### **TAKING THE CENSUS**

#### **Report Form**

One report form was used in the 1982 Census of Agriculture for Puerto Rico. Except for a few items, the 1982 report form was very similar to the one used in 1978. Most of the changes have resulted in simplification of the questions asked. Also, the two sections concerning interplanting of crops and selected crops under cultivation were omitted. These modifications were made to improve the quality of the data and to provide data more useful to the user.

The "products for home consumption" section was changed to acquire the amount of products consumed or given away during the last week before the enumeration day. In the 1978 census, the data were collected for products consumed or given away during the previous 12 months before the enumeration day. This should be noted in comparing these figures with that of previous censuses.

#### **Training Program**

Supervisors, crew leaders, and enumerators employed for the census in Puerto Rico received special training for the job in accordance with instructions prepared by the U.S. Bureau of the Census. The training included practice in interviewing, filling out the report form, and a detailed discussion of the enumerator's instructions.

#### **Method of Enumeration**

The 1982 Census of Agriculture for Puerto Rico was conducted largely by enumerators assigned to specific geographic areas. In rural areas, they were instructed to visit every household and/or dwelling (living) unit. In urbanized areas, they were instructed to make inquiries of knowledgeable people to find persons conducting agricultural operations. To assist in obtaining as complete an enumeration as possible, enumerators were provided with detailed maps of their assigned areas. Also, they were given a Listing Book for each enumeration district (ED) or areas to be canvassed. The book was used to

record names, addresses, and additional data for each location visited, and whether or not a report form was filled out. Also, it provided the enumerator with a series of questions. By asking these questions, the enumerator could determine whether a housing unit located on a place with agricultural operations qualified as a farm according to the census definition.

When a place was located which qualified as a farm, the enumerator noted it in the Listing Book and completed a census report. When a place was located which required a census report, but on which the operator did not live, the enumerator entered the appropriate information for the place on a special form. This information was transferred to the enumerator assigned to the area where the operator lived, who was then responsible for obtaining a complete report for the operation.

Because of an interruption in census planning operations following the publishing of the 1978 Census of Agriculture for Puerto Rico, time constraints barred the conducting of a farm identification survey in advance of the next census as was done in 1978. Instead, a list of large or special farms was prepared from 1978 records. Farm operators appearing on this list were mailed a report form in June with a request to complete the form and hold it until the enumerator arrived during enumeration.

#### **COMPUTER PROCESSING**

For the first time, a microcomputer system was established and used in Puerto Rico in connection with a census of agriculture. This system was located in the Bureau of the Census San Juan Central Processing Office. The microcomputer system allowed the data to be processed in a more timely and precise manner.

The specific tasks accomplished with the microcomputer were:

1. Check-in of large farms—This system allowed for a tally of all mailed cases in the census. It replaced the time consuming manual check-in.
2. Data keying—All forms were data keyed using this system. This reduced the shipping cost and the possibility of losing forms during shipping by omitting the keying stage in the Census Bureau processing center in Jeffersonville, Ind.
3. Consistency edit—An edit provided analysts with printouts of the individual cases with potential problems. These cases were examined and the problems solved either by correcting the data using other data supplied on the report form, or by followup activity of the field enumerators through either a

return visit or a telephone call. In all cases for which a printout was produced, an action was taken. Corrections were keyed into the computer and the record passed through the edit again.

4. Island and Municipio Totals for selected data items—A listing was produced that provided an up-to-date tally for selected data items by municipio and for Puerto Rico. These totals were used to detect any potential coverage problems. If a potential problem was detected, an examination of the results and enumeration of this area in question was conducted. All detected potential problems were solved at this time.
5. Scope determination—The microcomputer allowed for a quick and efficient manner in which all cases could be determined to be in or out of the scope of the census. All cases that were rejected as being out of scope were examined by analysts for verification. Those that were in scope were hand edited and returned to data keying.

## OFFICE PROCESSING

The encoded data on magnetic tapes and the report forms were shipped from Puerto Rico to the Bureau of the Census in Suitland, Md., where they were further reviewed. The tapes were subjected to a detailed item-by-item electronic computer program edit for consistency and completeness. When data were inconsistent or missing, the computer program either corrected the error or printed a code that indicated the type and location of the problem. These data were individually reviewed for accuracy and corrected, if necessary.

Following the review and verification of the data for accuracy, the data were tabulated by the computer. The tabulated data were reviewed again by subject matter specialists for consistency, completeness, and possible disclosure of information for individual farms. Final corrections were made at this point prior to publication.

## DEFINITIONS AND EXPLANATIONS

The following definitions and explanations relate to items which are not fully described in the tables. Most of the definitions come from the report form and the instructions to the enumerators. For an exact wording of the questions, see appendix C.

**Operator**—The term "operator" designates a person who operates a farm, either actually doing the work or directly supervising the work. This person may be the owner, a member of the owner's household, a hired manager, or a tenant, but the person cannot be an agregado or a sharecropper. If the person rents land to others, the person is considered the operator only of the land retained for personal use. In the case of a partnership, only one partner is counted as the operator. The number of farm operators is the same as the number of farms.

**Farms**—Figures for "farms" are the number of farms (or operators) reporting a specified item. If a municipio contained 1,200 farms, but only 300 farms had cattle and calves on hand as of July 1, 1983, the figure for "farms" for the item "cattle and calves" would be 300. This definition is the same as "farms" in the 1978 and 1974 censuses, and is equivalent to the term "farms reporting" in the 1959 and prior censuses. Where applicable, figures are given for the number of farms not reporting items when the intent was to report data for all farms, e.g., place of residence of the operator.

**Land area**—The approximate land area of Puerto Rico is 2.3 million cuerdas. A cuerda is equivalent to 0.9712 of an acre or 0.3930 of a hectare. A centesimo is one-hundredth of a cuerda.

**Land in farms**—This item includes land used for crops, pasture, or grazing; also, woodland and wasteland not actually under cultivation nor used for pasture or grazing providing it was part of the operator's total operation. Woodland or wasteland held for nonagricultural purposes were excluded. Land in farms is an operating unit concept and includes land owned and operated as well as land rented from others. Land used rent free was to be reported as land rented from others.

**Land owned (full and part owners)**—This item includes all land that the operator owned, his wife or both held under title, purchase contract or mortgage, or as heir or trustee of an undivided estate at the time of the enumeration. Land operated by a hired manager covers all tracts of land managed for one or more employers by a person hired for a salary. Land managed by a hired manager also was considered owned. A hired manager was considered to be the operator of the land he/she managed because this person was responsible for the agricultural operations on the land and frequently supervised others in performing those operations.

**Land rented from other (tenants)**—This item includes all land that the operator rented or leased from others or used rent free.

