drying equipment (not portable)
- Tobacco curing equipment
- Stationary feed grinding and mixing equipment
- Automatic feeding and watering equipment
- Cages and pens, used for confinement of livestock and poultry
- Cold storage facilities for fruit, vegetables, etc.
- Stationary hatchery equipment
- Stationary greenhouse heating and watering equipment

Exclude the value of portable equipment and machinery.

Do not include the value of major agricultural manufacturing or processing plants, such as cotton gins or sugar mills, that may be located on the place, nor the value of other buildings used for nonagricultural purposes, such as retail stores, filling stations, factories, motels, etc.

Hired Manager — A hired manager is a person who is paid a salary or wage (and sometimes a commission) to operate a farm or ranch for an individual or family, a corporation, an institution, or other organizations. The manager is often responsible for purchases, sales, making decisions involving the crop or livestock operations for the farm or ranch, and sometimes supervises others in performing these operations.

As such, the manager is the person in charge of the place he or she manages. Do not confuse a hired manager with a foreman, caretaker, share operator, or hired person who merely carries out the employer's instructions.

Section 2 — Purchases, Expenditures, and Credit Used During 1979 for the Agricultural Operation

Do not include any of the following kinds of expenditures in this section:

- Expenditures on farm property rented to others
- Expenditures on nonfarm property
- Expenditures made by landlord(s)
- Expenditures related to nonfarm activities (trading and speculation or livestock dealer activities)

Column 1 — Report all purchases or expenditures made for the agricultural operation during 1979. Include sales taxes, but exclude finance charges. Finance charges should be included in item 13. Report the costs of items minus trade-in allowed. Mark (X) the box in the "None" column if you had no expenditures for the items in column 1.

Column 2 — Report the total amount of credit obtained for more than 30 days at time of purchase from seller or other lender (not the amount remaining to be paid at the end of 1979). Mark (X) the box in the "No Credit Used" box in column 2 if you paid in cash or check within 30 days of purchase.

Hired Labor — Expenditures for hired labor should include gross wages or salaries, commissions, paid bonuses, and leave pay before deductions, plus the value of benefits paid by you — Social Security taxes, unemployment insurance, etc. Do not include room and board, house rent, or other items paid in kind.

If during the year you borrowed funds for general farming or ranching operations and cannot readily state the specific purpose for which the funds were used, report the amount borrowed in item 14, column 2.

Section 3 -- Debts as of December 31, 1979

Report all debts owed as of December 31, 1979, related to the agricultural operations on this place.

For debts covering more land than the acres in this place, report your estimate for that part of the debt applying only to this place. The share to be reported should be estimated in proportion to the market values of the properties. If you cannot allocate debt between owned land reported in section 1, item 4, and owned land rented to others, report the total debt for owned land, and explain in "Remarks" in section 14. Other debts should also be prorated if they relate only in part to the agricultural operations on this place.

Do not include any of the following kinds of debts:

Debts of farm property rented to others
Debts on nonagricultural property such as cotton gins, canning factories, sugar mills, motels, stores, etc.
Your landlord(s) share of any debts
Charge accounts that are usually paid in full each month (debts owed for less than 30 days should not be reported)

For each of the specified lending sources to which no debt was owed on December 31, 1979, mark (X) the small box in the "None" box for column 1.

Column 1 -- Total amount owed -- For each source of debt, the entry for column 1 should be equal to the sum of the debts reported in columns 2 and 3. If all of the debt from a source is secured by real estate, the entry in this column should be the same as the entry in column 2. Likewise, if none of the debt is secured by real estate, the entry should be the same as the entry in column 3.

Column 2 -- Amount of debt secured by farm real estate -- For each source, report as of December 31, 1979, the amount of debt that was secured by all or part of the real estate in this place. Include debts secured entirely by mortgages (first, second, or third), deeds of trust, and land purchase contracts. Also include in this column debts secured in part by the real estate in this place and in part by chattel mortgages or liens on livestock, poultry, equipment, or crops.