**Land rented to others**—This item includes all land rented or leased to others for cash or a share of the crops or livestock, and land rented from others and then subleased to others.

**Land in two or more municipios**—An individual farm was counted in only one municipio even if the land was located in two or more municipios. The land in each farm was tabulated as being in the operator's principal municipio. The principal municipio was defined as the one where the largest value of the agricultural products was raised or produced. It was usually, but not always, where the operator reported all or the largest part of the total land.

**Land use**—The land was classified according to the way it was used during the period between July 1, 1982, and June 30, 1983. This classification includes three major groups.

**Cultivated cropland**—This group includes land from which crops were harvested, land on which crops failed, and land under cultivation whether harvested or not, except land in cultivated and/or improved pastures. It includes land in sugarcane, tobacco, coffee, pineapples, fruits, etc., even though no crop was harvested; and idle cropland and cropland not harvested because of crop failure.

Land used for intercropping or successive cropping was recorded only once.

**Land in pastures**—This group includes cultivated and/or improved pastures, natural pastures, and pastures overgrown with brush.

**Other lands**—This group includes woodland, forests, and underbrush that cannot be utilized for cultivation or pastures; and land occupied by lakes, buildings, roads, fences, wasteland, trails, ponds, etc.

**Land irrigated**—This item is land to which water was applied by artificial means for agricultural purposes. It includes both land under cultivation and pastureland. Separate figures were obtained for areas irrigated by water from public and private systems. Some land was irrigated from systems or facilities operated by a public system of the Government and from one or more private systems. Such land was reported under both private and public systems.

Also, data were obtained on the major sources of water used for irrigation such as wells or cisterns, rivers or streams, lakes or ponds, constructed reservoirs, and other sources.

**Off-farm work by operators**—Information was obtained on the number of days the operator or senior partner worked at least 4 hours per day off of the farm during the period from July 1, 1982, to June 30, 1983. Off-farm work included work at nonfarm jobs, businesses, or on someone else's farm. Exchange work was excluded.

**Machinery, equipment, buildings, and facilities**—Data were collected on the number of various types of machinery, equipment, buildings, and facilities on the place as of July 1, 1983. Machinery and equipment were reported only if they were in working order at the time of enumeration. In addition to the number of different pieces on the place, data were collected on the estimated market value of all machinery and equipment usually kept on the place.

**Hired farm workers, agregados, and sharecroppers**—This item refers to the number of hired workers employed on the farm during the census year and to the number of agregado and sharecropper families living on the place July 1, 1983. Also, data were obtained on labor cost. Employees of labor contractors and contract labor were excluded.

An *agregado* is a member of a family which lives on a farm not operated by any member of the family. An *agregado* may or may not be an employee of the farm

operator and may or may not produce any agricultural products. An *agregado* may own, rent, or use rent free, the house in which he/she lives. The land operated by, livestock belonging to, and the products marketed by an *agregado* family were to be included with those of the farm operator in charge of the place.

A *sharecropper* (medianero) is a person who works land under a definite arrangement with a farm operator, receiving a part of the crops, livestock, or livestock products in return for his/her labor and other contributions. Since it is possible for the same person to work as a *sharecropper* on more than one farm, census figures may overstate the number. Likewise, a person might live as an *agregado* on one farm and work as a *sharecropper* on another and, therefore, be counted as both. Land, crops, and livestock involved in such share arrangements were included with those of the farm operator in charge of the place.

**Agricultural chemicals**—This item includes the usage and costs of agricultural chemicals used on the farm during the census year; the cost of application was excluded. Application costs were included with expenses for machine hire and customwork.

**Production expenses**—Data on farm production expenses were obtained for—

- a. Livestock and poultry.
- b. Feed for livestock and poultry.
- c. Medicines and drugs for livestock and poultry.
- d. Seeds, bulbs, plants, and trees.
- e. Commercial fertilizer.
- f. Gasoline and other fuel and oil products for the farm business.
- g. Wages and salaries paid to employees or hired farm workers.
- h. Contract labor.
- i. Machine hire and customwork.
- j. Agricultural chemicals.

Expenses were reported for the period from July 1, 1982, to June 30, 1983. The information included all expenses incurred by the farm operators, landlords, sharecroppers, *agregados*, contractors, buyers, and others in connection with crops, livestock, or livestock products produced on the place. Wages and salaries paid to employees or hired farm workers were included. Excluded were wages and salaries paid to domestic help or contract labor and expenses relating to family home and automobile.

**Crops**—The names of the principal crops were preprinted on the report form and space was provided to write in other crops. Data were collected for each crop harvested from the place during the period from July 1, 1982, to June 30, 1983, regardless of who did the harvesting.

Data collected were:

**Sugarcane, coffee, tobacco, pineapples, grains, and farinaceous crops**—Cuerdas harvested and amount harvested.

**Fruit trees and plants**—Number of trees of bearing age and trees not of bearing age and amount harvested.

**Vegetables harvested for sale**—Cuerdas harvested for sale and value of sales.

**Ornamental and flowering plants and lawn grass harvested for sale**—Area used and value of sales.

**Livestock and poultry**—Data were obtained for the number of livestock and poultry on the farms as of July 1, 1983, regardless of ownership. Also, included were other livestock and poultry kept on the place for others or grown under a contract. Sales of livestock, poultry, and their products relate to the period from July 1, 1982, to June 30, 1983.

**Market value of agricultural products sold**—This item is the gross market value before taxes and production expenses of all agricultural products sold or removed from the place from July 1, 1982, to June 30, 1983, regardless of who received the payment. It includes receipts by the operator and the value of any shares received by partners, landlords, agregados, sharecroppers, contractors, and others associated with the place.

The total value of agricultural products sold is the sum of all crops sold from the place, including ornamental and flowering plants; lawn grass; and livestock, poultry, and their products. It does not include income from farm-related sources such as custom farm work done for others, government farm programs, recreational services, and other related sources, or income from nonfarm sources.

**Other agricultural products sold**—This item is the gross market value before taxes and production expenses of all sales from wood, hay, forage, silage, molasses, and any other agricultural products sold or removed from the place from July 1, 1982, to June 30, 1983, regardless of who received the payment.

## F FARMS CLASSIFIED BY SPECIFIED CHARACTERISTICS

**Farms by tenure of operator**—The classifications of tenure are:

- a. *Full owners* operate only the land they own or land operated by sharecroppers and agregados.
- b. *Part owners* operate land they own and also land they rent from others.
- c. *Managers* operate farms for others and are paid a wage or salary for their services. Persons acting merely as caretakers, "mayordomos" (foremen), or hired laborers are not classified as managers. If a farm operator manages land for others and also operates land on his own account, the land operated on his own account is considered as one farm and the land managed for others as another farm.
- d. *Tenants* operate only the land they rent from others.