Column 3 -- Amount of debt not secured by farm real estate -- For each source, report as of December 31, 1979, the amount of debt arising from the operation of this place that was not secured by farm real estate. Include unsecured debts and debts secured entirely by chattel mortgages and crop liens. Also include unpaid bills and accounts which you owed for a period of more than 30 days, as of December 31, 1979.

Section 4 -- Market Value of Agricultural Products Sold

Report the gross value of all crops, livestock, poultry and their products sold from this place in 1979. Reasonable estimates are acceptable.

INCLUDE --

Calendar Year -- Report all sales in calendar year 1979 regardless of the year produced.

Shares -- If land was rented on a share basis or worked on share for others, include the value of the landlord's share of any products removed from this place. Estimate the equivalent market value, if necessary.

Partnership -- If the farm or ranch is operated as a partnership, report the total value of all products sold from the place for all partners.

Government Loans -- Consider the value of a crop placed under Government loan or seal in 1979 as sold.

Co-op and Pool-type Arrangements -- If a crop was sold through an organization which makes payments in several installments over a period of time, report the total value received in 1979 regardless of the crop year.

Contract Production -- For products produced under a contract or agreement, report an estimate of the market value of the product at the time it was removed from this place even though you may have received only a portion of this value.

Sales by Other Household Members -- Include the sales of products made from the place by other household members, such as 4H projects, etc.

EXCLUDE --

Nonfarm Activities -- Sales of nonfarm-related businesses or activities such as livestock dealer activities. For example, do not include the value of animals purchased and resold within 30 days.

Home Use -- Do not include the value of home use.

Forest Products -- The value of forest products sold should be reported in section 6, item 5.

Sales From Other Places -- Exclude farm sales from land rented to others or from livestock held on or sold from someone else's farm or ranch.

Section 5 -- Contracts

Many farm products are produced and marketed under a contract or binding agreement between the farm operator (producer) and the person who buys or uses the farm product. It may be a production contract, a marketing contract, or a combination of both.

Production contracts usually specify the kind and/or amount of farm products to be produced and may specify variety or breed, the operations to be performed during production, and the inputs and technical assistance to be supplied by the contractor.

Marketing contracts usually specify the kind and/or amount of farm products to be delivered, but usually do not specify the particular operations or methods to be used in production, or furnish inputs such as feed, seed, labor, or equipment.

For each commodity or product produced under production contract, report the dollar amount you received from the contractor in item 1. In item 2, report an estimate of the total market value of the products you produced under contract. In item 3, report an estimate of the cost of the items and services provided by the contractor.

Do not include contracts made by you for services (customwork, hauling, etc.) or to produce farm items for you wherein you are the purchaser rather than the supplier of the products.

If a sales contract or agreement provides also for supplying or furnishing feed, seed, labor, or equipment, report it as a production contract. Do not report contracts or agreements which do not provide specifically for the production of agricultural products.

Section 6 -- Income and Expenses From Farm-Related Sources in 1979

Items 1, 2, and 6 refer only to those income producing activities for which you use part of the land, machinery, equipment, labor, or capital normally used on this place, and which you do not consider as entirely separate from your farming activities. Report gross amount received before taxes and expenses.

Do not report income or expenses for customwork or agricultural services provided for others if operated as an entirely separate business from your agricultural operations. The net income from any such separate business should be reported in section 10, item 1b, Off-Farm Income.

In item 3, report any payments you received in 1979 from the following government farm programs:

Wheat, rice, feed grains, and upland cotton target price program
Grain storage payments
Special crop acreage grazing and hay program
Cropland adjustment program
Land diversion program
Disaster payments program
Dairy indemnity payment program
Beekeeper indemnity payment program
Emergency feed program

Section 7 -- Net Farm Income of Partnerships

Report the proportion of the total net cash farm income received from this place by the operator of a partnership (the senior partner).

Consider the senior partner as the person mainly in charge of the agricultural operations. If the partners share the work equally, consider the oldest as the senior.