**Farms by type of organization**—Enumerators classified the farms on the basis of the operator's description of the organizational status of their farms. The major classifications are:

- a. Individual or family.
- b. Partnership.
- c. Corporation.
- d. Other, such as estate or cooperative.

**Farms by main occupation and age of operator**—The main occupation and age of the operator, as of the last birthday were obtained for all farms. The operators were classified as to whether the main occupation was agricultural or nonagricultural. Each of these occupation classifications were further classified into one of the following age groups:

- a. Under 25 years.
- b. 25 to 34 years.
- c. 35 to 44 years.
- d. 45 to 54 years.
- e. 55 to 64 years.
- f. 65 years and over.

**Farms by size**—All farms were classified by size according to the total land area of each farm. The size groups are:

- a. Less than 10 cuerdas.
- b. 10 to 19 cuerdas.
- c. 20 to 49 cuerdas.
- d. 50 to 99 cuerdas.
- e. 100 to 174 cuerdas.
- f. 175 to 259 cuerdas.
- g. 260 cuerdas or more.

**Farms by market value of agricultural products sold**—All farms were classified by value of agricultural products sold, including those operated by institutions or government agencies. Income from farm-related sources such as custom farm work done for others, recreational services, land rent, and payments from government farm programs were excluded from the basis for this classification.

The 13 groups classified are on the basis of market value of agricultural products sold. The value groups are:

- a. \$60,000 or more sales.
- b. \$50,000 to \$59,999 sales.
- c. \$40,000 to \$49,999 sales.
- d. \$30,000 to \$39,999 sales.
- e. \$25,000 to \$29,999 sales.
- f. \$20,000 to \$24,999 sales.
- g. \$10,000 to \$19,999 sales.
- h. \$7,500 to \$9,999 sales.
- i. \$5,000 to \$7,499 sales.
- j. \$2,500 to \$4,999 sales.
- k. \$1,200 to \$2,499 sales.
- l. \$500 to \$1,199 sales.
- m. \$0 to \$499 sales.

**Farms by type**—The type of a farm represents a description of the major source of income from the sale of

agricultural products. The farm had to have sales of a specific product or a group of products amounting in value of 50 percent or more of the total value of all products sold during the census reference period to be classified as a particular type of farm.

The types of farms, together with the products (value of sales representing 50 percent or more of the value of agricultural products sold during the year) on which the type of classification is based, are:

Type of farm	Agricultural products
Sugarcane	Sugarcane.
Coffee	Coffee.
Tobacco	Tobacco.
Grain and farinaceous crop	Pigeon peas, dry beans, green beans, corn, dasheens, cassava, celeriac, sweetpotatoes, yams, taniers, rice, and other grains and farinaceous crops.
Fruit and nut	All tree fruits, nuts, bananas, plantains, and pineapples.
Livestock	Livestock and livestock products.
Poultry	Poultry and poultry products.
General crop	All crops, including the sugarcane, coffee, tobacco, grain and farinaceous crop, and fruit and nut types; but not including vegetables or ornamental and flowering plants and lawn grass.
Crop and livestock	Crops as listed in the general crop type together with the livestock, poultry, and their products in the livestock type.
Miscellaneous	All farms not meeting any of the above classifications. These include farms with 50 percent or more of the total value of agricultural products sold coming from the sale of vegetables or ornamental and flowering plants and lawn grass.

**Other classifications**—Also farms were classified by the characteristics of the operator, such as residence, main source of income, years operating present farm, education, days worked off farm, and by the percent of income received from farming.

## ENUMERATION PERIODS

The enumeration periods for most items in the 1982 census were either the 12-month period from July 1, 1982, to June 30, 1983, or as of July 1, 1983. Whenever 1978 is used in a table, title or boxhead, it refers to the census period July 1, 1977, to June 30, 1978, or as of July 1, 1978.

Data for the following items relate to the 12-month period from July 1, 1982, to June 30, 1983, or to the period of July 1, 1977, to June 30, 1978, when applicable.

- a. Tenure.
- b. Land in farms.
- c. Agricultural products harvested and products sold.
- d. Livestock, poultry, and their products sold.
- e. Cultivated and/or improved pastures.

- f. Land use.
- g. Irrigation.
- h. Hired farm workers.
- i. Agricultural chemicals purchased and used.
- j. Selected farm production expenses.
- k. Farm-related income.

Data for the following items pertain to July 1, 1983, or July 1, 1978, when applicable.

- a. Inventory of livestock, poultry and hogs, on farms.
- b. Machinery, equipment, buildings, and facilities on farms.
- c. Number of agregado and sharecropper families on farms.

Data for "Products for home consumption" for the 1982 census pertain to the amount of products consumed or given away during the last week before the enumeration day July 1, 1983. In the 1978 census, these data pertain to the previous 12 months before the enumeration day.

## USE OF SAMPLING AND STATISTICAL ADJUSTMENT

To reduce the respondent's burden, a sample of farms was used to collect detailed economic information. Statistical expansion procedures were then used to expand the data to the municipio level.

All expected farms were enumerated to obtain basic farm information. In addition, sample questions (sections 21 through 25) were asked of all "large" farms and a sample of farms identified when the municipio was listed. Other farms were selected into the sample with certainty because they were expected to be large. A farm was considered large if its expected sales were greater than \$19,999 or its expected size was greater than 49 cuerdas. The definition of a large farm was the same for each municipio. In addition to large farms, all farms in municipios containing less than 250 farms in 1978 were required to complete sections 21 through 25. Farms in municipios containing 250 farms or more in 1978 were also required to complete sections 21 through 25 at a rate of 1 in 5.

After collection, the noncertainty samples were stratified into 128 strata formed using 7 sales groups, 10 type-of-farm groups, and 3 size-of-farm groups.

Sales	Type of farm	Size of farm
\$0 to \$499	Sugar	0 to 9 cuerdas
\$500 to \$1,199	Tobacco	10 to 19 cuerdas
\$1,200 to \$2,499	Coffee	20 to 49 cuerdas
\$2,500 to \$4,999	Grain and farinaceous crop	
\$5,000 to \$7,499	Fruit and nut	
\$7,500 to \$9,999	Poultry	
\$10,000 to \$19,999	Livestock	
	General crop	
	Crop and livestock	
	Miscellaneous	

This stratification was done to improve precision and to reduce the bias in all estimates by weighting the sample farms within stratum by the ratio of total farms to sample farms. If the calculated weight was greater than

10 in municipios sampled at a rate of 1 in 5, the original stratum was collapsed into another stratum. Also collapsing of stratum occurred if the stratum contained fewer than 10 sample farms.