The net cash farm income is calculated by taking the gross sales of agricultural products of the farm, adding the gross income from farm-related sources, and subtracting the cash farm operating expenses and the cash operating expenses for farm-related income sources.

Section 8 -- Real Estate Taxes

The tax information which is to be reported in this section are those taxes levied on farm and ranch land, buildings, and other improvements, as reported on your tax bill for the year 1979.

If you have more than one tax bill (example, county, State, school district, etc.) for the same acres

- Include the acreage only once in item 1
- Report in item 2 the largest assessed value for any of the individual tax bills
- Report the sum of the taxes from all bills in item 3

Do not include taxes on nonfarm property, such as land and buildings used for cotton gins, sugar mills, canning factories, motels, stores, etc. For taxes that are levied on both agricultural and nonagricultural property, estimate and report only that portion of the taxes applying to your farm or ranch. Also exclude personal property taxes.

Section 9 -- Assets Owned by the Farm Operator

The assets to be reported are those owned as of December 31, 1979. Estimates are acceptable.

INCLUDE --

Family or individual operation -- Assets owned by the operator and related members of the household engaged in the farm business for items 1 through 21.

Partnership or family corporation operation -- Assets owned by the partnership or corporation are to be reported for items 1 through 13. Include equipment owned by partners or shareholders which is used exclusively by the partnership or corporation.

Assets owned by the senior partner and related members of the household engaged in the farm business for items 14 through 21.

For family corporation, report items 14 through 21 for the person who is considered to be in charge of the agricultural operation, including related members of the household engaged in the farm business.

Managed operation, including large corporation -- Assets managed for the farm owner for items 1 through 13. Assets owned by the hired manager and related members of the household engaged in the farm business for items 14 through 21.

EXCLUDE --

Assets of farm property for items 1 and 2 rented to others
In all cases your landlord's share of any assets
Poultry, livestock, and other assets owned by contractors, investors, etc.
Machinery, equipment, and other assets rented from others

Section 10 -- Off-Farm Income During 1979

Include income received between January 1, and December 31, 1979. Be sure to include wages, salaries, payments, etc., received by you, your spouse, your children, or other relatives who are members of your household. If you are not certain of the exact figures, please give your best estimate.

Do not include payments received by persons (such as hired workers, etc.) not related to you. If the report is for a partnership, include payments received by the senior partner and his/her relatives living in his/her household. Mark (X) the "None" box if you have no dollars to report.

Managed Farms Including Large Corporations

For a farm or ranch operated by a hired manager or by one family, relate all income items to the farm manager and the members of his/her family. In item 1a, include the salary, wages, or commissions received by the manager from the employer. Do not include any non-farm income received by the corporation or employer.

Section 12 -- Please complete this section for both the operator and spouse. The spouse of the operator is usually determined by how the two individuals consider each other. No legal status is required, but usually the spouse is either the wife or husband of the operator.

DUE DATE: 20 DAYS AFTER RECEIPT OF FORM

Form Approved: O.M.B. No. 41-579057

NOTICE Response to this inquiry is required by law (title 13, U.S. Code). By the same law your report to the Census Bureau is confidential. It may be seen only by sworn Census employees and may be used only for statistical purposes. The law also provides that copies retained in your files are immune from legal process.

U.S. DEPARTMENT OF COMMERCE
BUREAU OF THE CENSUS

In correspondence pertaining to this report, please refer to the 11-digit Census File Number (CFN) in label below.

**FARM FINANCE SURVEY — 1979
LANDLORD'S REPORT**

COMPLETE AND RETURN TO

Bureau of the Census
1201 East Tenth Street
Jeffersonville, Indiana 47132

The financial needs of the American farmers and farm landlords are changing.

It is important to know facts such as:

- Their relative debt burden
- That sufficient loan funds are available from different lenders

The net returns that farm operators and land owners earn on their investments after paying their expenses

These and many other financial problems can be examined only by obtaining information from you and the other survey respondents. Please give the best answers you can, making estimates when you do not have exact figures. Your answers will be combined with others so that confidentiality is maintained. Please answer each question that applies to you.

CENSUS USE ONLY	035	036	037	038

(Please correct any error in name and address, including ZIP code.)

Section 1 ACREAGE in 1979 and CURRENT MARKET VALUE of LAND and BUILDINGS (See instruction sheet, section 1)

1. How many acres owned or controlled by you were used in 1979 by the person listed on the top line of the address label?

Acres
049

2. What is your estimate of the market value of this acreage including the dwelling and all other buildings?

Market value CENTS NOT REQUIRED
050
\$

3. Of the acres entered in item 1, how many were purchased in 1979?

None 051

Section 2 PURCHASES, EXPENDITURES, AND CREDIT USED DURING 1979 in connection with the acreage in section 1, item 1 — The items in this section concern the kinds of purchases and expenditures made and the amount of credit used during 1979 for agricultural operations. In column 1, report the total cost of the purchases or expenditures. In column 2, report the amount of credit used, if any, for the purchases (see instruction sheet, section 2). For each expense or purchase entered in column 1, complete column 2, either with the dollar amount or mark (X) in the "No credit used" box. Do not include your tenants' share of any expenses.

■ Agricultural capital purchases related to the acreage in section 1, item 1, during 1979

1. Purchases of land, including buildings — Include only land as reported in section 1, item 3
2. Expenditures for land and irrigation improvements including land preparation, well drilling, ponds, drainage, roads, feedlots, fences, trench silos, lagoons, etc.
3. Expenditures for buildings and structures — Include new or additions to dwellings, barns, shelters, milking parlors, hog houses, poultry houses, crop storage, silos etc. Exclude repairs
4. Purchases of tractors and farm machinery at net cost — Total cost minus trade-in values.
 - a. New
 - b. Used
5. Purchases of trucks and autos at net cost — Total cost minus trade-in values.
 - a. New
 - b. Used
6. Purchases of breeding livestock and dairy cows and heifers
7. All other agricultural capital purchases — Include movable irrigation equipment and machinery such as pipes, siphons, nozzles, pumps and engines; other motor driven vehicles such as airplanes, or other special use vehicles that were used on this place. Exclude capital purchases covered above.

■ Agricultural operating expenses and other purchases related to the acreage in section 1, item 1, during 1979. Do not include here expenses paid by tenants, depreciation, income taxes, expenditures for the purchase of land, buildings, or machinery; expenditures for the landlord's dwelling including repairs, taxes, insurance, and other items.

8. Expenditures for feed — grain, hay, silage, mixed feeds, concentrates, etc.
9. Purchases of livestock and poultry other than breeding stock and dairy cows and heifers
10. Purchases of fertilizer
11. Expenditures for hired wages and contract labor — Report gross cash payments to employees including paid family members, before deductions for Social Security, taxes, insurance premiums, etc.
12. Purchases of gasoline, diesel fuel, LP gas, other fuel, motor oil, and grease for farm use only
13. All other agricultural operating expenditures such as machine hire, customwork, seeds, pesticides, real estate and personal property taxes, utilities; upkeep of farm buildings (including tenant's dwelling), machinery, fences, drains, and irrigation systems, interest and other finance charges; storage charges; lime, soil conditioners, etc.
14. Funds borrowed during 1979 in connection with the acreage in section 1, item 1, for any purpose other than listed above (such as replenishment of working capital)

Section 3 DEBTS AS OF DECEMBER 31, 1979 <i>(See enclosed instruction sheet.)</i> <i>The debts to be reported are those owed as of December 31, 1979 arising from the operation of the acres in section 1, item 1.</i>	AMOUNT OWED ON DECEMBER 31, 1979 — Exclude interest								
	Total amount owed For each entry in this column please answer columns 2 and 3.			Amount secured by farm real estate Include debts secured by mortgages on farm land and buildings, deeds of trust, land purchase, etc.			Amount not secured by farm real estate Include debts secured by notes, machinery, crops, or other non-real estate assets, and unsecured debts.