Estimates were prepared for items in sections 21 through 25 of the report form by multiplying the data item for each farm in the sample by the sample weight assigned the farm. The weight for a certainty farm was 1. Sample weights for the final strata ranged from 1 to 10 because all exact weights (total number of farms divided by the number of sample farms in the stratum) were converted to integers by a simple algorithm.

## NONSAMPLE ERRORS

Each census or survey is subject to error. In addition to sampling variability, errors arise from nonsample sources such as incorrect or incomplete reporting, processing, and the inability to obtain a report from each eligible reporting unit. For example, an operator may report the number of hogs and pigs sold but may not report the value of the sale. In other cases, the respondent may indicate the presence of an item but not the quantity. The accuracy of a census count is determined by the joint effects of sampling and nonsampling errors. Extensive efforts were made to keep errors introduced during clerical and electronic processing to a minimum level through the use of quality control, verification, and check measures on specific operations.

## CENSUS COVERAGE

Although a complete and accurate count of farms, land in farms, and farm production is the aim of each census of agriculture, the complex structure of The Commonwealth of Puerto Rico's agriculture makes this difficult to achieve. Among the complexities are the many places to be included, the variety of arrangements under which farms are operated, the continuing changes in the relationship of operators to the farm operated, the expiration of leases and the initiation or renewal of leases, the problem of obtaining a complete list of agricultural operations, the difficulty of locating and identifying some types of farms, the operator's absence from the farm during the data collection period, and the operator's opinion that part or all of the operation does not qualify and should not be included in the census. These complexities were resolved through the use of field enumeration and quality control procedures to ensure accurate reporting and coverage.

## RELIABILITY OF CENSUS ESTIMATES

The sources of possible sampling and nonsampling errors have been previously discussed. Some sources affected all the data; others affected only certain items or geographic levels. The results of these errors, bias and increased variability, are difficult to measure.

Data items were classified as either 100-percent or sample items. The 100-percent items were those asked of all

farm operators. These include land in farms, harvested cropland, livestock inventory and sales, and crop acreages and quantities (sections 1 to 20 of the census report form). Variability in the 100-percent items is due to the variation associated with response error. Sample items were items asked of approximately 1 in 5 farm operators and include products used for home consumption; number of cuerdas on which chemicals were used; expenses; number of selected machinery and equipment and the value of farm machinery; and number of hired workers, agregados, and sharecroppers (sections 21 to 25 of the census report form). Variability in estimates of sample items is the effect of the sample selection and estimation procedure. The sample used is one of a large number of all possible samples of the same size that could have been selected using the same sample design. Estimates derived from the different samples would differ from each other. The difference between a sample estimate and the average of all possible samples is called the sampling deviation. The standard or sampling error of a survey estimate is a measure of the variation among the estimates from all possible samples, and thus is a measure of the precision with which an estimate from a particular sample approximates the average result of all possible samples. The relative standard error of estimate (always shown in percent) is defined as the standard error of the estimate divided by the value being estimated.

As calculated for this report, the standard error of the estimate partially measures the effect of certain non-sampling errors but does not measure any systematic biases in the data. Bias is the difference, averaged over all possible samples, between the estimate and the desired value. The accuracy of a survey result depends on both the sampling and nonsampling errors measured by the relative standard error of the estimate and the bias and other types of nonsampling error not measured.

The sample estimate and an estimate of its standard error permit the Census Bureau to construct interval estimates with prescribed confidence that the interval include the average result of all possible samples (for a given sampling rate). If all possible samples were selected, and each was surveyed under essentially the same conditions, and an estimate and its estimated standard error calculated from each sample, then:

- a. Approximately 67 percent of the intervals from one standard error below the estimate to one standard error above the estimate would include the average value of all possible samples.
- b. Approximately 95 percent of the intervals from two standard errors below the estimate to two standard errors above the estimate would include the average value of all possible samples.

To illustrate the computations involved in the above confidence statements as related to total value of commercial fertilizer purchased estimates, assume that an estimate of total value of commercial fertilizer purchased for a particular municipio is \$276,741 and the relative standard error of the estimate for this estimate, as given in table B, is 2.8 percent, or 0.028. Multiplying \$276,741 by 0.028 yields \$7,749. Therefore, a 67-percent confidence interval is \$268,992 to \$284,490 (i.e., \$276,741 plus or minus \$7,749).

If corresponding confidence intervals were constructed for all possible samples of the same size and design, approximately 2 out of 3 (67 percent) of these intervals would contain the figure obtained from a complete enumeration. Similarly, a 95-percent confidence interval is \$261,243 to \$292,239 (i.e., \$276,741 plus or minus 2 x \$7,749).

Table A presents Puerto Rico's estimates of major items for all farms and for farms with sales of \$2,500 or more and measures of their reliability. The estimate and the relative standard error of the estimate is given for selected sample items. The relative standard error of the estimate measures the variation associated with the use of a sample of farms to estimate totals. It does not measure census variability associated with partial or item nonresponse among farms, response error or content

error. The relative standard error of estimate for sample items measures sampling error. It measures the variation associated with selecting a sample to estimate sample items. The reliability of municipio estimates may vary substantially from each other and will usually be larger than the Puerto Rico estimate.

Table B presents the estimate of reliability at the municipio level for 17 sample items. The relative standard error of the estimate for the same item differs among the municipios in Puerto Rico. Reasons for this are (1) differences among municipios in the total number of farms, (2) the number of large farms included with certainty, (3) the size classifications of farms sampled, (4) the general agricultural characteristics, and (5) the specific characteristic being measured.

**Table A. Estimates of Reliability for Selected Items: 1982**

[For enumeration periods, see appendix A; and for meaning of abbreviations and symbols, see introductory text]

Item	All farms		Farms with sales of \$2,500 or more	
	Total (number)	Relative standard error of estimate (percent)	Total (number)	Relative standard error of estimate (percent)
Livestock and poultry purchased				
farms--	7 463	1.2	3 569	1.4
dollars--	25 984 943	.3	24 910 298	.3
Feed purchased for livestock and poultry				
farms--	9 978	1.1	4 280	1.4
dollars--	111 698 296	.3	110 269 651	.3
Medicines and drugs purchased for livestock and poultry				
farms--	4 752	1.4	2 483	1.6
dollars--	4 605 540	.5	4 459 819	.5
Seeds, bulbs, plants, and trees purchased				
farms--	4 875	1.7	3 015	1.8
dollars--	4 424 889	.8	4 218 416	.8
Commercial fertilizer purchased

(Please correct errors in name, address, and ZIP code.)				