Section 9 TYPE OF OWNERSHIP
Mark (X) the one item which best describes the ownership of land rented out in 1979. (See enclosed instruction sheet.)
Land owned by —

1. FAMILY or INDIVIDUAL (sole proprietorship, excluding partnership and corporation) 242

2. PARTNERSHIP. Include family partnerships 2 } Complete part A section 10

3. CORPORATION INCORPORATED UNDER STATE LAW. Answer both a and b.

a. Is this a family held corporation?

3 YES
4 NO } Complete part B section 10

b. Are there more than 10 stockholders?

5 YES
6 NO }

4. OTHER, such as cooperative, estate or trust, prison farm, grazing association, Indian reservation, etc. 7 Specify _____
Skip to section 11

Section 10 CHARACTERISTICS AND OCCUPATION OF LANDLORD

A. FOR INDIVIDUAL AND PARTNERSHIP LANDLORDS. Senior partner should report for partnerships.

1. RESIDENCE

a. Where does the landlord live? 243 On the land in section 1, item 1

Not on the land in section 1, item 1

2 On another farm
3 In a rural area, not on a farm
4 In a city, town, or urban area

b. Distance of residence from land in section 1, item 1 244

1 Less than 5 miles
2 5–24.9 miles
3 25–49.9 miles
4 50 miles and over

2. RACE of landlord 245

1 White
2 Negro or Black
3 American Indian
4 Asian or Pacific Islander
5 Other — Specify _____

3. SPANISH ORIGIN — Is the landlord (senior partner or person in charge) of Spanish origin or descent (Mexican, Mexican American, Cuban, or other Spanish)? 246

1 YES 2 NO

4. AGE of landlord 247 _____ Years old

5. SEX of landlord 248 1 Male 2 Female

6. CITIZENSHIP of landlord 250

1 United States
2 Other — Specify country _____

7. OCCUPATION of landlord — At what occupation did the landlord spend the majority of his working time in 1979? 251

1 Operating a farm or ranch
2 Employed by a private business for wages, salary, or commission
3 Employed by a Federal, State, or local government
4 Self-employed — operating farm related business
5 Self-employed operating nonfarm related business or professional practice
6 Retired — previously farming or farm related business
7 Retired — nonfarm related occupation
8 Other — Specify _____

8. What proportion of the total business income (farm and nonfarm) you and your family received was from the sale of agricultural products and/or rental income from all agricultural lands you owned in 1979? 253

1 Less than 25%
2 25% to 49%
3 50% to 74%
4 75% to 100%

Section 10 Continued

B. FOR CORPORATION LANDLORDS

In 1979 did the corporation have any business activities or interests other than that of a landlord; example, own or manage a nonfarm business or operate another farm or ranch?
034 1 NO — Skip to section 11
2 YES — If "YES" — Did the corporation engage in any of the following activities?

1. RELATED TO AGRICULTURE

255 a. Operate a farm or ranch 1 YES 2 NO

256 b. Manufacture, distribution, sale of farm supplies (feed, fertilizer, farm machinery, etc.) 1 YES 2 NO

257 c. Processing of crops, poultry, livestock (slaughter plant, meat packing, processing, canning, milling) 1 YES 2 NO

258 d. Wholesaling, retailing of farm products (grain elevators, livestock auctions, produce markets, other food stores including supermarkets, etc.) 1 YES 2 NO

259 e. Other activities related to farm products 1 YES — Specify _____ 2 NO

2. NONAGRICULTURAL ACTIVITIES

260 a. Manufacture of nonagricultural products 1 YES 2 NO

261 b. Wholesaling, retailing of nonagricultural products 1 YES 2 NO

262 c. Finance, insurance, and real estate 1 YES 2 NO

263 d. Other business activities 1 YES — Specify _____ 2 NO

3. Mark (X) one box to indicate the appropriate size of total business receipts (farm and nonfarm) of the corporation in 1979 264

1 Less than \$100,000
2 \$100,000 to \$499,999
3 \$500,000 to \$999,999
4 \$1,000,000 or more

4. Of the total receipts from all sources, what proportion was from the sale of agricultural products and/or rental income from all agricultural lands owned and/or operated? 265

1 Less than 25%
2 25% to 49%
3 50% to 74%
4 75% or more

5. Does a foreign entity (company, individual, government, etc.) own any of the voting stock or other equity rights of the corporation? 267

266 1 YES — Mark (X) one to indicate percent of ownership

1 Less than 10% 4 50%
2 10 to 24% 5 51 to 99%
3 25 to 49% 6 100%

2 NO — Go to section 11

INSTRUCTION SHEET

1979 FARM FINANCE SURVEY

GENERAL INFORMATION

The enclosed report form may contain sections and inquiries which do not apply to you. Where this is the case, you may simply mark the "None" or "No" box and go on to the next item or section.

Please begin with section 1 and read the items and instructions to see what information you should provide. Give the best answers you can. Write in estimates for information on which you do not keep records.

To make recordkeeping more economical, every case drawn in the Farm Finance Survey has a separate Census File Number. In order to close out the survey, WE NEED A REPLY FROM EVERYONE receiving the report form, whether agricultural land was owned in 1979 or not. Please complete and return your report as soon as you can, preferably within the next 2 weeks. Use the enclosed preaddressed envelope.

Please put your answers in the answer spaces (unshaded areas). You may write explanations and comments in the shaded areas to the left of the answer spaces or in the "Remarks" space on page 3.

Please mark answers of "Yes," "No," or "None" by placing an (X) in the small answer box. If the answer is "No" or "None" and a small answer box is not provided, leave the answer space blank.

If you do not recall exact figures, please give your best estimates. You may indicate "Est." (for estimated) beside the answer, if you like. For all dollar items, we need only whole dollars, although a "Cents" column is provided for those who wish to report cents.

INSTRUCTIONS FOR SPECIFIED SECTIONS

Section 1 — Acreage in 1979 and Current Market Value of Land and Buildings

Report all land used (rented, leased, used rent free, etc.) by the person or company listed in the label; include cropland, pastureland, woodland, and wasteland.

Please give your best estimate of the market value of the land, including all permanent buildings and permanently attached equipment. Include the value of the dwelling(s) on the place and of all farm buildings such as barns, poultry houses, fruit packing sheds, vegetable sheds, etc.

Do not include the value of major agricultural manufacturing or processing plants, such as cotton gins or sugar mills, that may be located on the place, nor the value of other buildings used for nonagricultural purposes. Examples are stores, filling stations, factories, motels, etc.

Section 2 — Purchases, Expenditures, and Credit Used During 1979 for the Agricultural Operation

Do not include any of the following kinds of expenditures in this section:

- Expenditures made by the tenant or the tenant's share of any costs
- Expenditures on nonfarm property
- Expenditures related to nonfarm activities (trading and speculation or livestock dealer activities)

Column 1 — Report all purchases or expenditures made by you for the agricultural operation during 1979. Include sales taxes, but exclude finance charges. Finance charges should be included in item 13. Report the costs of items minus their trade-in values. Mark (X) the box in the "None" column if you have no dollars to report in column 1.

Column 2 — Report the total amount of credit obtained at time of purchase from seller or other lender (not the amount remaining to be paid at the end of 1979). Mark (X) the box in the "No credit used" column if you have no dollars to report in column 2.

Section 3 — Debts as of December 31, 1979

The debts to be reported are those owed as of December 31, 1979, arising from the ownership of the acres in section 1, item 1.