(Please correct errors in name, address, and ZIP code)

**Section 1 CUERDAS IN THE LAST 12 MONTHS**

When reporting part of a cuerda, write in whole numbers under "centésimos," never in fractions or decimals. Example: Centésimos (Cent.) 05, 10, 25, 75, 95.

	Cuerdas	Cent.
None	049	
<input type="checkbox"/>	050	
<input type="checkbox"/>	051	
<input type="checkbox"/>	052	

- 1. All land owned** .....  
(Interviewer: If operator is a **salaried manager**, enter all land managed in "item 1 - All land owned" and enter this figure in "item 4 - Total cuerdas in this place")

**2. Land rented (or leased) from others** .....

**3. Land rented (or leased) to others** (Do not include cuerdas worked by sharecroppers and "agregados.") .....

**TOTAL CUERDAS IN THIS PLACE**

#### **4. TOTAL CUERDAS IN THIS PLACE**

(Interviewer: Add land owned (item 1) to land rented from others (item 2) then subtract land rented to others (item 3) and enter your answer here. For managed land enter figure from item 1.)

- 5. Land rented from others.** (Give the following information for each of the landlords.)

Name	Address	Cuerdas	Cent.
		053	
		054	
		055	

- 6. Land rented to others.** (Give the following information for each of the tenants )

Name	Address	Cuerdas	Cent.
		056	
		057	
		058	

- 7. Land managed as a salaried manager.** (Give the following information concerning your employer.)

Name	Address	Cuerdas	Cent
		059	

**Section 2 LOCATION OF AGRICULTURAL LAND OPERATED BY YOU IN THE LAST 12 MONTHS**

- 1. Are all of your agricultural operations located in the municipio and barrio shown in item A above?**

No — Complete this section  
 Yes — Go to section 3

Write name and cuerdas for principal barrio and municipio on the first line; write names and cuerdas for additional barrios and municipios in spaces provided. If necessary, continue in "Remarks" on the last page

Principal barrio and municipio	Name of barrio	Municipio	Cuerdas	Cent.
			065	
			066	
Other barrios and municipios			067	
			068	
<b>TOTAL CUERDAS (Must equal cuerdas in section 1, item 4)</b>				069

### Section 3 SUGARCANE

1. Was any sugarcane grown on this place during the last 12 months?

- Yes – Complete this section
- No – Go to section 4

	Cuerdas harvested (1)	Tons harvested (2)	
None	Cuerdas	Cent.	Tons
<input type="checkbox"/>	075	1	076
<input type="checkbox"/>	077	1	078
<input type="checkbox"/>	079		080
<input type="checkbox"/>	081		
<input type="checkbox"/>	083		
<i>gl</i>	085	1	086

#### Section 4 COFFEE, TOBACCO, OR PINEAPPLES

1. Did you harvest any COFFEE, TOBACCO, OR PINEAPPLES from this place in the last 12 months?

- Yes – *Complete this section*
- No – Go to section 5

Cuerdas harvested (1)		Amount harvested (2)
Cuerdas	Cent.	
092		093 Lbs.
094		095 Lbs.
096		097 Lbs.
098		099 Tons

## **Section 5 GRAINS AND FABINACEOUS CROPS**

1. Were any of the following crops harvested from this place in the last 12 months?

	Cuerdas harvested (1)		Amount harvested (2)
None	Cuerdas	Cent.	Pounds
<input type="checkbox"/>	105		106
<input type="checkbox"/>	107		108
<input type="checkbox"/>	109		110
<input type="checkbox"/>	111		112
<input type="checkbox"/>	113		114
<input type="checkbox"/>	115		116
<input type="checkbox"/>	117		118
<input type="checkbox"/>	119		120
<input type="checkbox"/>	121		122
<input type="checkbox"/>	123		124
<input type="checkbox"/>	125		126
<input type="checkbox"/>	127		128

1 Less than 1 year old?  
2 1 year old or older?  
3 Started pullets? (Include those raised for sale only.)  
4 Fighting cocks?  
5 Other roosters?  
6 Broilers?  
7 Other fowl? (Turkeys, pigeons, guineas, etc.)  
8 Chicken eggs?

**These questions  
are to be filled  
by CENSUS  
ENUMERATOR.**

**Section 21 PRODUCTS FOR HOME CONSUMPTION**

Include all animals, products, and crops consumed or given away during the last week.

Did you consume or give away any of the following during the last week?

1. How many –
  - a. Quarts of milk? .....  None 402 Quarts
  - b. Chicken eggs? .....  None 403 Dozens
2. Livestock or poultry slaughtered or given away –
  - a. Cattle and calves? .....  None 404 Number
  - b. Hogs and pigs? .....  None 405 Number
  - c. Chickens, turkeys, pigeons, guineas, or others? .....  None 406 Number
  - d. Sheep? .....  None 407 Number
  - e. Goats? .....  None 408 Number
  - f. Rabbits? .....  None 409 Number
3. Crops –
  - a. Coffee? .....  None 410 Lbs.
  - b. Plantains? .....  None 411 Hds.
  - c. Bananas? .....  None 412 Hds.

**Section 22 INSECTICIDES, HERBICIDES, FUNGICIDES, OTHER PESTICIDES, LIME, AND OTHER CHEMICALS**

Include the materials bought by you, the landlord, or any other person if it was applied by contract. For each item listed, report the cuerdas only once.

Did you use any of these chemical products on this place in the last 12 months?

	Tons used	Cuerdas on which used (1)	
		Cuerdas	Cent.
1. Lime (Do not include gypsum or lime used for sanitation.) .....	413	414	1
2. Chemical products used for spraying, dusting, fumigants, etc. (in the form of powder, liquid, or gas), to control –	415		
a. Insects on crops, cultivated and improved pastures .....	416		
b. Diseases in crops and orchards (blights, smuts, rusts, etc.) .....	417		
c. Weeds or grass in crops and pastures .....			

**Section 23 EXPENSES**

Include your estimate of expenses paid by you as well as others (landlord contractors, buyers, etc.) for crops, livestock, or livestock products produced on this place.

How much did you spend in the last 12 months for the following?

1. Livestock and poultry purchased – cattle, calves, hogs, pigs, sheep, lambs, goats, horses, baby chicks, started pullets, etc. ....
2. Feed purchased for livestock and poultry – grain, hay, silage, mixed feeds, concentrates, etc. ....
3. Medicines and drugs purchased for livestock and poultry .....
4. Seeds, bulbs, plants, and trees purchased .....
5. Commercial fertilizers .....
6. Gasoline and other fuel and oil products purchased for the farm business – Diesel oil, LP gas, butane, propane, piped gas, kerosene, fuel oil, motor oil, grease, etc. (Do not include costs for items used in the family home or automobile.) .....

11-14-83DEPARTAMENTO DE COMERCIO  
DE LOS ESTADOS UNIDOS  
NEGOCIADO DEL CENSO

A1

CENSO DE AGRICULTURA — 1982  
PUERTO RICO

## A. Identificación del Informe Censal

Número del municipio	Número del DE	USO DEL CENSO	Número de serie de la finca	USO DEL CENSO
Municipio	Barrio			

## B. Nombre y Dirección de Correos del Operador

Nombre  Inicial o segundo nombre  Apellidos Apartado postal, ruta y apartado rural, calle y número Barrio (si es necesario) Ciudad o pueblo  Clave ZIP 

## USO DEL CENSO SOLAMENTE

035      036      037      038      039

**AVISO** — La contestación a esta encuesta es requerida por ley del Congreso de los Estados Unidos (U.S.C., título 13). Por la misma ley, su informe al Negociado del Censo es confidencial. Solamente puede ser visto por empleados juramentados del Censo y puede ser usado solamente para propósitos estadísticos. Este informe censal no puede ser usado para propósitos de impuestos, investigación o reglamentación.

## Sección 1 CUERDAS EN LOS ULTIMOS 12 MESES

Cuando sea necesario informar parte de una cuerda, hágalo en números enteros bajo "centésimos" y no en fracciones o decimales. Ejemplo: Centésimos (Cent.) 05, 10, 25, 75, 95

1. TOTAL DE TIERRA DE SU PROPIEDAD 

(Entrevistador: Si el operador es un administrador asalariado, anote toda la tierra administrada en la "partida 1 — Tierra de su propiedad" y anote esta cantidad en la "partida 4 — Total de cuerdas en este lugar.")

Ninguna	Cuerdas	Cent.
049		
050		
051		
052		

2. TIERRA RENTADA (O ARRENDADA) DE OTROS 3. TIERRA RENTADA (O ARRENDADA) A OTROS. (No incluya las cuerdas trabajadas por medianeros y "agregados.") 

4. TOTAL DE CUERDAS EN ESTE LUGAR  (Entrevistador: Suma la tierra de su propiedad (partida 1) a tierra arrendada de otros (partida 2), restéle la cantidad de tierra arrendada a otros (partida 3) y anote el total aquí. Para tierra administrada anote la cantidad de la partida 1)

## 5. TIERRA RENTADA DE OTROS (Dé la siguiente información para cada uno de los dueños de tierra.)

Nombre	Dirección	Cuerdas	Cent.
		053	
		054	
		055	
		056	
		057	
		058	

## 6. TIERRA RENTADA A OTROS (Dé la siguiente información para cada uno de los arrendatarios.)

Nombre	Dirección	Cuerdas	Cent.
		059	

## 7. TIERRA ADMINISTRADA COMO ADMINISTRADOR ASALARIADO (Dé la siguiente información concerniente a su patrón.)

Nombre	Dirección	Cuerdas	Cent.
		060	

## Sección 2 LOCALIZACION DE LOS TERRENOS AGRICOLAS QUE OPERABA EN LOS ULTIMOS 12 MESES

1. ¿Estaban todos los terrenos agrícolas situados en el municipio y barrio indicado en la partida A, arriba?  No — Llene esta sección  Sí — Pase a la sección 3

Anote en la primera línea el barrio y el municipio donde mantenía las operaciones principales; anote luego los barrios y municipios adicionales en los espacios provistos. Si es necesario, continúe en "Comentarios" en la última página

Barrio y municipio principal	Nombre del barrio	Municipio	Cuerdas	Cent.
			065	
			066	
Otros barrios y municipios			067	
			068	
TOTAL DE CUERDAS (Debe ser igual al número de cuerdas en la sección 1, partida 4)			069	

(Tenga la bondad de corregir errores en el nombre, dirección, y clave ZIP)

## Sección 3 CAÑA DE AZUCAR

## 1. ¿Se produjo alguna CAÑA DE AZUCAR en este lugar en los últimos 12 meses?

- Sí — Llene esta sección  
 No — Pase a la sección 4

Cuerdas cosechadas (1)	Toneladas cosechadas (2)

245	1	

**Sección 11 USO DEL TERRENO EN LOS ULTIMOS 12 MESES**

El propósito de esta sección es el de distribuir toda la tierra en este lugar entre las partidas 2 a la 4 a continuación, de acuerdo al uso que se le dió en los últimos 12 meses.

1. "TOTAL DE CUERDAS EN ESTE LUGAR" viene de la sección 1, partida 4, página 1

Cuerdas	Cent.
250	1

**RECORDATORIO:** Si el mismo terreno se utilizó para dos o más propósitos, informe ese terreno sólo una vez — en la primera partida que se aplique.

2. **TERRENO CULTIVADO** (Incluya el terreno cosechado, terreno donde los cultivos se perdieron, terreno bajo cultivo, haya sido o no cosechado, terreno en descanso, etc.)

- a. Terrenos en cultivos o terrenos cultivables .....  
 b. Terreno en descanso (se aplica a terreno en barbecho) .....

Ninguna	Cuerdas	Cent.
251	1	
252	1	
253	1	
254	1	
255	1	
256	1	
257	1	
258	1	

5. **TOTAL DE CUERDAS** — Sume las cuerdas informadas en las partidas 2 a la 4 y anote el total aquí. El total debe ser igual a la partida 1 de esta sección.

**Sección 12 RIEGO**

1. ¿REGÓ usted algún terreno en este lugar durante los últimos 12 meses?

- Sí — Llene esta sección  
 No — Pase a la sección 13

Ninguna	Cuerdas	Cent.
264	1	
265	1	

2. Cuerdas que se regaron utilizando SISTEMAS DE RIEGO PUBLICO .....

3. Cuerdas que se regaron utilizando SISTEMAS DE RIEGO PRIVADO (de pozos profundos, ríos, riachuelos, etc.) .....

4. Fuente principal de abasto de agua para regar

- 266 1  Pozo o cisterna 4  Estanques  
 2  Río o quebrada 5  Otro — Especifique  
 3  Lago o charca

**Sección 13 CERDOS**

1. ¿Tiene usted o cualquiera otra persona CERDOS o CERDITOS en este lugar, o se vendió alguno en los últimos 12 meses?

- Sí — Llene esta sección

- No — Pase a la sección 14

Había en este lugar el 1 de julio de 1983 (1)	Fueron vendidos en los últimos 12 meses (2)
272	273
274	275
276	277
278	279
280	281

Sí — Llene esta sección

No — Pase a la sección 14

2. Cerdos y cerditos de todas las edades y sexos

(La suma de los totales en las partidas "2a" y "2b" debe ser igual a la partida 2.) .....