For debts covering more land than the acres in section 1, item 1, report only your estimate of that part of the debt applying to these acres. The share to be reported should be estimated in proportion to the market values of the properties. If you cannot allocate debt between owned land reported in section 1, item 1, and total owned land, report the total debt for the total owned land and report the total owned acreage involved and explain in "Remarks" on page 3. Other debts should also be prorated if they relate only in part to the agricultural operations reported for the acreage in section 1, item 1.

Do not include any of the following kinds of debts:

- Debts on nonagricultural property such as cotton gins, canning factories, sugar mills, motels, stores, etc.
- Your tenant's share of any debts
- Charge accounts that are paid in full monthly (debts owed for less than 30 days should not be reported)

For each source to which no debt was owed on December 31, 1979, mark (X) in the "None" box for column 1.

Column 1 — Total amount owed — For each source of debt, the entry for column 1 should be equal to the sum of the debts reported in columns 2 and 3. If the total debt from a source is secured by real estate, the entry in this column should be the same as the entry in column 2. Likewise, if none of the debt is secured by real estate, the entry should be the same as for column 3.

Column 2 — Amount secured by farm real estate — For each source, report as of December 31, 1979, the amount of debt that was secured by all or part of the real estate in section 1, item 1. Include debts secured entirely by real estate mortgages (first, second, or third), deeds of trust, and land purchase contracts. Also include in this column debts secured in part by the real estate in this place and in part by chattel mortgages or liens on livestock, poultry, equipment, or crops.

Column 3 — Amount not secured by farm real estate — For each source, report as of December 31, 1979, the amount of debt arising from the operation of the acres reported in section 1, item 1, that was not secured by farm real estate. Include unsecured debts and debts secured entirely by chattel mortgages and crop liens. Also include unpaid bills and accounts which you owed for a period of more than 30 days, as of December 31, 1979.

Section 4 — Real Estate Taxes

The taxes which are to be reported in this section are those levied on farm and ranch land, buildings, and other improvements, as reported on your tax bill for the year 1979.

If you have more than one tax bill (example, county, State, school district, etc.) for the same acres —

- Include the acreage only once in item 1
- Report in item 2 the largest assessed value for any of the individual tax bills
- Report the sum of the taxes from all bills in item 3

Do not include taxes on nonfarm property, such as land and buildings used for cotton gins, sugar mills, canning factories, motels, stores, etc. For taxes that are levied on both agricultural and nonagricultural property, estimate and report only that portion of the taxes applying to your farm or ranch.

Section 5 — Assets Owned by the Landlord

The assets to be reported are those owned as of December 31, 1979. Estimates are acceptable. For each item owned, enter the estimated market value. If item is not owned, mark the "None" box.

Do not include —

- a. In all cases, your tenant's share of any assets
- b. Poultry, livestock, and other assets owned by contractors, investors, etc.
- c. Machinery, equipment, and other assets rented from others

Section 9 — Type of Ownership

Use the following definitions to assist you in determining the type of organization for your land ownership.

Individual or Family (Sole Proprietorship) — Defined as a farm or business organization controlled and operated by an individual. This includes family operations that are not incorporated and not operated under a partnership agreement.

Partnership — Defined as two or more persons who have agreed on the amount of their contribution (capital and effort) and the distribution of profits. Co-ownership of land by husband and wife or joint filing of income tax forms by husband and wife does not necessarily mean that a partnership exists unless there is some agreement as to sharing contributions, decision-making, profits, and liabilities.

Corporation, Including Family Corporations — Defined as a legal entity or artificial person created under the laws of a State to carry on a business. This definition does not include cooperatives.

Other — Such as a cooperative (defined as an incorporated or unincorporated enterprise or association created and formed jointly by the members), estate or trust (defined as fund of money or property administered for the benefit of another individual or organization), prison farm, grazing association, Indian reservation, etc.

Section 10 — Characteristics and Occupation of Landlord

Individual and partnership landlords should complete part A of this section and leave part B blank. Corporation landlords should complete part B and leave part A blank. Other types of landlords such as a cooperative, estate or trust, prison farm, grazing association, or Indian reservation should leave both parts A and B blank.