- a. Menores de seis meses de edad .....

- b. De seis meses o más de edad .....

3. Cerdas paridoras y cerditas retenidas para la crianza .....

4. Pedretones de todas las edades retenidos para la crianza .....

**Sección 14 GANADO VACUNO**

1. ¿Tiene usted o cualquiera otra persona algún GANADO VACUNO en este lugar, o se vendió alguno de este lugar en los últimos 12 meses?

- Sí — Llene esta sección  
 No — Pase a la sección 15

2. **Ganado y novillos de todas las edades:** (Si "Ninguno," marque (X) y pase a la partida 3 de esta sección) . . . . .

Número en este lugar el 1 de julio de 1983	
Ganado para leche	Ganado para carne y otro ganado
(1)	(2)
287	288
289	290
291	292
293	294
295	296
297	298

ENTREVISTADOR La suma de las preguntas "2a" a la "2e" debe ser igual al total en la partida 2

3. Cuartillos de leche vendidos durante los últimos 12 meses . . . . .

Ninguno 219 Cuartillos vendidos

4. Ganado vacuno de este lugar vendido en los

últimos 12 meses (Incluya aquéllos que fueron alimentados por contrato y se los llevaron de este lugar en los últimos 12 meses.)

Ganado lechero vendido	Ganado para carne y otros vendidos
300	301
302	303

a. Becerritos y bécarras . . . . .

b. Todo otro ganado excluyendo bécarras y bécarras . . . . .

**Sección 15 OTROS ANIMALES DE LA FINCA**

1. ¿Tiene usted o alguna persona CABALLOS, OVEJAS, CABROS, ABEJAS, u otra clase de ganado en este lugar, o se vendió alguno en los últimos 12 meses? (Incluya todas las edades y sexos)

- Sí — Llene esta sección  
 No — Pase a la sección 16

**2. Especifique**

Código	Había en este lugar el 1 de julio de 1983	Fueron vendidos en los últimos 12 meses
(1)	(2)	(2)
		,
		,
		,

**OTRA CLASE DE GANADO**

Nombre	Código	Nombre	Código
Caballos	304	Colmenas de abejas	312
Mulas y burros	306	Miel de abejas	314
Ovejas de ambos sexos	308	Conejos	316
Cabros de ambos sexos	310	Otros - Especifique	318

**Sección 16 AVES**

1. ¿Tiene usted o cualquiera otra persona GALLINAS, POLLONAS, GALLOS, POLLOS, o cualquier otra ave en este lugar, o se vendió alguna de este lugar en los últimos 12 meses?

- Sí — Llene esta sección  
 No — Pase a la sección 17

**2. ¿Cuántas —**

a. Gallinas ponedoras (No incluya pollonas criadas para la venta)

Había en este lugar el 1 de julio de 1983	Fueron vendidas en los últimos 12 meses (Incluya las aves que fueron alimentadas a base de contrato y se llevaron de este lugar en los últimos 12 meses)
(1)	(2)
320	321
322	323
324	325
326	327
328	329
330	331
332	333
	335 Docenas

(1) Menores de un año de edad? . . . . .

(2) De un año de edad o más? . . . . .

b. Pollonas? (Incluya las que se crían para la venta solamente) . . . . .

c. Gallos de pelea? . . . . .

d. Otros gallos? . . . . .

e. Pollos? . . . . .

f. Otras aves? (Pavos, palomas, guineas, etc.) . . . . .

g. Huevos de gallina? . . . . .

**Sección 17 TIPO DE ORGANIZACION DE LA FINCA**

¿Cuál de estas declaraciones describe mejor el tipo de organización de su finca?

FINCA INDIVIDUAL O DE FAMILIA . . . . .

341 1

SOCIEDAD . . . . .

2

CORPORACION . . . . .

3

OTRO . . . . .

4

Sucesión, cooperativa, otro tipo — Especifique

**Sección 18 VENTAS**

¿Cuál fué el valor total en el mercado de los productos agrícolas vendidos de este lugar en los últimos 12 meses, antes de descontar los impuestos y gastos?

Dólares únicamente
347 \$ .00
348 \$ .00
349 \$ .00
350 \$ .00
351 \$ .00
352 \$ .00
353 \$ .00
354 \$ .00
355 \$ .00
356 \$ .00
357 \$ .00
358 \$ .00
359 \$ .00

**Sección 19 OTROS INGRESOS RELACIONADOS CON LA FINCA**

¿Cuánto recibió usted en los últimos 12 meses de lo siguiente?

Dólares únicamente
385 \$ .00
386 \$ .00
387 \$ .00
388 \$ .00

**Sección 20 CARACTERISTICAS DEL OPERADOR DE LA FINCA**

Todas estas preguntas se relacionan a la persona que opera esta finca.

1. ¿En qué año empezó usted a operar estos terrenos?

394 \_\_\_\_\_ Año

2. ¿Dónde vive usted (el operador de estos terrenos)?

- 395 1  En estos terrenos? 4  En la ciudad o pueblo?  
 2  En otra finca? 5  Fuera de Puerto Rico?  
 3  En la zona rural, pero no en una finca?

3. ¿Qué edad tiene usted (el operador) ahora?

396 \_\_\_\_\_ Años de edad

4. Grado o año escolar más alto que completó (Marque un encasillado)

- |                          |                          |                          |                          |                          |                          |                          |                               |

8. ¿Cuál es su (el operador) ocupación principal?

- |  |  |
|--|--|
| 401 1 <input type="checkbox"/> Agrícola              |  |
| 2 <input type="checkbox"/> No agrícola — Especifique |  |

Estas preguntas  
deberán ser contestadas  
por el ENUMERADOR  
DEL CENSO.

- a. ¿El número de la A1 termina en 2 o en 7? .....  Sí  No  
b. ¿Las cuerdas que se informan en la sección 1,  
partida 4, son 50 o más? .....  Sí  No

#### Sección 21 PRODUCTOS PARA EL CONSUMO DEL HOGAR

Incluya todo animal o sus productos y cosechas consumidos o regalados durante la semana pasada.

¿Consumió usted o regaló algunos de los siguientes durante la semana pasada?

1. ¿Cuántos —  
a. Cuartillos de leche? .....  Ninguno  402  Cuartillos  
 403  Docenas  
b. Huevos de gallinas? .....  404  Número  
c. Pollos, gallinas, pavos, palomas, guineas o cualquier otra ave? .....  405  Número  
 406  Número  
 407  Número  
 408  Número  
 409  Número  
d. Ovejas? .....  410  Lbs  
e. Cabros? .....  411  Cientos  
f. Conejos? .....  412  Cientos  
3. ¿Cosechas —  
a. Café? .....  413  Toneladas usadas  
b. Plátanos? .....  414  Cuerdas en las cuales fueron usados (2)  
c. Guineos? .....  415  Cuerdas  
 416  Cent  
 417  Cent

#### Sección 22 INSECTICIDAS, YERBICIDAS, FUNGICIDAS, OTROS PESTICIDAS, CAL Y OTROS PRODUCTOS QUÍMICOS

Incluya los comprados por usted, el dueño del terreno, o por otras personas si se ha contratado la aplicación. Por cada renglón enumerado, informe el número de cuerdas sólo una vez.

¿Usó usted algunos de los siguientes productos químicos en este lugar en los últimos 12 meses?

1. Cal (No incluya yeso o cal usada para saneamiento.) .....  
2. Productos químicos que se usan para asperjar, rociar, fumigar, etc. (en polvo, líquido o en estado gaseoso) para controlar —  
a. Los insectos en cosechas, en pastos cultivados y mejorados .....  
b. Las enfermedades de las cosechas y de los huertos (añublo, tizón, manchas, moho, etc.) .....  
c. La maleza y las malas yerbas en los cultivos y en el pasto .....

#### Sección 23 GASTOS

Incluya estimado de gastos costeados por el agricultor como también por otros (propietario, contratista, comprador, etc.) en cosechas, ganado o productos de ganado que se produjeron en este lugar.

¿Cuántos dólares gastó en los últimos 12 meses en lo siguiente?

1. En comprar ganado y aves — ganado vacuno, cerdos, cerditos, cabras, caballos, gallinas, pollitos, pollonas, etc. .....  
2. En alimentos para ganado y aves — granos, heno, ensilaje, alimentos mezclados, concentrados, etc. .....  
3. Medicamentos o drogas compradas para el ganado y aves .....  
4. En comprar semillas, bulbos, plantas y arbolitos .....  
5. En comprar abonos comerciales .....  
6. En gasolina y otros productos de petróleo comprados para el uso del negocio de la finca — Aceite Diesel, LP gas, butano, propano, gas kerosina, aceite combustible, aceite de motor, grasa, etc. (No incluya los gastos en estos productos para el uso de la vivienda o el automóvil de la familia.) .....  
7. En jornales y salarios a empleados y obreros de la finca. (Incluya todo el dinero que pagó en efectivo por trabajo en la finca, incluyendo pagos a miembros de la familia, y pagos por Seguro Social. No incluya trabajo doméstico, ni trabajo por contrato.) .....  
8. En trabajo por contrato. (Incluya gastos relacionados principalmente por labores agrícolas a base de contratos hechos con un contratista, corporación, cooperativa, etc.) .....  
9. En alquiler de maquinaria y en trabajo hecho según pedido (customwork) tales como arado, sembrado, cosechado, preparación de siembra, rociado y pulverizado de productos químicos, etc. .....  
10. En productos químicos agrícolas comprados .....  
418 \$ .00  
419 \$ .00  
420 \$ .00  
421 \$ .00  
422 \$ .00  
423 \$ .00  
424 \$ .00  
425 \$ .00  
426 \$ .00  
427 \$ .00

#### Sección 24

#### MAQUINARIAS AGRICOLAS, EQUIPO, EDIFICIOS Y OTRAS FACILIDADES EN ESTE LUGAR JULIO 1, 1983

1. ¿Cuántos de los siguientes se encontraban en este lugar el 1 de julio de 1983?  
(Incluya toda maquinaria, equipo, edificios y facilidades en este lugar, sea o no de su propiedad, con tal que funcione bien.)

##### A. Maquinaria y Equipo Seleccionado

	Ninguno	Número
1. Automóviles, jeeps, camionetas y camiones	<input type="checkbox"/>	432
2. Tractores de rueda de goma	<input type="checkbox"/>	433
3. Tractores de oruga	<input type="checkbox"/>	434
4. Carretones (Tirados por bueyes o tractor)	<input type="checkbox"/>	435
5. Despulpadoras de café	<input type="checkbox"/>	436
6. Secadoras mecánicas de café	<input type="checkbox"/>	437
7. Secadoras de café al sol o aire libre	<input type="checkbox"/>	438
8. Lavadoras mecánicas para café	<input type="checkbox"/>	439
9. Ordeñadoras mecánicas	<input type="checkbox"/>	440
10. Tanques para enfriar leche	<input type="checkbox"/>	441
11. Plantas auxiliares de energía eléctrica	<input type="checkbox"/>	442

##### B. Edificios y Facilidades Seleccionadas

	Ninguno	Número
1. Edificios para almacenar cultivos	<input type="checkbox"/>	443
2. Edificios para maquinaria	<input type="checkbox"/>	444
3. Casas para agregados y otros empleados de la finca	<input type="checkbox"/>	445

2. ¿Cuál es el valor estimado en el mercado de TODA la maquinaria y el equipo, usualmente mantenido en este lugar y que se utilizan para operar la finca? (Incluya carros, camiones, tractores, arados, discos, rastillos, secadoras, bombas, motores, equipo de regar, equipo de vaquerías incluyendo ordeñadoras y tanques de enfriamiento para leche, comederos para el ganado, moldeadoras y equipo de mezclar, etc.)

Valor estimado en  
el mercado  
(Dólares únicamente)

\$	446	00
----	-----	----

#### Sección 25 OBREROS AGRICOLAS, AGREGADOS Y MEDIANEROS

1. ¿En los últimos 12 meses, tenía usted empleados algunos obreros haciendo trabajos de la finca en este lugar (no incluya a empleados contratados por otros los cuales le hicieron trabajo a usted), o vivía alguna familia de agregado o medianero en este lugar para el 1 de julio de 1983?

Sí — Llene esta sección

No — Pase a la sección 26

2. ¿Entre los obreros agrícolas empleados, cuántos trabajaron en este lugar —

- { a. 5 meses o más? .....   
b. Menos de 5 meses? .....

Ninguno	Número
452	Trabajadores
453	Trabajadores
454	Familias

3. ¿Cuántas familias de agregados y medianeros vivían en este lugar el 1 de julio de 1983? .....

COMENTARIOS — Haga cualquier comentario que sea necesario en relación a esta finca, c sobre el dueño u operador, sobre cosechas, rendimiento por cuerda, tamaño de la finca, nombre y dirección del dueño de los terrenos si ésta es administrada o arrendada, etc.

#### Sección 26 PERSONA COMPLETANDO ESTE INFORME — Por favor use letra de molde

Nombre \_\_\_\_\_ Fecha \_\_\_\_\_
